HISTORY OF DEBT.—New Hampshire's debt history is very brief This State has always been extremely conservative, and no bonds were issued until after the breaking out of the Civil War. In 1866 New Hampshire reported her funded indebtedness at $4,169,816, contracted exclusively for war purposes. June 1 1869 the total outstanding was $3,213,962.22, against which the Treasurer reported an asset of $77,082.89 The State debt at the present time is as follows:

LOANS— Name and Purpose—		Interest— %	Payable.	Principal— When Due.	Outstand'g
Hospital, 1909	c	3½	J & J	July 1 1929	85,000
				July 1 '30-'35	450,000
War loan bonds	c	4½	J & J	July 1 1936	50,000
Loan of 1873 (overdue)		---	------	----------	500

PAR VALUE OF BONDS.—The bonds are in $500 and $1,000 pieces.

INTEREST is payable at the National Shawmut Bank of Boston and at State Treasurer's office.

TAX-EXEMPT.—Bonds are tax exempt as to principal; interest taxable to an individual, partnership or fiduciary if issued subsequent to May 4 1923.

TOTAL DEBT.—There was a net debt on June 30 1926 of $457,221.37.

	June 30 '26.	June 30 '25.	June 30 '24.	June 30 '23.
Total funded debt	$741,000	$1,535,500	$1,619,500	$2,404,500
Trust funds	1,141,090	1,143,911	1,134,435	1,129,252
Floating debt	100	100	100	100
Total debt	$1,882,190	$2,679,511	$2,754,035	$3,533,852

STATE AND MUNICIPAL INDEBTEDNESS.—We give below a table showing the net State, county, city, town, school and precinct indebtedness for a series of years:

1925	$17,313,457.75	1920	$12,683,313 05	1915	$10,680,954 68
1924	13,687,987.71	1919	12,817,489 93	1914	10,085,058 45
1923	15,329,744 66	1918	11,947,429 71	1913	9,884,814 93
1922	12,799,571 47	1917	*11,345,089 06	1912	9,978,682 35
1921	11,950,881 52	1916	10,902,223 35	1911	10,106,067 55

* Thirty-one school districts not included.

ASSESSED VALUATION.—The State's total assessed valuation was as below. The average tax rate (State, county and local) for 1920 (per $1,000) was $23.70; for 1921 it was $24.80; in 1922 and 1923 it was $24.40 for 1924, $24.90; 1925, $26.90, and for 1926, $26.70.

Years—	Assessed Val	Years—	Assessed Val.	Years—	Assessed Val.
1926	$620,524,212	1917	$428,107,097	1905	$225,082,628
1925	597,035,634	1916	410,150,583	1904	220,624,307
1924	588,422,877	1915	398,845,480	1902	214,616,655
1923	574,352,051	1914	390,877,626	1900	209,670,845
1922	566,469,344	1912	* 390,086,029	1898	204,734,731
1921	531,154,014	1911	263,074,386	1896	200,957,600
1920	511,456,583	1910	255,085,571	1894	197,839,543
1919	469,858,171	1908	244,971,264	1893	196,117,060
1918	453,327,679	1906	231,641,571	1881	168,964,903

The preceding values are simply the aggregate of the inventories of the various towns in the State. In addition, the State taxes at different rates savings banks and trust companies, insurance capital, railroads, building and loan associations, telegraph and telephone companies, parlor car and express companies. These, less exemptions allowed by statute, in 1922 amounted to $155,052,210, in 1923 to $151,337,443, in 1924, $146,825,319, and in 1925 to $148,898,857, and in 1926, $160,148,854.

* Chapter 169, Laws of 1911, created a permanent tax commission, one of whose duties it is to equalize valuations in the year 1912 and every second year thereafter, so that the same shall represent the "true and market value" of property. This accounts for the large increase in the valuation of 1912.

POPULATION OF STATE—

1920	443,083	1880	346,991	1840	284,574	1800	183,858
1910	430,572	1870	318,300	1830	269,328	1790	41,881
1900	411,588	1860	326,073	1820	244,165		
1890	376,530	1850	317,976	1810	214,460		

FISCAL YEAR.—Chap. 19, Laws of 1921, provides that the fiscal year of State reports shall close on June 30 and that biennial reports shall be issued on June 30 in even years.

PROPOSAL FOR REVISION OF STATE CONSTITUTION DEFEATED.—On Nov. 4 1924 a proposal calling for a convention to revise the State Constitution was voted down. The count was 22,520 for to 42,616 against.

DEBT LIMITATION.—There is no restriction in the constitution of New Hampshire upon the debt-making power of the people through the "General Court," *except* the following, which is the last clause of Article 5 of Part Second of that instrument.

Provided, That the General Court shall not authorize any town to loan or give its money or credit directly or indirectly for the benefit of any corporation having for its object a dividend of profits or in any way aid the same by taking its stocks or bonds.

The above is an amendment to the constitution which was ratified in 1877. The amendment would appear to be intended as a complete estoppel to municipal loaning of money or credit to railroad and industrial corporations. It is to be noticed, however, that by its terms the restriction does not specifically mention "cities," the words being "any town."

By Chap. 16 of the Public Statutes (1901) which chapter defines the duties of the State Treasurer, that official was authorized, at the direction of the Governor and Council to borrow in an amount not to exceed $55,000 for the purpose of refunding debts, the interest rate and the term of bond not to exceed 6% and 5 years, respectively. In 1905 an amendment raised the amount that could be borrowed under authority of the Act to $300,000, and in 1921 it was raised to $600,000, and the 6% interest limit struck out. The Section now reads:

Sec. 6. If money due from the State is demanded, and there are not sufficient funds in the treasury available for the payment of the same, the Treasurer, under the direction of the Governor and Council, is hereby authorized to borrow, on the State's credit, for a period of not more than 5 years, at the lowest rate of interest obtainable, such sums as may be necessary; but the entire indebtedness incurred under this authority shall not exceed the sum of $600,000 per annum.

In addition to the foregoing is the "Municipal Bond Act of 1895" as amended by Chapter 129, Laws of 1917. It tells in the matter of issuing bonds what a municipal corporation may do, what it must do, and what it cannot do. As it now stands the law may be summarized as follows:

Sec. 1. The term "municipal corporation" means town, city, school district, village district and village precinct. *Sec.* 2. (Repealed by Chaper 129, Laws of 1917.) Sec. 3. Bonds (except of cities) must be authorized by a vote of two-thirds of all voters present and voting at an annual meeting of such corporation, or at a special meeting properly called, &c. (for which see Act). Bonds must be signed by a majority of the Governing Board, countersigned by Treasurer and have seal of corporation. Time and place of payment and rate of interest, &c., may be delegated to Governing Board. *Sec.* 4. City bonds must be authorized by resolution of City Council passed by at least two-thirds of members elected to each branch, taken by yeas and nays, signed by Mayor, countersigned by Treasurer, seal of city affixed. Place of payment, rate of interest and sale may be delegated to Treasurer. *Sec.* 5. Bonds shall be payable to bearer or to registered holder by name, and must be in form set out in Act—which see. In case bonds be made

subject to call, they must contain statement to that effect as given in Act. "The validity of any bonds shall not be affected by any variation from the forms herein prescribed." *Sec.* 6. Treasurer to keep a book in which he shall register bonds issued, &c. *Sec.* 7. "All bonds purporting to be issued by virtue or in pursuance of this Act and signed and sealed as hereinbefore provided shall, in favor of bonafide holders, be conclusively presumed to have been duly and regularly authorized and issued in accordance with the provisions herein contained, and no holder thereof shall be obliged to see to the existence of the purpose of the issue or to the regularity of any of the proceedings or to the application of the proceeds. All such bonds shall be negotiable in all respects and to the same extent as securies negotiable by the law merchant." *Sec.* 8. Annual tax must be levied and collected sufficient to pay interest and provide a sinking fund suffieient to pay principal within 20 years. *Sec.* 9. (Repealed by Chapter 129, Laws of 1917.)

The amendment of 1917, in addition to repealing Secs. 2 and 9 of the above Act in Sec. 1, abolished sinking funds in municipalities and counties; the exception, however, being made that those established at the time the amendment was adopted were to be continued. Section 2 of the 1917 Act provided that municipalities and counties, from 1917 on, must pay off bonds in annual installments, the amount in any one year to be not less than the payment in any subsequent year. Payments must begin within two years after date of the bonds. Sec. 3 prohibits the future issuance of notes payable on demand. Provision is made in Sec. 6 that counties and municipalities, for buildings and permanent public improvements, for the acquisition of land, for the purchase of departmental equipment of a lasting character, and for the payment of judgments, may issue serial bonds maturing within 20 years. In Sec. 7 new limitations upon the percentage (of assessed valuations) of debt that might be incurred were fixed as follows: Counties, cities and towns, 3%; school districts, 2%; village precincts, 1%; the debt upon any territory, combining county, town, district, &c., shall not be in excess of 6% of the assessed valuation of property. Bonds for water supply purposes and notes in anticipation of taxes may be issued outside the debt limits prescribed.

Exceptions have been made to this law from time to time in special instances. For example, in 1923 the Legislature passed an Act (Chapter 227) allowing the City of Nashua, operating as a single corporation, to incur debts to the amount of 6% of its valuation.

TAXATION OF STATE AND MUNICIPAL BONDS.—Chap. 55 of the Laws of 1907 provides that any city, town, precinct or village district may exempt from taxation any future issue of its bonds, provided such exemption shall apply only to bonds owned and held by citizens of said city, town, precinct or village district. *State* bonds were left subject to taxation unless exempted by the terms of the Act under which they are issued.

In 1913 the privilege of exemption was extended by Chapter 51 of the Acts for that year to future bond issues by school districts when held by residents. Another Act of 1913 (Chapter 112) exempts from taxation all the bonds or notes *of the State* or any of its minor civil divisions bearing not exceeding 5% interest.

SAVINGS BANKS INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—The savings bank investment laws of New Hampshire were completely revised and materially altered in many respects at the Legislative session of 1917. An explanation of the changes made was published by us in the "Chronicle" of May 19 1917, pages 2028 to 2030, inclusive. The law was again revised in 1921 (see the "Chronicle" of May 21 1921, pages 2214 to 2216, inclusive). The principal changes were the reduction of the amount of the railroad, public utility and industrial stocks that a savings bank may hold, from 25% to 10%, and the new paragraphs 4 and 5 under Section 12 in relation to equipment securities of railroads. Amendments were made in 1925 and in 1927 another revision was made. The full text of the law as it now stands follows, the section numbers used being taken from the Bank Commissioner's compilation of the law:

Section 1. On and after the passage of this act savings banks and savings departments of banking and trust companies shall make investment of their funds in the following classes of securities only:

Sec. 2. For the purposes of this act a note shall be construed as a written promise of an individual, firm, corporation or voluntary association, signed by the maker, to pay a specified sum of money on demand or at a fixed or determinable future time, but not issued under indenture or deed of trust. A bond shall be construed as a note issued under indenture or deed of trust.

Sec. 3. The following are legal investments:

1. In notes or bonds directly secured by first mortgage on real estate situated within the State of New Hampshire; but no such investment shall be in a loan that exceeds 70% of the value of the real estate by which it is secured and not exceeding 75% of the deposits shall be so invested, except by permission of the bank commissioners

Those directly secured by first mortgage on real estate situated without this State, but entirely within the United States, which at the time of such investment is improved, occupied and productive; but not exceeding 40% of the deposits shall be so invested, and no such investment shall be in a loan that exceeds 50% of the value of the real estate by which it is secured, unless the loan is further secured by a guaranty satisfactory to the Bank Commissioner, in which case it shall not exceed 60% of the value of the real estate by which it is secured. The provisions of this paragraph shall not apply to bonds of railroad or public service corporations.

3. In notes or bonds directly secured by first mortgage on timber lands situated within the States of Maine and Vermont; but not exceeding 5% of the deposits shall be so invested, and no such investment shall be in a loan that exceeds 50% of the value of the real estate by which it is secured.

4. In notes secured by collateral in which the bank is at liberty to invest, of a value at least 10% in excess of the value of the note, and in bonds secured by collateral in which the bank is at liberty to invest under paragraphs 1, 2, 3, 4 and 8 of Section 4, of a value of at least 10% in excess of the value of the note. The amount of any one class of securities so taken as collateral, added to that which the bank may own at the time, shall not exceed the total limit of investment in that class of security; but not exceeding 25% of the deposits shall be so invested.

5. In notes secured by collateral securities which are dealt in on the Stock Exchanges of Boston or New York, the Stock Exchange price of which shall at all times be at least 20% in excess of the amount due upon the note, while held by the bank; but not exceeding 25% of the deposits shall be so invested.

6. In notes secured by any savings bank deposit book issued by any savings bank chartered under the laws of any New England State; or in notes secured by the depositor's pass-book of any building and loan association of this State, *provided* that the investment shall not be in excess of the withdrawing value of said pass-book.

7. In notes with two or more signers, or one or more indorsers, or in acceptances of member banks of the Federal Reserve System of the kinds and maturities made eligible for rediscount or purchase by Federal Reserve banks, or in notes of makers whose net assets are not less than $250,000 and whose total indebtedness does not exceed 50% of their quick assets; but not exceeding 5% of the deposits shall be loaned to any one borrower on this class of security; and not exceeding 30% of the deposits shall be invested under the provisions of this paragraph, *provided* that, except in notes with two or more signers, or one or more indorsers, or in said acceptances, no savings bank shall invest under this paragraph unless its guaranty fund is full and unimpaired and the total value of its assets as determined by the Board of Bank Commissioners shall exceed the amount of its deposits by at least 10%.

8. In bonds issued under the provisions of the Federal Farm Loan Act, but not more than 5% of the deposits shall be so invested.

9. *Certificate of Value of Real Estate.*—A statement in such form as may be required by the Bank Commissioner, signed by the board or officer passing upon loans secured by real estate, as described in paragraphs 1, 2 and 3, shall be attached to each note so secured, certifying that to the best of their or his knowledge and belief said loan did not exceed, on the date of making, the legal percentage of the value of the real estate by which it is secured.

10. *Limitation.*—Not exceeding 5% of the deposits shall be loaned to any one borrower on the classes of security described in this section.

MUNICIPAL BONDS.

Sec. 4. For the purposes of this section a Municipality shall be construed as a county, city, town, village, district, precinct or other municipal corporation; a Municipal Bond shall be construed as an interest-bearing obligation of a government, State, province or municipality, to provide for the interest and principal requirements of which taxes may be levied on all taxable property within the confines of the obligor; Net Debt shall be construed as debt after deducting sinking funds available for the payment of such debt and the net outstanding debt created for supplying the inhabitants with water; Assessed Valuation shall be construed as the nearest preceding valuation of property for purposes of taxation; and populattion shall be construed as the number of inhabitants in accordance with the nearest preceding census taken under Federal or State authority.

Sec. 5. Not exceeding 5% of the deposits shall be invested in the bonds of any one municipality; and not exceeding in the aggregate 10% of the deposits shall be invested in the bonds of the Dominion of Canada, its provinces and cities.

Sec. 6. The following are legal investments:

1. In the public funds of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal.

2. In the authorized bonds and notes of this State, or of any of its municipalities.

3. In the authorized bonds or notes of any State or territory of the United States; and in the authorized bonds or notes of any city of the States of Maine, Vermont, Massachusetts, Rhode Island, Connecticut, or New York, whose net indebtedness does not exceed 7% of the last preceding valuation of the property therein for taxation; or of any municipality in said States whose net indebtedness does not exceed 5% of such valuation.

4. In the authorized bonds of any municipality of any other of the United States or territories whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for taxation; and in the authorized bonds of any city of 50,000 inhabitants of any of said States whose net indebtedness does not exceed 7% of the last preceding valuation of the property therein for taxation. *Provided*, that the bonds of any county, city, or town of less than 10,000 inhabitants, or of any school district or other municipal corporation of less than 2,000 inhabitants in any State or territory other than those named in paragraph 3 of this section shall not be authorized investments.

5. In the authorized bonds or notes of the Dominion of Canada and in bonds or notes the principal and interest of which are guaranteed by the Dominion of Canada.

6. The authorized bonds of any province of the Dominion of Canada and of the Colony of Newfoundland, and bonds issued by the Canadian National Railways or constituent corporations of the system owned or controlled by the Canadian National Railways, the principal and interest of which are guaranteed by any province of the Dominion of Canada.

7. In the authorized bonds of any city of the Dominion of Canada, with a population of not less than 50,000, whose net debt does not exceed 7% of the last preceding valuation of the property therein for taxation.

OTHER BONDS, NOTES AND STOCKS.

Sec. 7. For the purposes of this chapter company shall mean a corporation or voluntary association organized under the laws of the United States or any State thereof and located and doing business principally within the United States; public service company, a company doing principally a water, gas, heat, ice, electric light or electric power business, or a combination of two or more said businesses; mortgage bonds, bonds secured primarily by direct and foreclosable lien on physical property owned by the obligor; years, calendar year, fiscal years or nearer periods of twelve months next preceding such investment; net income, income after deducting operating expenses, taxes, insurance, rentals, guaranteed interest and guaranteed dividends and expenditures for maintenance; and annual interest, interest actually paid in each year, except that for the latest year it shall mean one year's interest on the total amount outstanding at the time of the investment.

Sec. 8. Not exceeding 65% of the deposits shall be invested in securities authorized under Sections 9 to 12 incl., not exceeding 5% of the deposits shall be invested in the securities of any one company; and not exceeding 10% of the deposits shall be invested in securities authorized by Sections 9 to 12 inclusive other than bonds, notes, equipment, securities and receivers' certificates, provided that not exceeding 15% of the deposits may be so invested whenever the assets of any bank, as determined by the Bank Commissioner, shall exceed the deposits by as much as 15% thereof. No investment shall be made in the securities of a corporation authorized by paragraphs 8, 9 and 10 of Section 12 of Section 12, unless at least 75% of the gross income of such corporation is derived from the direct operation of its water, heat, ice, gas, electric light and electric power business, or a combination of two or more of the foregoing described businesses.

Sec. 9. No investments shall be made in securities authorized under paragraphs 1, 2, 8 and 10 of Section 12 of Section 12 unless the net income of the company in question in each of the three years next preceding such investment shall have been not less than one and one-quarter times the annual interest on its entire funded debt.

Sec. 10. In the case of a company formed by the consolidation of two or more existing companies, the net income and annual interest for the years preceding such consolidation shall be the combined net income and annual interest of the consolidated companies.

Sec. 11. The change of motive power by any steam railroad company, whether wholly or in part, shall not affect the eligibility for investment of any steam railroad obligations.

Sec. 12. Subject to the foregoing investments may be made as follows:

STEAM RAILROAD SECURITIES.

1. In bonds or notes issued or assumed by steam railroad companies and in mortgage bonds of companies controlled by such companies for the refunding of which mortgage bonds of such companies are specifically reserved, *provided* that in each of the three years next preceding such investment the net income of such companies shall have been either (1) not less than ten million dollars ($10,000,000) and not less than one and one-half (1½) times the annual interest on the obligations in question and all other obligations of corresponding or prior lien, or (2) not less than two million dollars ($2,000,000) and not less than one and three-quarters (1¾) times the annual interest on the obligations in question and all other obligations of corresponding or prior lien.

2. In mortgage bonds guaranteed as to principal and interest by such companies, *provided* that in each of the three years next preceding such investment the net income of the obligor company shall have been not less than five hundred thousand ($500,000) and not less than one and one-half (1½) times the annual interest on the obligations in question and all other obligations of corresponding or prior lien.

3. In the mortgage bonds of terminal or bridge companies guaranteed as to principal and interest, by two or more such companies.

4. In equipment securities issued or guaranteed as to principal and interest by such companies, or by the Canadian National Railways or constituent corporations of the system owned or controlled by the Canadian National Railways, or secured as to principal and interest through the medium of a trustee by a prior lien on equipment leased to such companies or the Canadian National Railways or its constituent corporations, *provided* such securities are issued for not exceeding in par value 85% of the cost of standard equipment and wither (1) mature in approximately equal annual or semi-annual installments over a period beginning not more than six years and ending not more than fifteen years from the date of their issue, or (2) mature not more than fifteen years from date of issue and their payment at maturity is provided for by a like series of installment payments to be used for the purchase and retirement of certificates or as a sinking fund.

5. In the prior lien equipment obligations or equipment trust certificates issued by the National Railway Service Corporation or by any such corporation organized under Act of Congress in pursuance of any equipment trust financed in whole or in part through a loan or loans made or approved by the Inter-State Commerce Commission, provided such securities are issued for not exceeding in par value sixty per cent (60%) of the cost of standard equipment and either (1) mature in approximately equal annual or semi-annual installments over a period beginning not more than six years and ending not more than fifteen years from date of their issue, or (2) mature not more than fifteen years from date of issue and their payment at maturity is provided for by a like series of installment payments to be used for the purchase and retirement of certificates or as a sinking fund.

6. In certificates of indebtedness, commonly termed "receiver's certificates," issued by a receiver of any steam railroad under authorization by the court having jurisdiction over such receiver.

7. The dividend-paying capital stock of steam railroad companies of which the net income in each of the 5 years next preceding such investments shall have been either (1) not less than ten million dollars and not less than twice the annual interest on the entire funded debt; or (2) not less than two million dollars and not less than two and one-half times such interest; provided, that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than the current annual dividend requirements on the class of stock in question and all other classes of stock of prior preference; and in each of the five years next preceding such investment shall have been not less than 4% per annum on the class of stock in question and all other classes of stock of prior preference; or in the stock of any steam railroad company that is leased to and whose dividends are guaranteed by such company.

PUBLIC SERVICE COMPANIES.

8. In mortgage bonds issued or assumed by public service companies and in mortgage bonds of companies controlled by such companies for the refunding of which mortgage bonds of such companies are specifically reserved, *provided* that in each of the three years next preceding such investment the net income of such companies shall have been either (1) not less than five hundred thousand dollars ($500,000) and not less than one and three-quarters times the annual interest on the obligations in question and all other obligations of corresponding or prior lien, or (2) not less than two hundred and fifty thousand dollars ($250,000) and not less than twice the annual interest on the obligations in question and all other obligations of corresponding or prior lien and in bonds or notes issued or assumed by public service companies, *provided* that in each of the three years next preceding such investment the net income of such companies shall have been not less than five hundred thousand dollars ($500,000) and not less than two times the annual interest on the obligations in question and all other obligations of corresponding or prior lien; *provided* that in all cases the principal franchise or franchises of such corporations shall not mature prior to the maturity of the obligations in question or that such companies operate under indeterminate franchises or permits and are subject to the regulatory supervision of a State commission of competent jurisdiction or that such companies operate under a franchise or permit in which the capital or investment value of the company's property is fixed or determined when such investment or capital value is in excess of the indebtedness represented by the above obligations.

8a. Certificates of indebtedness, commonly termed receivers' certificates, issued by a receiver of any public service company, under the authorization of the court having jurisdiction over such receiver.

9. The dividend-paying capital stock of senior preference of public service companies, of which the net income in each of the five years next preceding such investment shall have been not less than five hundred thousand dollars and not less than twice the annual interest on the entire funded debt; provided, that the income applicable to the payment of dividends shall during such period of five years have averaged not less than twice the dividend requirements of such stock, and in each of the five years next preceding such investment shall have been no less than 4% per annum on the class of stock in question, and provided that the issue of such stock has been authorized by a State commission of competent jurisdiction.

10. The bonds or notes of public service, telephone and water companies organized under the laws of and located and doing business principally within this State; provided, that the net income of such companies in each of the three years next preceding such investment shall have been no less than twice the annual interest on the obligations in question and all other obligations of corresponding or prior lien, or provided the payment of principal and interest of such bonds or notes is legally guaranteed by a like corporation whose bonds or notes are a legal investment under the provisions of this paragraph; and the capital stock of senior preference of such companies; provided, that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than one and one-eighth times the current annual dividend requirements on the class of stock in question, and in each of the five years next preceding such investment shall have been not less than 4% per annum on the class of stock in question.

TELEPHONE AND TELEGRAPH COMPANIES

11. In bonds or notes issued or assumed by telephone, telegraph, or telephone and telegraph companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars ($10,000,000) and not less than two times the annual interest on the entire funded debt, or (2) not less than two million dollars ($2,000,000) and not less than two and one-half (2½) times the annual interest on the entire funded debt.

12. The dividend-paying capital stock of senior preference of such companies which meet the above income requirements; provided, that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than the current dividend requirements of the class of stock in question, and in each of the five years next preceding such investment shall have been not less than 4% per annum upon the class of stock in question.

BONDS OR NOTES.

13. In bonds or notes issued or assumed by companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars ($10,000,000) and not less than two times the annual interest on the entire funded debt, or (2) not less than two million dollars ($2,000,000) and not less than four (4) times the annual interest on the entire funded debt.

OTHER CAPITAL STOCK.

14. The dividend-paying capital stock of senior preference of companies with net income as provided in paragraph 13; provided, that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than the current dividend requirements of the class of stock in question; or if such companies have no funded debt, then the income applicable to dividends in at least four of the five years next preceding such investment shall have been not less than one and one-fourth times the current dividend requirements of the class of stock in question; and that to be eligible under this paragraph the income of all companies in each of the five years next preceding such investment shall have been not less than 4% per annum upon the class of stock in question.

STOCKS AND BONDS OF NEW ENGLAND MANUFACTURING COMPANIES.

15. The bonds or notes of any manufacturing company organized and doing business in the New England States with an unimpaired capital of two hundred and fifty thousand dollars, and the stock or certificates of interest of such company; provided, that the company has earned in each of the five years preceding such investment dividends of at least 4% on its entire capital stock, and that its net indebtedness does not exceed 50% of its unimpaired capital stock. In case of the issue of new stock, the earnings of the company in addition to the foregoing requirements must have been sufficient in the next year preceding such investment to have paid the average rate of dividend for that year on both the outstanding stock and the new issue. Not exceeding 5% of the deposits shall be invested under the provisions of this paragraph; and no bank shall hold more than 5% of the stock in any such company.

16. In the capital stock of any banking or trust company, or special deposits of guaranty savings banks incorporated under the laws of the State of New Hampshire and doing business therein and in the capital stock of any national bank located in New Hampshire, but not exceeding 10% of the deposits shall be so invested; the amount of stock or special deposits of any such bank which may be held by any savings bank as an investment and as collateral for loans shall not exceed one-fourth of the total capital stock or special deposits of such banking or trust company or guaranty savings bank or national bank.

17. In the capital stock of any national bank or trust company located in the New England States or the State of New York, but not exceeding 10% of the deposits of a savings bank shall be invested in such stock; the amount of stock of any such bank which may be held by any savings bank as an investment and as collateral for loans shall not exceed 10% of the capital stock of said national bank or trust company.

Sec. 13. Unless the guaranty fund of a bank is full and unimpaired and the value of its assets as determined by the Board of Bank Commissioners shall exceed the amount of the deposits by at least 5%, it shall be unlawful for it to invest in any stocks of paragraphs 7, 9, 10, 12 and 14 of section 12 or in any securities of section 12 without the written permission of the Board of Bank Commissioners.

Sec. 14. Whenever in the opinion of the Board of Bank Commissioners the condition of any bank or general financial conditions are such that the board deems it unwise for said bank to invest in said securities, it may by written order forbid such bank to make such investment, and it shall not thereafter be legal for said bank to make such investment until such order shall be revoked in writing.

Sec. 15. In determining the percentage of deposits invested under the provisions of this Act, previous investments held by the banks shall be included.

Sec. 16. The special deposits or guaranty fund of a guaranty savings bank shall not be included in the amount of deposits on which the percentage of any investment is reckoned.

INVESTMENT OF TRUST FUNDS.—(1895) Chapter 71, Sec. 1. (Also Sec. 9, Chapter 178, Public Statutes and Sec. 11, Chapter 198, Public Statutes.) Trustees and guardians shall be authorized to invest funds in their hands in the bonds or direct obligations of any county, city, town, school, fire or water district in New England, when the net debt of said municipality does not exceed 5% of the last assessment of taxes for the purpose of taxation. The term "net debt" shall be construed to denote the indebtedness of any municipality, omitting debt created for supplying the inhabitants with water and deducting the amount of sinking funds available for the payment of the indebtedness of the municipality

Treasurer (term expires Jan. 1929).....Thomas H. Cave

LEGISLATURE had been meeting biennially since 1870 in even years the first Wednesday in October. On March 4 1913 an amendment was adopted providing for the convening of the Legislature in odd years on the first Wednesday after the first Monday in January. V. 96, p. 810. Length of session is not limited.

HISTORY OF DEBT.—For a brief outline of the early history of the Vermont State debt see "State and City Supplement" of April 1895, pages 15 and 16.

The bonded indebtedness of the State on July 1 1926 was as follows:

Agricultural College fund bonds, 6s due 1932	$135,500 00
Certificates of indebtedness 4s, due 1945	234,900 44
Certificates of indebtedness 6s, due 1945	211,131 46
Public building bonds 1917 4s (M. & N.) May 1 1928-1935	90,000 00

Total	$1,753,531.90
Cash on hand and in banks July 1 1926	1,667,044.19

INTEREST on public building bonds is payable at State Treasurer's office or Sherman National Bank, New York; and on others at the State Treasury.

At the 1915 session of the State Legislature the Treasurer was authorized to issue on July 1 1915, to the Trustees of the Permanent School Fund, certificates of registered loans of this State to the amount of $234,900 44 redeemable in 1925 on which the interest must be 4% annually on July 1 to the Trustees of the Permanent School Fund. At the 1919 session of the Legislature the State Treasurer was authorized to issue bonds not to exceed $1,500,000 in amount, to be known as the Vermont State Loan of 1919, in denomination of $1,000 each, payable serially in equal amounts, the last payment to be not later than 30 years after date and bearing interest at not to exceed 4¼%. All these bonds have been issued, of which there are $1,082,000 now outstanding.

STATE TRUST FUNDS.—Statement of several funds held in trust by the State Treasurer July 1 1926 shows balances as follows: Agricultural College fund, $135,500, Bennington Battle Monument fund, $1,065; Permanent school funds, $1,373,275.02; Carrie P. Underwood fund, $10,000; Teachers' Retirement System fund, $320,994.89; State insurance sinking fund, $103,388.67; Committee of Public Safety fund, $1,721.35; sanatorium fund, $200,000; deposits under Section 5549, General Laws, $380,000, and deposits under Section 5623, General Laws, $5,000.

ASSESSED VALUATION AND TAX RATE.—In addition to the valuations below, the State received for the fiscal year ending June 30 1926, $1,170,405.11 as taxes on deposits in savings banks, national banks and trust companies which are taxed at the rate of 7-10 of 1%; also the State received $514,100 as taxes on the appraised value of railroad property, such property paying a tax of 1¼% on valuation.

There was no direct tax for State purposes levied in any of the years from 1903 to 1911, both inclusive. A tax of $1.30 per $1,000, however, consisting of a State shool tax of $.80 and a State highway tax of $.50, was collected and re-distributed to towns on a basis of the number of schools and road mileage, the State, for the sake of equalizing its distribution, acting as agent in the matter. Prior to 1902 this tax was $1.00 per $1,000. The Legislature of 1915 increased the State school tax from 80c. to $1.00, to be levied annually, but this change did not take effect until the assessment of 1916. In 1912 the Legislature levied a direct tax of 10 cents on the dollar of the grand list (method of compiling grand list explained below), one-half payable Nov. 10 1913 and one-half June 10 1914. The 1915 Legislature levied a direct tax of 5 cents on the dollar of the grand list for the year 1916. The 1917 Legislature provided for the levying of a tax of 20 cents on the dollar of the grand list for the years 1917 and 1918. The 1919 Legislature provided for the levying of a tax of 40 cents on the dollar of the grand list for the years 1919 and 1920. The 1921 Legislature provided for the levying of a tax of 20 cents on the dollar of the grand list for the year 1921 and a tax of 40 cents on the dollar for the year 1922. In 1923 the Legislature assessed a State tax of 25c. per dollar of the grand list for 1923 and 15c. for 1924. No provision was made for such a tax covering the years 1925 and 1926. A tax of 7½ cents per dollar was levied by the 1927 Legislature for 1927 and 1928.

GRAND LIST.—*How Constituted.*—Section 779 of the General Laws of Vermont 1917 reads: "One per cent of the appraised value of real estate taxable to a person shall be added to the list of his personal estate; and the sum so obtained, with the amount of his taxable poll, if any, shall constitute his grand list."

1890	332,422	1850	314,120				

DEBT LIMITATIONS.—There appears to be nothing in the constitution providing for a general limit to the debt-making power of municipalities. Whatever in each case the Legislature authorizes, the city, town, county or other civil division can issue.

In 1917 the Legislature enacted a law, which was approved on April 12 1917 repealing Chapter 157 of the Public Statutes, No. 84 of the Acts of 1908 and No. 126 of the Acts of 1912, in relation to the issuance of municipal bonds, and providing generally for the issuance of such bonds for any purpose if the proper formalities are complied with. We publish in part the text of the law herewith which part comprises Sections 4076 to 4104 inclusive of the General Laws. The Legislature in 1919 amended Sec. 4081 and Sec. 4085 increasing the interest rate to 5% and limiting the period of advertising the sale. Sec. 4081 was again amended by the 1921 Legislature, the amendment making special provisions for the maturity of forest development bonds. In 1925 the legislature further amended Sections 4081 and 4085 and also amended Sections 4077, 4078, 4083, 4084, 4086, 4088 and 4103. We enumerated the more important changes in the law in the "Chronicle" on May 30 1925, page 2841. Below, in the case of Sections 4077 and 4103 we show the matter added in 1925 in italics and in Section 4078 we show the matter dropped in boldface brackets as well as the new matter in italics. The law in part as the result of the latest amendments now reads:

MUNICIPAL BONDS.

Section 4076. The term "municipal corporation" as used in this Act shal include a city, town, village, town school district, graded school district or other school district and a fire district and a lighting district organized under the laws of the State.

Sec. 4077. The term "legislative branch" of a municipal corporation as used in this chapter shall mean the mayor and board of aldermen of a city, the board of selectment of a town, the trustees of a village, the board of school directors of a town school district and the trustees or prudential committee of *a graded or other school,* fire *or lighting district.*

The word "improvement" as used in this chapter shall include, apart from its ordinary signification, the acquiring of land for municipal purposes, the construction of, extensions of, additions to, or remodeling of buildings or other improvements, also furnishings, equipment or apparatus to be used for or in connection with any existing or new improvement, work, department or other corporate purpose.

Debt may be incurred and bonds issued under this Act for any improvement, but no bonds shall be issued for the purpose of providing funds for ordinary expenses of any municipal corporation.

Sec. 4078. When the legislative branch of any municipal corporation at any regular meeting or at a special meeting called for that purpose shall by resolution passed by a vote of two-thirds of all its members determine that the public interest or necessity demands improvements *and that* the cost of [which] *the same* will be too great to be paid out of the ordinary annual income and revenue, it may at any subsequent regular meeting of such legislative branch or at a special meeting called for that purpose, by a vote of two-thirds of all its members, order the submission of the proposition of making such public improvements, and of incurring a bonded debt to pay for the same, to the qualified voters of such municipal corporation at [an election] *a meeting* to be held for that purpose. The [ordinance or] warning calling such [election] *meeting* shall state the object and purpose for which the indebtedness is proposed to be incurred, estimated cost of the improvements, amount of bonds proposed to be issued therefor and the maximum rate of interest to be paid, and shall fix the place where and the date on which such election shall be held, the hours of opening and closing the polls, the manner of holding said [election] *meeting*, the questions to be submitted, and the form of ballot to be used. . . .

Sec. 4079. The clerk of the municipal corporation shall cause notice of such election to be published in a newspaper published in said municipal corporation once a week for three consecutive weeks on the same day of the week, the last publication to be not less than five days nor more than ten days before said election. If no newspaper is published in said municipal corporation, then publication shall be made in some newspaper published in this State that has general circulation in said municipal corporations. Notice of said election shall also be posted in five public places within said municipal corporation for the two weeks immediately preceding said election. If two-thirds of all the voters voting at said election shall vote to authorize said public improvements and the issuance of bonds to pay for the same, the legislative branch shall be authorize to make said public improvements and to issue bonds as hereinafter provided.

Sec. 4080. Elections in municipal corporations under this Act shall be conducted in the same manner as the annual city and town meetings are conducted, and the qualifications of voters at such elections shall be the same as the qualifications of voters at annual city and town meetings.

Sec. 4081. All bonds issued under this chapter shall be of a denomination of not less than one hundred dollars nor more than one thousand dollars, and shall draw interest at a rate not to exceed five per cent per annum, payable semi-annually; such bonds shall be payable serially, the first payment to be deferred not later than from one to five years after the issuance of the bonds and subsequent payments to be continued annually in equal or diminishing amounts so that the entire debt will be paid in not more than twenty years from the date of issue. In the case of bonds issued for the purchase or development of a municipal forest, the first payment may be deferred not more than thirty years from the date of issuance thereof, and thereafter such bonds shall be payable annually in equal or diminishing amounts so that the entire debt will be paid in not more than sixty years from the date of issue.

Sec. 4082. No municipal corporation shall incur an indebtedness for public improvements which with the previously contracted indebtedness, shall in the aggregate exceed ten times the amount of the last grand list of such municipal corporation.

Sec. 4083. The legislative branch shall determine the rate of interest, the denominations, the time and place of payment, and the form of such bond to be used. If bonds are to be registered, they shall be registered as provided by this chapter.

Sec. 4084. The legislative branch shall annually at the time of assessing the general tax levy, in addition to all other taxes, provide for the assessment and collection each year, until such bonds are paid, of a tax sufficient to pay, *and to* be applied to the payment of the interest on such bonds and such part of the principal as shall become due prior to the time the taxes are due in the next following year.

Sec. 4085. The bonds issued under this chapter shall be sold to the highest bidder after being advertised once at least not less than five nor more than thirty days before the date of sale in a newspaper published in the county or within fifty miles of the municipal corporation issuing said bonds and in case of issues exceeding ten thousand dollars also in some financial paper published in Boston, Massachusetts, or New York, New York. The advertisement shall state the amount and denomination of the bonds, date of maturity, rate of interest, and the time and place where the bonds are to be sold. The legislative branch may reject any and all bids and in case all bids are so rejected they may advertise and call for new bids in the manner hereinbefore provided or in case after the bonds have been advertised for sale as provided in this chapter and no bids have been received, or all bids have been rejected and the whole or any part of the bonds remain unsold, those unsold may be sold by the legislative branch at private sale at not less than par and accrued interest.

Sec. 4086. Such bonds shall be signed by the mayor and treasurer of an incorporated city, by the treasurer and selectmen or trustees, as the case may be, of a town or village, by the treasurer and trustees or prudential committee, as the case may be, of an incorporated school district, lighting district, or of a fire district, and by the treasurer and board of school directors of a town school district, and the coupons to said bonds shall be signed by or bear the facsimile signature of the treasurer. If such municipal

corporation has a corporate seal, such seal shall be affixed to such bonds, otherwise such bonds need not be sealed.

Sec. 4087. In determining the amount of municipal indebtedness permitted by the preceding sections, obligations created for current expenses, for a water supply, or for electric lights, and temporary loans created in anticipation of the collection of taxes and necessary for meeting current expenses shall not be taken into account; provided that no such temporary loan shall be extended beyond the fiscal year for which it is made and shall not exceed in amount 90% of the amount of taxes levied for such year; and provided further that sinking funds and other moneys set aside for the sole purpose of paying outstanding bonds or other evidences of indebtedness permitted under the provisions of the preceding sections; nor shall the provisions of this and the preceding sections apply when the charter of a municipal corporation limits its indebtedness.

Section 4088. [This section simply describes the form of bond to be issued under the Act.]

REFUNDING BONDS.

Sec. 4089. A municipal corporation that has outstanding and unpaid orders, notes, bonds, or coupons, lawfully issued, may issue other negotiable notes or bonds to pay or retire the same.

Sec. 4090. Such municipal corporation by its legislative branch, by resolution or ordinance, shall determine the necessity for issuing refunding bonds, the amount of legal outstanding indebtedness to be refunded, what amount of new notes or bonds shall be issued, at what time and place they shall be payable, the rate of interest thereon and when payable, the form of bond, which shall be substantially in the form provided in this Act, and whether the bonds shall be registered or have interest coupons attached. Such new notes or bonds shall not exceed in amount such outstanding obligations, nor shall they be used or sold except to provide means for paying or retiring said outstanding indebtedness.

Sec. 4091. Such bonds shall be signed, sold, made payable, and mature in the same manner as an original issue of bonds of a municipal corporation are signed, sold, made payable, and mature, as provided in this Act

Sec. 4092. The treasurer of the municipal corporation shall keep a record of every note or bond issued under this Act, stating therein the number and denomination of each note or bond, when issued, and the rate of interest hereon, and shall also keep a record of payments of interest or principal, and, if coupons are taken up, shall record the fact and deface the same.

Sec. 4093. When old notes or bonds are taken up, as provided in this Act, the treasurer of the municipal corporation shall keep a record of the same, and such old notes and bonds shall be canceled.

Sec. 4094. All ordinances or resolutions required by this Act to be enacted by the legislative branch of a municipal corporation shall be duly recorded in the office of the clerk of said municipal corporation.

REGISTERED OBLIGATIONS.

Sec. 4095. A municipal corporation, as herein defined, may issue registered bonds, and if an original issue of bonds by such municipal corporation is registered, they shall be registered as hereinafter provided.

Sec. 4096. A municipal corporation may, at the written request, duly acknowledged, of the owner or holder of one or more bonds, promissory notes or certificates of indebtedness issued by it and payable to bearer or to a person or corporation named, or bearer, change such bonds, notes or certificates into registered obligations, payable only to the person or corporation whose name is properly endorsed thereon, as hereinafter provided.

Sec. 4097. If it shall be determined by a municipal corporation to issue registered bonds, then and in that event the legislative branch of the municipal corporation shall direct the treasurer of such municipal corporation, as the case may be, to endorse upon the back of each of such bonds over his official signature a certificate of registration in substantially the form hereinafter provided, inserting in the appropriate places the date of such registration, the name and address of the registered holder, and his own signature as transfer agent, and thereafter such bond shall be transferable only upon the books of such municipality upon presentation to the treasurer thereof with a written assignment duly acknowledged or proved.

Sec. 4098. In case a municipal corporation shall have issued coupon bonds and the owner or holder thereof has requested that said bonds be changed to registered bonds, as herein provided, then upon written request for such change, duly acknowledged, the treasurer of such a municipal corporation shall, if directed by the city council of the city, selectmen of the town, school directors of the town school district, or other corresponding officers of the municipal corporation of which he is such treasurer, as the case may be, cut off and destroy the coupons on the bonds presented for registration and endorse upon the back of each of such bonds over his official signature a certificate of registration in substantially the following form, inserting in the appropriate places the date of such registration, the name and address of the registered holder, and his own signature as transfer agent, and thereafter such bond shall be transferable only upon the books of such municipality upon presentation to the treasurer thereof with a written assignment duly acknowledged or proved.

Sec. 4099. [This section shows the certificate of registration to be used where bonds are registered.]

Sec. 4100. The indorsement of such certificate of registration upon any bond, note or certificate by such treasurer shall be conclusive evidence that such treasurer was directed by the proper officers of the municipal corporation of which he was treasurer to convert such bond into a registered obligation.

Sec. 4101. The treasurer of every such county or municipal corporation shall keep a register showing the number, date, amount, rate of interest, time when payable, and the name of the registered holder of the bonds, notes, and certificates originally registered or changed to registered obligations.

Sec. 4102. Such conversion shall in no respect or degree weaken or impair the obligation of such municipal corporation to pay such bond, note or certificate so converted.

Sec. 4103. Notes, bonds or orders issued as evidences of obligations for money loaned to a county, town, town school district, village or incorporated school or fire district of this State shall be deducted in determining the average amount of deposits and accumulations under the provisions of Section 1, of No. 35 of the Acts of 1910. Bonds or obligations given or created in excess of the limit authorized by this Act and contrary to its provisions shall be void.

The existing power of a municipal corporation to authorize public improvements by a majority vote in a meeting duly called and held and to finance the same temporarily by the issue of orders or notes and to issue bonds therefor is not repealed or affected by the provisions of this chapter and the municipality may refund all or any portion of such temporary orders, notes or bonds in the method provided by sections 4089 *to* 4091 *provided, however, that no public improvement which has been voted upon in the manner provided in sections* 4078 *and* 4079 *shall be voted upon in any such meeting except in cases of emergency in which the vote stating the emergency shall be conclusive evidence of the existence of the emergency. The existing power of a municipal corporation to refund obligations representing indebtedness accumulated in the ordinary administration of the affairs of such municipality whether incurred for public improvements or for current expenses and with or without vote of such municipality is not repealed or affected by the provisions of this chapter except that the method of such refunding be as provided in said sections* 4089 *to* 4091.

Sec. 4104. This Act shall not affect rights now allowed any municipal corporation by its charter provisions, nor any rights now or hereafter granted by special Act of the legislature.

EXEMPTION FROM TAXATION.—Subdivision XII. of Section 496 of he Public Statutes of 1906, as amended by Act 23 of the Laws of 1908, and Act 25 of the Laws of 1919, provides that the following municipal securities shall be tax-exempt:

XII. Notes, bonds or orders issued after Dec. 4 1912 as evidences of obligations for money loaned to the State, a county, town, town school district, village or incorporated school or fire district, at a rate of interest not exceeding 4% per annum, and notes, bonds or orders issued after March 1 1919 as evidences of obligations for money so loaned as aforesaid at a rate of interest not exceeding 5%; for the purpose of constructing, purchasing, or repairing water, sewer, or lighting systems, permanent highways, bridges, walks or public buildings, or for the purpose of refunding a debt contracted for any of the foregoing purposes.

SAVINGS BANK INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—Several amendatory Acts to the Laws of Vermont regarding the investments of savings institutions were passed by the Vermont Assembly of 1919 One of these permits investments in Farm Loan bonds issued by Federal Land banks; another authorizes investments in bankers' acceptances and bills of exchange under certain restrictions; another broadens the provisions concerning investments in the bonds of the United Kingdom of Great Britain and Ireland and the bonds of the Republic of France by removing the qualifying clause reading "provided they are secured by collateral deposited in this country and approved by the Bank Commissioner"; still another changes the provision for investment in this latter class of bonds [which are grouped under the designation (h)] and for investment in the bonds of the Dominion of Canada and the various Provinces of Canada [which are grouped under the designation (i)], so as to enlarge the limitations upon such investments which under the old law were expressed in the words "Banks may invest in bonds described in subdivisions (h) and (i) not to exceed thirty thousand dollars by any one bank, and in addition thereto one per cent of the deposits of such bank in excess of one million dollars," the new words used, and printed below, permitting greatly increased investments; a further amendment adds a provision at the end of subdivision (e) bearing upon the issue of county bonds, which says that bonds issued for building or improving roads shall not be legal unless they are payable serially, the entire issue payable in not to exceed twenty years, the principal and interest payable from a direct tax levied upon all of the taxable property within the county—not alone that, but only such portions of such bond issue are legal as fall due in not more than fifteen years from date of issue; finally, the status of the railroads during Federal operation was fixed by providing that railroad bonds, which were legal investments for savings banks at the time when the Government of the United States took over the operation of the roads issuing the bonds, shall not become illegal investments by reason of the operation of the roads by the Federal Government. Sub-div. VI was amended in 1921 (1) extending investment limit in bank stock from $35,000 to $50,000, and (2) permitting banks to deposit up to 4% of their assets on call in chartered banks of Canada. The same session amended paragraph c, Subdiv. I., inserting the words "or husband" after "wife" in the sixth line. In 1923 the first paragraph of subdivision VII, which concerns loans on personal security, was amended. At the 1925 session of the Legislature, Paragraph II was amended by adding thereto a new subdivision (j) under which banks may invest in certain additional foreign government bonds. The act also amended, further, the last paragraph of Paragraph II last amended, in 1919, reference to which is made above, so as to permit any one bank to invest in the bonds under subdivision (j) up to the same limit prescribed for the bonds under subdivision (h). The same legislature also passed an act adding to Paragraph V a new sub-division (o) which adds to the securities legal for investments equipment notes of steam railroads.

The 1927 Legislature amended the law in several places The amendments allow investment in first mortgages on mines and quarries in Vermont, on timberlands in Vermont and New Hampshire, and on industrial plants in Vermont, the amount of the loan not to exceed 40% of the value of the security. Investment is also allowed in bonds of towns, cities and school districts of 5,000 population and carrying a debt of less than 7% of the assessed valuat on, located in New Jersey, Kansas, Nebraska, North Dakota, South Dakota, Missouri, Oregon, Washington, California, Delaware, Montana, Wyoming, Idaho, Maryland, Utah, Virginia, West Virginia, North Carolina, Tennessee, Kentucky, Oklahoma and Texas. The old provision permitted investment in similar bonds in all these States except the seven last named, the population limit being only 4,000 and the debt limitation but 5% of the assessed valuation. Savings banks may invest 5% of deposits over $1,000,000, instead of 2% as formerly provided, in bonds of certain municipalities in New York, Pennsylvania, Ohio, Michigan, Illinois, Indiana, Iowa, Wisconsin and Minnesota. Savings banks are also empowered to invest in bonds of the Government of Newfoundland, and in bonds guaranteed by the Dominion of Canada by endorsement. Thirty-five per cent of deposits may now be invested in public service company bonds instead of 25%, the former limit. Investment in bonds of Canadian telephone companies is now permitted.

All these amendments have been incorporated below, as they now form part of Section 5363 of the General Laws of Vermont.

INVESTMENTS.

SECTION 5363.—Assets, may be invested how and in what, limitations. The assets of banks shall be invested as follows:

FIRST MORTGAGES ON REAL ESTATE.

I. (a) In first mortgages of unencumbered real estate except real estate of the classes embraced in paragraphs (d), (e) and (f), wherever located, not to exceed in each case 60% of the value of such real estate, if located in Vermont, and not to exceed 50% of the value of such real estate if located elsewhere. Not less than a sixth of the amount of such mortgages shall be upon real estate in this State, treating mortgages made on lands in an adjoining State within twenty miles of the bank making such loan as Vermont mortgage loans, and not more than 80% of the amount of the assets shall be invested in mortgages of real estate; provided that not exceeding 60% of the amount of such assets may be invested in mortgages of real estate outside this State. An investment shall not be made on mortgages of real estate outside of Vermont which is unimproved and unproductive and the amount of such investments on mortgages in Vermont shall be not more than 40% of the value thereof. A bank shall not loan to any person, partnership, association of corporation upon real estate mortgage (treating loans to the individual members of a partnership as loans to the partnership) more than $30,000, and in addition thereto 1% of the deposits of such bank in excess of $1,000,000. Provided, however, that upon the approval in writing of all the trustees of the bank who are physically able to act, a bank may increase a loan of $30,000 on Vermont real estate, as stated in this section, to 1½% of the deposits in excess of $1,000,000. A mortgage investment shall not be made except upon the written approval of at least three trustees of the board of nvestment, who shall certify in writing, according to their best judgment, the value of the premises mortgaged or to be mortgaged. At the expiration of every mortgage loan made for a period of five years or more, such loan shall not be extended or renewed unless three members of the board of investment certify in writing the value, in their best judgment, of the mortgaged premises and unless such value meets the requirements above prescribed.

(b) When buildings are included in the valuation of real estate upon which an investment is made, they shall be insured by the mortgagor in such company as the trustees or board of investment direct, and the policies of ansurance shall be duly assigned or the loss made payable to such bank, and such bank may renew such policies in the same or another company is said trustees or board of investment elect, from year to year, or for a longer or shorter period, if the mortgagor neglects so to do; and, when necessary, the treasurer may sign premium notes, and may charge the amount paid for such insurance to the mortgagor.

(c) When a bank takes an accruing mortgage, the only debt which shall be secured thereby or become a lien upon the property described therein shall be the debt described in the mortgage and existing at the time of its execution, and any subsequent direct indebtedness of the mortgagor to such bank; provided, that when the mortgage includes a homestead, the written consent of the wife or husband of the mortgagor to the creation of such subsequent direct indebtedness shall be required.

(d) In first mortgages and in bonds or notes secured by first mortgage on mines, quarries, or both, in the State of Vermont, such loan to be not over 40% of the value of the real estate, provided the net income from the property for each of the last five years has averaged twice the interest on the total funded and floating debt and an amount of contribution to the sinking fund each year sufficient to retire at least three-fourths of the first mortgage issue at maturity, which shall be set aside each year for that purpose. For the purposes of this paragraph net income shall be gross income, less expenses, taxes, insurance, rentals, guaranteed interest and dividends, expenditures for maintenance, depreciation on equipment of not less than 6% of gross income and depletion equaling an amount allowed by the Federal Collector of Internal Revenue. In case of new incorporation or merger of existing companies, the actual earnings of the properties to be mortgaged may be used to establish the requisite earning power.

(e) In first mortgages and in bonds or notes secured by first mortgage on timberlands in the States of Vermont and New Hampshire, the value of which is principally represented by merchantable timber growing thereon, such loan not to exceed 40% of the value of the mortgaged property. If the indenture permits the removal of timber, not less than $6 for every thousand feet or its equivalent removed shall be set up in a cash sinking fund or applied to the retirement of the principal amount of the loan. To establish the value of such property, the affidavits of two qualified and reputable cruisers may be accepted, provided their estimates are obtained independently of each other.

(f) In first mortgages and bonds or notes secured by first mortgage on industrial plants located in the State of Vermont, the loan not to exceed 40% of the value of the real estate, provided net income of the obligor corporation for the last five years has averaged twice the interest on the total funded and floating debt, including the first mortgage bonds or notes to be issued for investment by banks, as provided in this paragraph, and an annual contribution to sinking fund sufficient to retire at least three-

fourths of the first mortgage obligations at maturity which shall be set up each year for this purpose. Net income shall be defined the same as in paragraph (d).

MUNICIPAL BONDS.

II. (a) In the public funds of the United States or any of the States or the District of Columbia, or in public funds for the payment of principal and interest of which the faith of the United States is pledged.

(b) In the legally authorized bonds or notes of counties, cities, towns, villages, school districts and water districts of the New England States and of any municipal corporation in Vermont having the right to levy and collect taxes in payment of its indebtedness.

(c) In the legally authorized bonds or notes of towns, cities and school districts, having a population according to the last preceding United States or State census of at least one thousand in towns and cities, and five hundred in school districts, and an indebtedness not exceeding five per cent of the last preceding valuation for the assessment of taxes, at the time of the investment in New York, Pennsylvania, Ohio, Michigan, Illinois, Indiana, Iowa, Wisconsin and Minnesota.

(d) In the legally authorized bonds or notes of towns, cities, and school districts having a population according to the last two preceding United States or State Census reports of at least 5,000 and an indebtedness not exceeding 7% of the last preceding valuation for the assessment of taxes, at the time of the investment, in New Jresey, Kansas, Nebraska, North Dakota, South Dakota, Missouri, Oregon, Washington, California, Delaware, Montana, Wyoming, Idaho, Maryland, Utah, Virginia, West Virginia, North Carolina, Tennessee, Kentucky, Okalhoma and Texas.

(e) *County Bonds.*—In the legally authorized bonds of counties in any of the above mentioned States having a population according to the last preceding United States or State census of at least twenty thousand and an indebtedness not exceeding five per cent of the last preceding valuation for the assessment of taxes, at the time of the investment. To this there was added in 1919 the following: Bonds issued under this subdivision for building or improving roads, shall not be legal unless they are payable serially; the entire issue payable in not to exceed twenty years; the principal and interest payable from a direct tax levied upon all of the taxable property within the county, and only such portion of such bond issue shall be legal as will be due and payable in not more than fifteen years from date of issue.

(f) In the legally authorized bonds or notes of a city in any of the States above named having a population according to the last preceding United States or State census of at last twenty-five thousand and an indebtedness not exceeding five per cent, or a population of fifty thousand and an indebtedness not exceeding seven per cent of the last preceding valuation for the assessment of taxes, at the time of the investment.

(g) In the legally authorized bonds or notes of a city in any of the States above named having a population according to the last preceding United States or State census of at least one hundred thousand;

(h) *Foreign Bonds.*—In the bonds of the United Kingdom of Great Britain and Ireland, and the bonds of the Republic of France. [As amended in 1919.]

(i) In the bonds of the Dominion of Canada, the various Provinces of Canada, the Government of Newfoundland and in the bonds guaranteed by the Dominion of Canada by endorsement.

(j) In the bonds of the kingdoms of Sweden, Norway, Denmark, Belgium and the Netherlands and of the Swiss Confederacy when payable in United States currency.

In subdivisions (c) and (d) the word "indebtedness" shall mean the gross debt less debts created in anticipation of taxes to be paid within one year and the amount of any sinking funds available for the payment of such indebtedness; and in subdivisions (e) and (f) the word "indebtedness" shall mean the gross debt less debts created in anticipation of taxes to be paid within one year, the amount of any sinking funds available for the payment of such indebtedness and debts created for supplying the inhabitants of the municipality with water. Banks may invest in bonds described in each of subdivisions (h) and (j) not to exceed $30,000 by any one bank, and in addition thereto 5% of the deposits of such bank in excess of $1,000,000; and in bonds described in subdivision (i) not to exceed $30,000 by any one bank, and in addition thereto 5% of the deposits of such bank in excess of $1,000,000; but nothing hereinbefore contained shall authorize investments in railroad aid bonds, except such as are issued by municipalities in the State of Vermont, or in bonds which are not direct obligations of a municipality or in bonds of municipalities which have within twenty years repudiated or compromised the payment of any debt or defaulted for more than ninety days in the payment of any indebtedness, and the purchase of such securities is hereby prohibited.

PUBLIC SERVICE COMPANY BONDS.

III. For the purposes of this subdivision:

"Company" shall be construed as a corporation or voluntary association organized under the laws of the United States, or any State thereof, located in and doing business principally within the United States;

"A public service company" shall be construed as a company doing principally a gas, electric, light, electric power or electric railway business serving the public generally;

"Mortgage bonds" shall be construed as bonds secured primarily by direct and foreclosurable lien upon physical property owned by the obligor in fee; "refunding mortgage bonds" shall be construed to mean bonds secured by a general mortgage on physical property owned by the obligor, subject to underlying mortgage bonds for the refunding of which said refunding bonds provide. All such underlying bonds shall be closed for public distribution.

"Years" shall be construed as calendar years; fiscal years or nearer periods of twelve months next preceding such investment;

"Net income" shall be construed as income after deducting operating expenses, taxes, insurance, rentals, guaranteed interest and guaranteed dividends on stocks of leased or acquired companies, and expenditures for maintenance; and

"Annual interest" shall be construed as interest actually paid in each year, except that for the latest year, which shall be construed as one year's interest on the total amount outstanding at the time of the investment.

Not exceeding 35% of the assets of a bank shall be invested in securities authorized under this subdivision and not exceeding 2½% of such assets shall be invested in the securities of any one company, if such percentage is in excess of five thousand dollars.

No investment shall be made in the securities authorized under this subdivision of a company or a public service company which is in default on any of its debt, or in the hands of a receiver.

An investment shall not be made in the securities authorized under this subdivision unless the net income of the company or public service company in question in each of the three years next preceding such investment shall have been not less than one and a quarter times the annual interest on the entire funded debt, rentals, guaranteed interest, guaranteed dividends on stocks of leased or acquired companies and all fixed charges and for the purpose of this paragraph "net income" shall be construed as income after deducting operating expenses, taxes, insurance and expenditures for maintenance.

Subject to the foregoing, investments may be made as follows:

In the first mortgage bonds and refunding mortgage bonds issued or assumed by public service companies, and in mortgage bonds of the companies controlled by such public service companies; for the refunding of which, mortgage bonds of such companies are specifically reserved, or provided for in the indenture, provided that in each of the three years next preceding such investment the net income shall have been either (a) not less than $500,000 and not less than 1¾ times the annual interest on the bonds in question and all other obligations of corresponding or prior liens, or (b) not less than $150,000 and not less than twice the annual interest on the bonds in question and all other obligations of corresponding or prior liens; provided that such bonds are in fact secured either by first lien or by a refunding mortgage on the major portion of the mortgaged premises, or by a lien for the refunding of which, bonds which are legal are specifically reserved, or provided for in the indenture; and provided that the principal franchise or franchises of such companies, if electric railways, extend beyond the maturity of the bonds in question, and provided that such public service companies, other than electric railways, either operate subject to the regulatory supervision of a State commission of competent jurisdiction, or that the principal franchise or franchises extend beyond the maturity of the bonds in question, or that in the case of electric railways not less than 75% of the mileage owned is located on private right-of-way owned in fee.

In the case of the consolidation by merger of two or more companies, the combined earnings and the fixed charges of the constituent companies may be used to establish the ratio of net earnings to fixed charges, as provided in this subdivision.

TELEPHONE COMPANIES' BONDS.

IV. (a) In the bonds of telephone companies located in the United States or Canada, when such bonds are in fact secured by a first mortgage or a refunding mortgage, whether or not the bonds are so designated in their title;

(b) Provided, that gross earnings of any such company shall have averaged one million dollars for the last three fiscal years next preceding such investment, and provided further that gross earnings for the fiscal year next preceding such investment shall have been at least 40% of the total mortgage debt outstanding at the end of such fiscal year; and

(c) Provided, that net earnings for the last three fiscal years, after deducting all operating expenses, maintenance and depreciation charges, rentals and taxes, shall have averaged at least 1¾ times the annual interest charge on the average mortgage debt outstanding at the end of each of the said last three fiscal years next preceding such investment; and provided further than in case additional bonds are issued under the above mentioned mortgages during an incompleted fiscal year, net earnings as provided above, for the last available 12 months next preceding such investment shall have been at least 1¾ times the interest on all mortgge debt outstanding, including such additional bonds issued.

In the case of the consolidation by a merger of two or more such companies the first mortgage and the first and refunding mortgage bonds of the consolidated company and of the separate companies that compose the consolidated company, when such bonds are secured as provided in subdivision (a), shall be legal investments provided that the combined earnings of the separate companies shall have complied with the requirements in respect to gross earnings in subdivision (b), and provided that the combined net earnings of the separate companies shall have complied with the requirements of subdivision (c).

(d) In the bonds of telephone companies located in the United States or Canada, when such bonds are secured by the deposit of collateral having a value of at least 25% in excess of the par value of such bonds; and

(e) Provided, that gross earnings of any such company shall have averaged at least $25,000,000 for the last three fiscal years next preceding such investment; and

(f) Provided, that net earnings for the last three fiscal years, after deducting all operating expenses, maintenance and depreciation charges, rentals and taxes, shall have averaged at least 1¾ times the annual interest charge on the average funded debt outstanding at the end of each of the last three fiscal years next preceding such investment, and provided further that in case additional bonds are issued during an incompleted fiscal year, net earnings as provided above for the last available 12 months next preceding such investment shall have been at least 1¾ times the interest on all funded debt outstanding, including such additional bonds issued.

(g) In the bonds of telephone companies doing a general telephone business in this State.

(h) Provided, that gross earnings of any such company shall have averaged at least $15,000,000 for each of the last three fiscal years next preceding such investment; and

(i) Provided, that net earnings for each of the said last three fiscal years after deducting all operating expenses, maintenance and depreciation charges, rentals and taxes, shall have been at least 1¾ times the annual interest charge on the average funded debt outstanding at the end of each of the last three fiscal years next preceding such investment, and provided further than in case additional bonds are issued during an incompleted fiscal year net earnings, as provided above, for the last available 12 months next preceding such investment shall have been at least 1¾ times the interest on all funded debt outstanding, including such additional bonds issued.

(j) In the bonds of telephone companies located in the United States provided that gross earnings shall have averaged at least $40,000,000 for each of the last three fiscal years preceding such investment.

(k) Provided, that an investment shall not be made in the bonds of any such company mentioned in this section, which is in default on any of its debt or which is in the hands of a receiver.

But not more than 10% of the assets shall be so invested.

BONDS OF VERMONT AND NEW ENGLAND RAILROADS.

V. (a) In the notes or bonds of a railroad corporation incorporated under the laws of Vermont, irrespective of the length of such road or the motive power thereof, when issued in accordance with the laws of this State and in compliance with the provisions hereinafter set forth relating to bonds of New England railroads.

(b) In the bonds or assumed bonds of a railroad corporation incorporated in any of the New England States at least one-half of the railroad of whose is located in said States whether such corporation is in possession of and is operating its own road or is leased to another railroad corporation; provided, either that such bonds shall be secured by a first mortgage of the whole or a part of the railroad and railroad property of such corporation, or by a refunding mortgage as described in paragraphs (3) or (4) of sub-division (g) or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds shall be issued under the authority of one of said States, which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its road, equipment and franchise, or upon any of its real or personal property, without including in and securing by such mortgage all bonds previously issued, and all its pre-existing debts and liabilities, which provision, so enacted in such State, shall have been accepted by the stockholders of such corporation; and provided, that such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment;

(c) In the first mortgage bonds or assumed first mortgage bonds or in the bonds secured by a refunding mortgage as described in paragraph (3) or (4) of sub-division (g) of a railroad corporation incorporated in any of the New England States the railroad of whose is located wholly or in part therein, which have been guaranteed as to principal and interest by a railroad corporation described in sub-divisions (a) or (b) which is in possession of and is operating its own road;

(d) No bond shall be made a legal investment by sub-division (b) unless the corporation which issued or assumed such bond has, during its fiscal year next preceding the date of such investment paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct and assumed funded indebtedness.

No bond shall be made a legal investment by sub-division (c) unless the corporation which guaranteed such bond has, during its fiscal year next preceding such investment, paid in dividends on its capital stock an amount equal to a third of the total amount of interest paid on all its direct, assumed and guaranteed funded indebtedness.

No bond shall be made a legal investment by sub-division (b) or (c) unless the corporation owns in fee not less than 100 miles of standard-gauge railroad (exclusive of sidings) within the United States.

BONDS OF OTHER RAILROADS.

(e) *Description of Corporation.* In the mortgage bonds, as describedin any of the following subdivisions of this clause, of any railroad corporation incorporated under the laws of any of the United States;

Provided, that during each of the ten fiscal years of such railroad corporation next preceding the date of such investment—

(1) Such railroad corporation owned in fee not less than 500 miles of standard-gauge railroad, exclusive of sidings, within the United States, or, if such corporation owned in fee less than 500 miles of such railroad, the gross earnings of such corporation, reckoned as hereinafter provided, shall have been not less than $15,000,000;

(2) Such railroad corporation shall have paid the matured principal and interest of all its mortgage indebtedness;

(3) Such railroad corporation shall have paid in dividends in cash to its stockholders an amount equal to at least 4% upon all its outstanding capital stock;

(4) The gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals of all leased lines and the interest on all the outstanding indebtedness of railroads, controlled and operated, which is not owned by said corporation, after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporations not operated by such corporation, which have been deposited with a trustee as the only security to secure the payment of bonds or notes issued by such corporation, but not in excess of the interest on such last-named bonds or notes;

And further *provided*, that—

(5) No bonds shall be made a legal investment by sub-division (g) in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of the issuing or assuming corporation, including all bonds not issued that may legally be issued under

any of its prior mortgages or of its assumed prior mortgages, after deducting therefrom, in case of a refunding mortgage, the bonds reserved under the provision of said mortgage to retire prior lien debts at maturity, shall exceed three times the outstanding capital stock of said corporation at the date of such investment;

(6) A bond shall not be made a legal investment by subdivision (i) or (j) in case the mortgage securing the same shall authorize a total issue of bonds which, added to the total debt of the guaranteeing corporation as defined in paragraph 5, including therein the authorized amount of all previously guaranteed bond issues, shall exceed three times the capital stock of such guaranteeing corporation outstanding at the date of such investment; nor in case at such date the total debt of the corporation which issued such bonds shall exceed three times its outstanding capital stock;

In the case of a mortgage executed prior to the twenty-seventh day of January nineteen hundred and eleven, under which the total amount of bonds which may be issued is not specifically stated, the amount of bonds outstanding thereunder at the date of such investment shall be considered, for the purposes of paragraph 5 and of this paragraph, as the total authorized issue.

(f) *Definition of first mortgage.* Whenever the term "first mortgage" is used in the following sub-divisions, it shall, unless otherwise qualified, mean, a first mortgage on not less than 75% of the railroad owned in fee at the date of the mortgage by the railroad corporation on the railroad of which such mortgage is a lien, but in no case on less than 100 continuous miles of standard-gauge railroad, exclusive of sidings; *provided* that:

(1) Seventy-five per cent of the railroad subject to the lien of such mortgage is connected;

(2) For five years prior to the date of investment therein all the railroad subject to the lien of such mortgage at the date of execution thereof has been operated by, and its operations included in, the operations of the railroad corporation which issues, assumes or guarantees such bonds; and

(3) The date of such mortgage is at least five years prior to the date of such investment; except that a first mortgage given in substitution for and not greater in amount than such a first mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement.

(g) *Direct Obligations.* In bonds issued or assumed by a railroad corporation described in sub-division (e) which are secured by a mortgage which was at the date thereof, or is at the date of such investment:

(1) A first mortgage on a railroad owned in fee by the corporation issuing or assuming such bonds except that, if it is not a first mortgage on 75% of all such railroad owned in feeby such corporation, it shall be a first mortgage on at least 75% of the railroad subject to the lien of such mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of such mortgage as part security therefor, representing or covering railroad mileage not owned in fee, the bonds secured by such mortgage shall not become legal investments unless such corporation owns in fee at least 75% of the total mileage which is subject to the lien of such mortgage and which is represented or covered by such stocks or bonds;

(2) A first mortgage, or a mortgage or trust indenture, which is in effect a first mortgage upon all the railroad subject to the lien of such mortgage or trust indenture by virtue of the irrevocable pledge with the trustee thereof of an entire issue or issues of bonds which are a first lien upon the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming such bonds;

(3) A refunding mortgage which covers at least 75% of the railroad owned in fee by such corporation at the date of such mortgage and provides for the retirement of all outstanding mortgage debts which are a prior lien upon such railroad owned in fee and covered by such refunding mortgage at the date thereof; but if any of the bonds which such refunding mortgage is given to refund are secured on a railroad not owned in fee by the corporation executing such refunding mortgage, there shall be conveyed and assigned to the trustee of such refunding mortgage either—

First. At least 75% of the railroad on which each issue of bonds to be refunded is secured, free from any mortgage lien except that of the mortgage or mortgages securing the bonds to be refunded, or

Second. At least 75% of the outstanding bonds of each issue which is secured by a mortgage lien upon such railroad; and all of such railroad not owned in fee which is so subjected to the lien of such refunding mortgage shall be the railroad of one or more railroad corporations which are owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming said refunding mortgage bonds; but in no case shall the bonds secured by such refunding mortgage become a legal investment unless they mature at a later date than any bonds which such refunding mortgage is given to refund, nor unless the total mileage subjected to the lien of such refunding mortgage in accordance with the requirements of this paragraph is at least 25% greater than the mileage covered by any one of the mortgages securing bonds which such refunding mortgage is given to refund; or

(4) A mortgage upon not less than 10% of the railroad exclusive of sidings, owned in fee at the date of such mortgage by the corporation issuing or assuming such bonds, but in no case on less than 500 continuous miles of standard-gauge railroad; *provided*, that:

First. Such mortgage is a first or second lien upon not less than 75% of the total railroad covered by such mortgage at the date thereof, and which provides for the retirement of all mortgage debts which are a prior lien upon such railroad owned in fee and covered by such mortgage, at the date of the execution thereof;

Second. The bonds secured by such mortgage mature at a later date than, and cover a mileage at least 25% greater than is covered by, any of the bonds secured by a prior lien mortgage so to be retired; and

Third. The date of said mortgage shall be at least five years prior to the date of such investment.

(h) *Bonds underlying refunding mortgages.* Mortgage bonds or bonds secured by mortgage bonds which are a direct obligation of, or which have been assumed, or which have been guaranteed by endorsement as to both principal and interest, by a railroad corporation whose refunding mortgage bonds are made a legal investment under paragraphs (3) or (4) of subdivision (g); *provided*, that:

(1) Said bonds are prior to and are to be refunded by such refunding mortgage;

(2) Said refunding mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien; and

(3) In the case of bonds so guaranteed or assumed, the corporation issuing said bonds is owned and operated, controlled and operated or leased and operated, by said railroad corporation.

(i) *Guaranteed obligations.* Bonds which have been guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the provisions of sub-division (e); *provided*, that:

(1) Such bonds are secured by a first mortgage on the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation guaranteeing such bonds.

(2) In the case of a leased railroad, the entire capital stock of which, except shares qualifying directors, is not owned by the lessee, the rental includes an amount to be paid to the stockholders of said leased railroad equal to at least 4% per annum upon that portion of the entire capital stock thereof outstanding which is not owned by the lessee.

(j) *Same.* In first mortgage bonds of a railroad corporation which during each of its ten fiscal years next preceding the date of such investment has complied with all the requirements of paragraphs (2), (3) and (4) of subdivision (e), *provided* that such bonds are guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the requirements of sub-division (e) preceding paragraph (5) thereof, notwithstanding that the railroad of such issuing corporation is not operated by such guaranteeing corporation.

CORPORATION NOT TO LOSE CREDIT BY TEMPORARY DISTURBANCE OF RELATION OF GROSS EARNINGS TO FIXED CHARGES.

(k) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal, although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding two successive fiscal years to comply with the requirements of paragraph (4) of sub-division (e); but no further investment in the bonds issued, assumed or guaranteed by such corporation shall be made during such period. If, after the expiration of such period, such corporation complies for the following fiscal year with all the requirements of subdivision (e), it shall be regarded as having complied therewith during such period.

BONDS NOT ILLEGAL ON ACCOUNT OF CONSOLIDATION.

(l) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal, although the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and although the corporation which issued or assumed such bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of such bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for, or to acquire the stock of, the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to 4% per annum upon the capital stock outstanding at the time of such consolidation or purchase of such corporation which issued or assumed such bonds.

CREDIT OF CORPORATION NOT LOST BY CONSOLIDATION.

(m) If a railroad corporation which has complied with all the requirements of sub-division (e) preceding paragraph (5) thereof, except that the period of compliance is less than ten, but not less than five successive years,) shall be or shall have been, thereupon consolidated or merged with, or its railroad purchased and all of the debts of such corporation assumed by, another railroad corporation incorporated under the laws of any of the United States, such corporation so succeeding shall be considered as having complied with all the provisions of sub-division (e) preceding paragraph (5) during those successive years next preceding the date of such consolidation, merger or purchase, in which all such consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would have so complied; *provided*, that such succeeding corporation shall continue so to comply for a further period which shall make such compliance equivalent to at least ten successive years, but which shall be in no case less than the two fiscal years next following such consolidation, merger or purchase.

STATUS FIXED DURING FEDERAL OPERATION OF RAILROADS

[Added in 1919.]

(n) Railroad bonds which were legal investments for savings banks at the time when the Government of the United States, under the Act of Congress, approved Mar. 21 1918, took over the operation of the railroads issuing such bonds, shall not become illegal investments by reason of the operation of the railroads by the Federal Government. The time during which any such railroad is operated by the Federal Government shall be excluded, including the year in which the Government operation ends, in determining the compliance of any such railroad with the provisions of this section; provided, however, that in case a railroad corporation the mortgage bonds of which would become legal for investment under subdivision (e) of part V of this section upon its compliance with the requirements of said subdivision shall have complied with the requirements of said subdivision during the ten years or more next preceding Jan. 1 1918, such railroad corporation shall be deemed to have complied with the requirements of said subdivision during the period of the Government operation of its railroad, including the year in which such Government operation ends, in computing the time of compliance with the requirements of said subdivision.

EQUIPMENT NOTES OF STEAM RAILROADS (ADDED IN 1925).

(o) In the equipment notes of any steam railroad corporation, whose mortgage bonds are a legal investment under this section; Provided (1) said notes are secured by a first lien on or by a lease and conditional sale of railroad equipment, new at the time of issue of such notes; (2) the principal amount of such notes does not exceed 80% of the purchase price of equipment which is security; (3) the indenture by which such notes are secured provides for proper maintenance of the equipment constituting the security and that an amount of such notes shall be paid annually until all are retired without the release of any of said equipment from the provisions of said indenture until all are paid and that the entire amount of any issue shall be retired within fifteen years of the date of issue.

BANK STOCKS AND DEPOSITS IN BANKS.

VI. (a) In the stock of any national bank in the New England States or the State of New York, or in the stock of any banking association or trust company incorporated under the authority of and located in such States; but a bank shall not hold bank stock both by the way of investment and as security for loans in excess of 10% of its assets, nor, in any one bank, more than 5% of its assets, or more than $100,000, or more than 10% of the capital stock of any one bank.

(b) A bank may deposit on call in banking associations or trust companies, approved by the Bank Commissioner of this State, and under the supervision of the State or Federal authority, in this State or in the cities of New York, Boston, Chicago, Albany, Philadelphia or Concord, New Hampshire, or in any other bank designated as a depository under the laws of the United States or in national banks in the cities of St. Paul, Minneapolis and Kansas City, or in the chartered banks of the Dominion of Canada, with or without interest as may be agreed upon, sums not exceeding in the aggregate 20% of the assets of such depositing banks; but at no time shall the deposits in Canadian banks exceed 4% of the assets of such depositing bank.

LOANS ON PERSONAL SECURITY, INCLUDING COLLATERAL LOANS.

VII. In loans or renewals of loans of the class hereinafter described, payable and to be paid or renewed at a time not exceeding six months from the date thereof; but not more than a third of the assets of a bank shall be so invested, nor shall a bank loan to a person, partnership, association or corporation upon personal security (treating loans to the individual members of a partnership as loans to the partnership), more than twenty thousand dollars until a bank's deposits amount to one million dollars, after which the sums so loaned may be increased two per cent of the deposits in excess of one million dollars up to, but not exceeding fifty thousand dollars, or (in cases where ten per cent of the capital and surplus exceeds fifty thousand dollars) up to, but not exceeding, ten per cent of the capital, if any, and surplus; but this limitation shall not apply to the purchase of municipal or railroad bonds, or to notes with such bonds as collateral.

(a) A note bearing as makers, sureties, or indorsers, the signature of at least two approved names of residents of this State, or of persons who reside within fifty miles of the bank making the loan;

(b) A note or accepted draft given by individuals, firms, or corporations residing without this State, for goods manufactured within this State and payable to individuals, firms or corporations located within this State and indorsed by at least one responsible citizen of this State;

(c) A note of a corporation incorporated under the laws of this State, with one or more substantial sureties resident in this State, or approved collateral at not more than eighty per cent of its market value;

(d) A note of a responsible borrower with a pledge as collateral, in such form as the bank commissioner shall approve, of;

(1) One or more first mortgages of real estate such as might be lawfully purchased by a bank, as in cases of mortgages bought by the bank, provided the amount of such note is not in excess of the amount which the bank might loan on a note secured by mortgage on said land; or

(2) Municipal bonds in which the bank might legally invest, at not more than ninety per cent of their market value; railroad bonds in which the bank might legally invest, at not more than eighty per cent of their market value; and bank stocks in which the bank might legally invest, at not more than eighty per cent of their market value; or

(3) Deposit books or certificates of deposit of depositors in banks of this State, including national banks, at their full value, and in banks of any of the New England States and of New York, under State or Federal supervision, at not more than ninety per cent of the amount of deposits therein shown, provided written notice of such assignments has been given to the bank carrying the deposit; or

(4) Acceptances based on exports, imports or domestic commercial transactions, when the accepting bank is one that the law permits an account with, and when such acceptances are drawn for not longer than ninety days; or

(5) Other collateral approved by the directors and bank commissioner, at not more than eighty per cent of its market value, which shall be maintained during the life of the note;

(e) Commercial paper indorsed by banks in which the law allows deposits on call to be made, to mature in not more than ninety days, the aggregate amount of such paper in any one bank not to exceed the capital of a trust company, and in the case of a savings bank not to exceed the amount of the surplus which is in excess of five per cent of the deposits and other liabilities except surplus; and a bank to which commercial paper is pledged as collateral security shall forthwith notify the maker and indorsers of such paper that it has been so pledged;

(f) A note of a responsible borrower; provided, however, that the aggregate amount of such loans shall not exceed the average amount of the commercial deposits of a trust company for the six months next preceding, or exceed fifty per cent of the surplus of a mutual savings bank or exceed the capital and surplus of trust companies having no commercial deposits.

BANK BUILDING.

VIII. Five per cent of the deposits of a bank may be invested in the purchase of a suitable building for the convenient transaction of its business, or a site therefor and the erection or repairs of a building thereon, from portions of which not required for its use a revenue may be derived.

REAL ESTATE TAKEN BY FORECLOSURE.

IX. A bank may hold real estate acquired by the foreclosure of a mortgage thereon, owned by or pledged to such corporation, or by purchase at sales made under the provisions of such mortgage, or upon judgment for debts due, or in settlements effected to secure such debts; and such real estate shall be sold by such corporation as soon as a reasonable price can be obtained therefor and within five years after the same is vested in such corporation, except when a majority of the trustees of such corporation shall make application in writing to the Bank Commissioner, stating that, in their opinion, the interests of such corporation require that such real estate be held for a longer period than five years; in which event said Commissioner may extend the time of holding such real estate not to exceed five years.

SECURITIES ACQUIRED IN SETTLEMENT OF INDEBTEDNESS.

X. A bank may hold stocks, bonds, notes or other securities not the subject of legal investment acquired in settlements effected to secure or adjust loans; but unless the length of time such securities may be held is extended, as provided in the preceding clause, they shall be sold within five years after being acquired.

FARM LOAN BONDS AND BANKERS' ACCEPTANCES.

XI. *Farm Loan Bonds.*—In Farm Loan bonds issued by Federal Land banks in accordance with the provisions of an Act of Congress approved July 17 1916, known as "The Federal Farm Loan Act."

XII. *Bankers' Acceptances; Bills of Exchange; Notes.* A bank may invest in bankers' acceptances and bills of exchange, provided the same are accepted by an incorporated savings bank or a savings bank and trust company, or a national bank doing business in this State, or by a bank incorporated in Boston, New York, or Philadelphia, to an amount not to exceed 20% of its deposits; and a bank may invest in notes endorsed or guaranteed by any of the above named banks to an amount not to exceed 20% of its deposits. Approved April 8 1919.

LIST OF RAILROAD BONDS PREPARED.

ection 5364. *By Bank Commissioner.*—Not later than the first of March in each year, the Bank Commissioner shall prepare a list of the railroad securities which are then legal investment for banks, which list shall at all times be open to public inspection, and shall send a copy thereof to every bank coming within his jurisdiction.

The latest list of railroad bonds which are considered legal investments for savings banks was issued by the Bank Commissioner on March 26 1926. This list appeared in the "Chronicle" of May 7 1927 in the State and City Department, on pages 2790 and 2791.

*Nominal or contingent debt except that the following parts of the loans are direct State obligations:

Defense of Commonwealth	$972,000.00
Metropolitan parks	3,946,625.00
Suffolk County courthouse	100,000.03

PUBLIC SALES OF BONDS.—A bill passed the Legislature in 1904 directing the Treasurer to advertise all future sales of State bonds instead of disposing of them at private sale, as had been the previous practice. (V. 78, p. 1565.)

INTEREST is payable at State Treasury in Boston.

TOTAL DEBT, SINKING FUNDS, &C.—

	Dec. 1 1926.	*Dec.* 1 1925.	*Dec.* 1 1924.	*Dec.* 1 1923.
Total funded debt	$125,486,962	$126,568,212	$125,050,962	$126,396,912
Sinking funds, &c	60,308,124	57,651,732	55,746,199	53,873,739
Net debt	$65,178,838	$68,916,480	$69,304,763	$72,523,173

The above debt is of two classes: the Direct Debt, for the payment of which the Commonwealth is directly and entirely responsible; and the Nominal or Contingent Debt, for which the Commonwealth has loaned its credit to sundry cities and towns for various purposes, the payment of which is guaranteed by sinking funds (sufficient to pay the debt at maturity) provided by a direct annual tax on the cities and towns for which the debt has been incurred. On Dec. 1 1926 these classes and the sinking funds applicable thereto were as follows:

	Direct Debt.	*Contingent Debt.*	*Grand Total.*
Bonded debt	$35,417,237.02	$90,069,724.47	$125,486,962.00
Sinking funds	16,193,746.81	48,985,090.96	65,178,837.77
Net debt	$19,223,490.72	$41,084,633.51	$60,308,124.23

ASSESSED VALUATION.—The State's assessed valuation follows:

Years—	*Real Estate.*	*Personal Property.*	*Total.*
1926	$5,839,811,710	$1,065,226,061	$6,905,037,771
1925	5,560,636,090	1,072,119,187	6,632,755,277
1924	5,249,628,907	1,046,215,516	6,295,844,423
1923	4,968,716,451	1,009,435,977	5,978,152,428

1921	4,525,853,852	1,020,792,388	5,546,646,240
1920	4,368,363,457	975,790,200	5,344,153,657
1919	3,979,836,078	919,024,221	4,898,860,299
1918	3,885,495,341	853,481,248	4,738,976,589
1917	3,808,405,899	730,592,172	4,538,998,071
1916	3,686,483,258	1,275,754,750	4,962,238,008
1915	3,573,681,970	2,500,599,981	6,074,281,951
1914	3,467,560,721	2,537,852,080	6,005,412,801
1912	3,216,714,460	2,262,565,233	5,479,279,693
1910	2,977,075,471	2,050,079,335	5,027,154,806
1905	2,600,445,146	1,621,835,908	4,222,281,054
1900	2,315,687,381	1,562,983,689	3,878,671,070
1890	1,600,137,807	1,013,077,330	2,613,215,137
1880	1,111,160,072	816,695,358	1,927,855,430

Under the provisions of the Income Tax Law, which became effective in 1917, the intangible personal property is no longer taxable by local board of assessors, which accounts for the decrease in valuation of the assessed personal property in 1917 and thereafter.

The larger portion of the State's revenue is derived from corporations, national bank and trust companies, stocks, savings banks, income taxes and inheritance taxes. In 1926 the tax assessed aggregated $50,213,449.54, of which $13,322,547.33 accrued to the Commonwealth and the balance is apportioned to cities and towns. Of the total of $50,213,449.54, $3,781,-794.48 was assessed upon public service corporations, $11,061,581.10 upon domestic business corporation, $3,318,090.11 upon foreign business corporations, $2,416,566.24 upon savings banks, $1,035,362.38 upon national banks and trust companies, $21,772,325.36 upon incomes, and $6,827,729.87 upon inheritances.

POPULATION OF STATE.—

1920	3,852,356	1900	2,805,346	1860	1,231,066	1820	523,287
1915	3,693,310	1890	2,238,943	1850	994,514	1810	472,040
1910	3,366,416	1880	1,783,080	1840	737,699	1800	422,845
1905	3,003,635	1870	1,457,351	1830	610,408	1790	378,787

DEBT LIMITATIONS.—The only provision in the constitution of Massachusetts limiting the power of the Legislature to create State indebtedness is contained in a constitutional amendment adopted in Nov. 1918, which constitutes Article 62, Articles of Amendment, the text of which follows:

Sec. 1. The credit of the Commonwealth shall not in any manner be given or loaned to or in aid of any individual, or of any private association, or of any corporation which is privately owned and managed.

Sec. 2. The Commonwealth may borrow money to repel invasion, suppress insurrection, defend the Commonwealth or to assist the United States in case of war, and may also borrow money in anticipation of receipts from taxes or other sources, such loan to be paid out of the revenue of the year in which it is created.

Sec. 3. In addition to the loans which may be contracted as before provided, the Commonwealth may borrow money only by a vote, taken by the yeas and nays, of two-thirds of each House of the General Court present and voting thereon. The Governor shall recommend to the General Court the term for which any loan shall be contracted.

Sec. 4. Borrowed money shall not be expended for any other purpose than that for which it was borrowed or for the reduction or discharge of the principal of the loan.

Note.—In 1923 we gave the above sections as having constituted Articles 112, 113, 114 and 115 of the Rearranged Constitution, ratified by the voters Nov. 4 1919, but which was later declared void by the State Supreme Court (see V. 113, p. 751).

MUNICIPAL INDEBTEDNESS.—There appears to be no constitutional limit upon municipal indebtedness, but legislation governing the creation of debts of cities, towns and districts has been passed from time to time, and it might safely be said that this subject is treated more thoroughly in Massachusetts than in any other State. The legal limitations placed upon the borrowing power of cities, towns and districts may be found in Chapter 44 of the General Laws. In the following paragraphs we endeavor to summarize the provisions of this Chapter as to municipal debts, long and short term, sinking funds and maturities.

Long Term Debts, Limit of.

Under Section 10 debts of cities, except Boston, are limited to 2½%, and towns to 3% of the average assessed valuation for three years, less abatements of the preceding year. In computing the debt subject to these limitations, debts authorized outside the limit, as provided in Section 8, are to be deducted from the total debt, leaving the debt inside the limit, as described in Section 7. From this is to be deducted the sinking funds applicable to it, giving the net debt subject to the limitation. We give below the text of Sections 2, 3, 7, 8 and 10, which contain these provisions:

Sec. 2. Except in Boston and except as otherwise expressly permitted by law, cities and towns shall incur debts only in the manner of voting and within the limitations as to amount and time of payment prescribed in this chapter; but this section shall not be construed as prohibiting any city, town or district from placing additional restrictions, consistent with this chapter, upon the manner of incurring debt, nor as affecting the right of any city, town or district to incur debt under any special Act; but no debt may be authorized under a special Act except by a two thirds vote, unless the Act so provides.

Sec. 3. The indebtedness of a city or town for a specific purpose shall be its net indebtedness which shall be the total indebtedness for that purpose after deducting the amount of sinking funds applicable to the same. The indebtedness to which the debt limit imposed by Section 10 shall be applied shall be the total net indebtedness of the city or town after excluding debts exempted from the operation of said Section.

Sec. 7. Cities and towns may incur debt, within the limit of indebtedness prescribed in Section 10, for the following purposes, and payable within the periods hereinafter specified, provided that as to each such purpose, except those described in paragraphs (15), (16), and (17), only such sum may in any year be authorized to be borrowed as exceeds 25 cents per $1,000 of the valuation of the city or town for the preceding year.

(1) For the construction of sewers for sanitary and surface drainage purposes and for sewage disposal, thirty years.

(2) For acquiring land for public parks or public domain under chapter 45, thirty years; but no indebtedness incurred for public domain shall exceed ½ of 1% of the last preceding assessed valuation of the city or town.

(3) For acquiring land for any purpose for which a city or town is or may hereafter be authorized to acquire land, not otherwise herein specified, and for the construction of buildings which cities and towns are or may hereafter be authorized to construct, including the cost of original equipment and furnishing, twenty years.

(4) For the construction of additions to school houses or buildings to be used for any municipal purpose, including the cost of original equipment and furnishings, where such additions increase the floor space of said buildings, twenty years.

(5) For the construction of bridges of stone or concrete, or of iron superstructure, twenty years.

(6) For the original construction of public ways or the extension or widening thereof, including land damages and the cost of pavement and sidewalks laid at the time of said construction, ten years.

(7) For the construction of stone, block, brick or other permanent pavement of similar lasting character, ten years.

(8) For macadam pavement or other road material under specifications approved by the Division of Highways, five years.

(9) For the construction of walls or dikes for the protection of highways or property, ten years.

(10) For the purchase of land for cemetery purposes, ten years.

(11) For the cost of additional departmental equipment, five years.

(12) For the construction of sidewalks of brick, stone, concrete or other material of similar lasting character, five years.

(13) For connecting dwellings or other buildings with common sewers, when the cost is to be assessed in whole or in part on the abutting property owners, five years.

(14) For the abatement of nuisances in order to conserve the public health, five years.

(15) For extreme emergency appropriations involving the health or safety of the people or their property, five years.

(16) For the payment of final judgments rendered after the fixing of the tax rate for the current year, one year.

(17) For such other emergency appropriations as shall be approved by a board composed of the Attorney-General, the State Treasurer and the Director, one year.

Sec. 8. Cities and towns may incur debt, outside the limit of indebtedness prescribed in Section 10, for the following purposes and payable within the periods hereinafter specified:

Debts may be authorized under this section only by a two-thirds vote.

(1) For temporary loans under Sections 4, 5, 6 or 17, one year.

(2) For maintaining, distributing and providing food, other common necessaries of life and temporary shelter for their inhabitants upon the occasions and in the manner set forth in Section 19 of Chapter 40, two years.

(3) For establishing or purchasing a system for supplying the inhabitants of a city or town with water, for the purchase of land for the protection of a water system, or for acquiring water rights, thirty years.

(3*a*) For the construction of filter beds, standpipes and reservoirs, twenty years.

(3*b*) For laying and relaying street water mains of six inches or more in diamater, fifteen years.

(4) For the extension of water mains and for water departmental equipment, five years.

(5) For establishing, purchasing, extending, or enlarging a gas or electric lighting plant within the limits of the territory within which such gas or electric lighting plant is authorized to distribute its product, twenty years; but the outstanding indebtedenss so incurred shall not exceed in a town 5% and in a city 2½% of the last preceding assessed valuation of such town or city.

(6) For acquiring land for the purposes of a public playground, as specified in Section 14 of Chapter 45, thirty years; but the indebtedness so incurred shall not exceed ½ of 1% of the last preceding assessed valuation of the city or town.

(7) For acquiring land or constructing buildings or other structures, including the cost of original equipment, as memorials to soldiers, sailors and marines, twenty years; but the indebtedness so incurred shall not exceed ½ of 1% of the last preceding assessed valuation of the city or town.

(8) For payment of an assessment for a proportionate share of the expense of construction of a county tuberculosis hospital under Section 83 of Chapter 111, twenty years.

(9) For acquiring street railway property under Sections 143 to 158 inclusive, Chapter 161, operating the same, or contributing toward the sums expended by a transportation area for capital purposes, ten years; but the indebtedness so incurred shall not exceed 2% of the last preceding assessed valuation of the city or town.

Debts mentioned in clause (1) of this section shall be payable as provided for in Sections 4, 5, 6 and 17. Debts for all other purposes mentioned in this section shall be payable within the periods above specified from the date of the first issue of bonds or notes on account thereof, and may be incurred in accordance with the laws relating to such purposes, so far as they are consistent with this chapter. Debts, except for temporary loans, may be authorized under this section only by a two-thirds vote.

Debts mentions in clauses (3) and (4) of this section shall not be authorized to an amount exceeding 10% of the last preceding assessed valuation of the city or town.

Sec. 10. Except as otherwise authorized by law, a city shall not authorize indebtedness to an amount exceeding 2½%, and a town shall not authorize indebtedness to an amount exceeding 3%, on the average of the assessors' valuations of the taxable property for the three preceding years, the valuations being first reduced by the amount of all abatements allowed thereon previous to Dec. 31 of the preceding year. All debts, except those expressly authorized by law to be incurred outside the debt limit, shall be reckoned in determining its limit of indebtedness under this section.

Section 9 provides that fire, water, light and improvement districts may, by a two-thirds vote of the electors, authorize debt for the purposes prescribed, and payable within the periods specified in Sections 7 and 8.

Temporary Loans.

Sections 4, 5, 5*a*, 6, 6*a*, and 17 authorize the issuance of temporary loans payable in not more than one year from date, in anticipation of revenue, for current expenses, for the payment of any land damages or expenses of altering grade crossings or any proportion of expenses of constructing a highway in anticipation of reimbursement by the Commonwealth or county, and for highway improvements in anticipation of reimbursement by the county, and in anticipation of the sale of bonds. Section 18 permits the sale of these notes at discount.

Sinking Funds Abolished—Serial Payments.

Section 47, part of an Act adopted in 1913, abolished sinking funds in cities and towns, excepting Boston, but allowed the continuation of funds established prior to May 28 1913. The establishment of sinking funds in districts after March 20 1915 was prohibited by an Act passed in 1915.

Section 19 provides a serial method for paying off obligations. The first payment is to be made not later than one year from date of issue, but the first payment on bonds issued for the purchase or establishing of a water supply system may be delayed to three years from date.

EXEMPTION FROM TAXATION.—Clause 15, Sec. 5, Part I, Chapter 490, of the Acts of 1909, as amended by Chapter 83, Laws of 1914 (now Clause 25 of Section 5 of Chapter 59, General Laws of 1921), provides that the following securities shall be exempt from taxation: "Bonds or certificates of indebtedness of the Commonwealth issued since the first day of January in the year 1906, and bonds, notes and certificates of indebtedness of any county, fire district, water supply district, light district, watch district or improvement district, city or town in the Commonwealth which may be issued on or after the first day of May in the year 1908, stating on their face that they are exempt from taxation in Massachusetts."

TAXATION OF MORTGAGES.—Chapter 761, Laws of 1914 provided that a bond secured by mortgage on tangible property located within or without the Commonwealth which is subject to taxation wherever located, and which is there actually taxed, shall be exempt from taxation within the Commonwealth of Massachusetts upon registration of the same with the Tax Commissioner and upon the payment to him of a fee of $3 per $1,000 annually.

This tax was declared unconstitutional, Perkins vs. Westwood, 226. Massachusetts 268, and as a result the act was later repealed. However the objective sought by Chapter 761 was afterward accomplished in the passing of the State Income Tax Law, referred to below, under which the income from such bonds then became taxable to the holders and the bond itself, as a property exemption, from any further tax.

INCOME TAX.—The 1916 Legislature passed a bill since amended and which now constitutes Chapter 62, General Laws of 1921, providing for a tax on incomes in accordance with a constitutional amendment adopted in Nov. 1915. The law has been declared constitutional by the State Supreme Court. V. 104, p. 2664.

In Oct. 1922, the U. S. Supreme Court held that revenues from taxes on incomes could be used for educational purposes. V. 115, p. 1964.

SAVINGS BANK INVESTMENTS—POWER AND RESTRICTIONS.—The provisions regarding savings bank investments in Massachusetts are found in Sec. 54, Chapter 168 of the General Laws of 1921, as since amended. The statute as it now stands is the result of numerous changes made from time to time. The amendments of 1908 are referred to in V. 87,

p. 257, and in an editorial article on pages 5 and 6 of the "State and City Supplement" for May 29 1909. The law was further amended in 1909 and 1912 (see "Chronicle" of May 25 1912, "State and City Department"); Clause Fourteenth was added in 1913; the last two paragraphs of the section relating to street railways were added in 1915, and in 1918 the Legislature authorized savings banks and savings departments of trust companies in Massachusetts to invest in Farm Loan bonds issued by Federal Land banks, and also the investment by savings banks in bankers' acceptances and bills of exchange. In 1919 a law was passed providing that railroad bonds, which were legal investments for savings banks at the time when the U. S. Government took over the operation of the roads issuing such bonds, shall not become illegal investments by reason of the operation of the roads by the Government. In 1920 a law was passed extending this provision for a period of two more years. Paragraph (3) of subdivision (e), Clause 9, was amended by the 1924 Legislature, by changing the amount that may be loaned to depositors, secured by deposit books, from 90% to the full amount of the deposits shown in said deposit books. In 1925 a law was passed amending sub-divisions (a), (e) and (f) of Clause 2. Sub-division (a) now makes legal investments for savings banks bonds of any State which has not within the 20 years prior to the making of such investment defaulted in the payment of any part of either principal and interest; under sub-division (e) as amended, investments can be made in the legally authorized bonds for municipal purposes or in refunding bonds issued to take up at maturity bonds which have been issued for other than municipal purposes, but on which interest has been fully paid of any city (in any State) which has been incorporated for 25 years, which has a population ranging from 30,000 to 100,000 and whose net indebtedness does not exceed 5%; and sub-division (f) as amended carries the same provisions as sub-division (e) except that a city must have a population of more than 100,000, and its net indebtedness must not exceed 7%. Clause 5, dealing with the investment in bonds of telephone companies, was also amended in 1925. It strikes out the words "In the bonds of any telephone company subject to provisions of Section 53 of Chapter 63, and of which a majority of the directors are residents of the Commonwealth" and substitutes a new introduction which is placed in italics below.

In 1926 Section 54 was again amended. The change adds a new clause (6A) and amends subdivisions (c) of Clause 9 as a result of which savings banks are now permitted to invest in bonds of certain public service companies in addition to those heretofore authorized. The same amendment also affects Clause 15 in regard to the publication of a list annually by the Bank Commissioner of securities considered legal investments for savings banks. The clause, as amended, now provides, among other things, that the Bank Commissioner in his preparation of the list may obtain expert assistance. Paragraph (p) was added to Clause 3 in 1926. In 1927 (Chapter 102) World War veterans adjusted compensation certificates were made eligible for use as collateral on loans granted by savings banks. Section 54, Chapter 168, of the General Laws now reads:

SECTION 54. Deposits and the income derived therefrom shall be invested only as follows:

FIRST—First Mortgages of Real Estate.—In first mortgages of real estate located in this Commonwealth not to exceed 60% of the value of such real estate; but not more than 70% of the whole amount of deposits shall be so invested. If a loan is made on unimproved and unproductive real estate, the amount loaned thereon shall not exceed 40% of the value of such real estate. [For conditions that must be observed in making such loans see law in full in V. 87, p. 257.]

SECOND—Public Funds.—(a) In the public funds of the United States or of this commonwealth, or in the legally authorized bonds of any other state of the United States, but not including a territory, which has not within the twenty years prior to the making of such investment defaulted in the payment of any part of either principal or interest of any legal debt.

(b) In the bonds or notes of a county, city or town of this Commonwealth.

(c) In the bonds or notes of an incorporated district in this Commonwealth whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

(d) In the bonds or notes of any city of Maine, New Hampshire, Vermont, Rhode Island or Connecticut whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes; or of any county or town of said States whose net indebtedness does not exceed 3% of such valuation; or of any incorporated water district of said States which has within its limits more than five thousand inhabitants, and whose bonds or notes are a direct obligation on all the taxable property of such district and whose net indebtedness does not exceed 3% of such valuation. *Provided*, that there is not included within the limits of such water district, either wholly or in part, any city or town the bonds or notes of which are not a legal investment.

(e) In the legally authorized bonds for municipal purposes or in refunding bonds issued to take up at maturity bonds which have been issued for other than municipal purposes, but on which the interest has been fully paid, of any city of any state of the United States, other than a territory or dependency thereof, which was incorporated as such at least twenty-five years prior to the date of such investment, which has at such date not less than thirty thousand nor more than one hundred thousand inhabitants, as established by the last national or state census, or city census certified to by the city clerk or treasurer of said city and taken in the same manner as a national or state census, preceding such date, and whose net indebtedness does not exceed five per cent of the valuation of the taxable property therein, to be ascertained by the last preceding valuation of property therein for the assessment of taxes.

(f) In the legally authorized bonds for municipal purposes or in refunding bonds issued to take up at maturity bonds which have been issued for other than municipal purposes, but on which the interest has been fully paid, of any city of any state of the United States, other than a territory or dependency thereof, which was incorporated as such at least twenty-five years prior to the date of such investment, which has at such date more than one hundred thousand inhabitants, established in the same manner as is provided in subdivision (*e*) of this clause, and whose net indebtedness does not exceed seven per cent of the valuation of the taxable property therein, to be ascertained as provided in said subdivision (*e*).

[The Attorney-General on April 28 1914 held that bonds of the City of Minneapolis, Minn., were legal investments. V. 98, p. 1629.]

(g) In subdivisions (d), (e) and (f) of this clause the words "net indebtedness" mean the indebtedness of a county, city, town or district omitting debts created for supplying the inhabitants with water and debts created in anticipation of taxes to be paid within one year, and deducting the amount of sinking funds available for the payment of the indebtedness included

RAILROAD BONDS.

Massachusetts Railroads.

THIRD.—(a) In the bonds or notes, issued in accordance with the laws of this Commonwealth, of a railroad corporation incorporated therein the railroad of which is located wholly or in part therein, which has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment, or in the first mortgage bonds of a terminal corporation incorporated in this Commonwealth and whose property is located therein, which is owned and operated, or the bonds of which are guaranteed as to principal and interest, or assumed, by such railroad corporation. Any shares of the capital stock of a railroad corporation leased to such railroad corporation, which are owned by said lessee corporation, shall not be considered as outstanding within the meaning of this subdivision.

New England Railroads.

(b) In the bonds or assumed bonds of a railroad corporation incorporated in any of the New England States at least one-half of the railroad of which is located in said States, whether such corporation is in possession of and is operating its own road or is leased to another railroad corporation; *provided* either that such bonds shall be secured by a first mortgage of the whole or a part of the railroad and railroad property of such corporation or by a refunding mortgage as described in paragraph (3) or (4) of subdivision *g*; or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds shall be issued under the authority of one of said States which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its road, equipment and franchise or upon any of its real or personal property, without including in and securing by such mortgage all bonds previously issued and all its pre-existing debts and liabilities, which provision, so enacted in such State, shall have been accepted by the stockholders of such corporation; and *provided*, that such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment.

(c) In the first mortgage bonds or assumed first mortgage bonds or in the bonds secured by a refunding mortgage as described in paragraphs (3) or (4) of subdivision *g*, of a railroad corporation incorporated in any of the New England States the railroad of which is located wholly or in part therein, which have been guaranteed as to principal and interest by a railroad corporation described in subdivisions *a* or *b* which is in possession of and is operating its own road.

(d) No bond shall be made a legal investment by subdivision *b* unless the corporation which issued or assumed such bond has, during its fiscal year next preceding the date of such investment, paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct and assumed funded indebtedness.

No bond shall be made a legal investment by subdivision *c* unless the corporation which guaranteed such bond has, during its fiscal year next preceding such investment, paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct, assumed and guaranteed funded indebtedness.

Other Railroads.

(e) In the mortgage bonds, as described in any of the following subdivisions of this clause, of any railroad corporation incorporated under the laws of any of the United States:

Provided, that during each of the ten fiscal years of such railroad corporation next preceding the date of such investment—

(1) Such railroad corporation owned in fee not less than five hundred miles of standard-gauge railroad, exclusive of sidings, within the United States, or if such corporation owned in fee less than five hundred miles of such railroad, the gross earnings of such corporation, reckoned as hereinafter provided, shall have been not less than fifteen million dollars;

(2) Such railroad corporation shall have paid the matured principal and interest of all its mortgage indebtedness;

(3) Such railroad corporation shall have paid in dividends in cash to its stockholders an amount equal to at least four per cent upon all its outstanding capital stock.

(4) The gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals of all leased lines, and the interest on all the outstanding indebtedness of railroads controlled and operated which is not owned by said corporation after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporations not operated by said corporation, which have been deposited with a trustee as the only security to secure the payment of bonds or notes issued by said corporation, but not in excess of the interest on said last-named bonds or notes.

And further *provided*, that—

(5) No bonds shall be made a legal investment by subdivision *g* in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of the issuing or assuming corporation, including all bonds not issued that may legally be issued under any of its prior mortgages or of its assumed prior mortgages, after deducting therefrom, in case of a refunding mortgage, the bonds reserved under the provisions of said mortgage to retire prior lien debts at maturity, shall exceed three times the outstanding capital stock of said corporation at the date of such investment.

(6) No bonds shall be made a legal investment by subdivision *i* or *j* in case the mortgage securing the same shall authorize a total issue of bonds which, added to the total debt of the guaranteeing corporation as defined in paragraph five, including therein the authorized amount of all previously guaranteed bond issues, shall exceed three times the capital stock of such guaranteeing corporation outstanding at the date of such investment; nor in case at said date the total debt of the corporation which issued said bonds shall exceed three times its outstanding capital stock.

In the case of a mortgage executed prior to June 8 1908, under which the total amount of bonds which may be issued is not specifically stated, the amount of bonds outstanding thereunder at the date of such investment shall be considered, for the purposes of paragraph five and of this paragraph, as the total authorized issue.

DESCRIPTION OF BONDS.

(1) *Definition of First Mortgage.*—Whenever the term "first mortgage" is used in the following subdivisions, it shall mean, unless otherwise qualified, a first mortgage on not less than seventy-five per cent of the railroad owned in fee at the date of the mortgage by the railroad corporation on the railroad of which said mortgage is a lien, but in no case on less than one hundred continuous miles of standard-gauge railroad, exclusive of sidings; *provided*, that seventy-five per cent of the railroad subject to the lien of said mortgage is connected;

For five years prior to the date of investment therein all the railroad subject to the lien of said mortgage at the date of execution thereof has been operated by, and its operations included in, the operations of the railroad corporation which issues, assumes or guarantees said bonds;

The date of said mortgage is at least five years prior to the date of such investment; except that a first mortgage given in substitution for and not greater in amount than such a first mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement.

(g) *Direct Obligations.*—Bonds issued or assumed by a railroad corporation described in subdivision *e*, which are secured by a mortgage which was at the date thereof or is at the date of such investment—

(1) A first mortgage on railroad owned in fee by the corporation issuing or assuming said bonds, except that, if it is not a first mortgage on seventy-five per cent of all such railroad owned in fee by said corporation, it shall be a first mortgage on at least seventy-five per cent of the railroad subject to the lien of said mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of said mortgage as part security therefor, representing or covering railroad mileage not owned in fee, the bonds secured by said mortgage shall not become legal investments unless said corporation owns in fee at least seventy-five per cent of the total mileage which is subject to the lien of said mortgage and which is represented or covered by said stocks or bonds;

(2) A first mortgage, or a mortgage or trust indenture which is in effect a first mortgage, upon all the railroad subject to the lien of said mortgage or trust indenture, by virtue of the irrevocable pledge with the trustee thereof of an entire issue or issues of bonds which are a first lien upon the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming said bonds;

(3) A refunding mortgage which covers at least seventy-five per cent of the railroad owned in fee by said corporation at the date of said mortgage and provides for the retirement of all outstanding mortgage debts which are a prior lien upon said railroad owned in fee and covered by said refunding mortgage at the date thereof. But if any of the bonds which said refunding mortgage is given to refund are secured on a railroad not owned in fee by the corporation executing said refunding mortgage, there shall be conveyed and assigned to the trustee of said refunding mortgage either—

At least seventy-five per cent of the railroad on which each issue of bonds to be refunded is secured, free from any mortgage lien except that of the mortgage or mortgages securing the bonds to be refunded; or

At least seventy-five per cent of the outstanding bonds of each issue which is secured by a mortgage lien upon such railroad; and all of said railroad not owned in fee which is so subjected to the lien of said refunding mortgage shall be the railroad of one or more railroad corporations which are owned and operated, controlled and operated, or leased and operated, by the corporation issuing or assuming said refunding mortgage bonds;

But in no case shall the bonds secured by said refunding mortgage become a legal investment unless they mature at a later date than any bonds which said refunding mortgage is given to refund, nor unless the total mileage subjected to the lien of said refunding mortgage in accordance with the requirements of this paragraph is at least twenty-five per cent greater than the mileage covered by any one of the mortgages securing bonds which said refunding mortgage is given to refund.

(4) A mortgage upon not less than ten per cent of the railroad, exclusive of sidings, owned in fee at the date of said mortgage by the corporation issuing or assuming said bonds, but in no case on less than five hundred continuous miles of standard-gauge railroad; *provided*, that

Said mortgage is a first or second lien upon not less than seventy-five per cent of the total railroad covered by said mortgage at the date thereof, and which provides for the retirement of all mortgage debts which are a prior lien upon said railroad owned in fee and covered by said mortgage, at the date of the execution thereof;

The bonds secured by said mortgage mature at a later date than, and cover a mileage at least twenty-five per cent greater than is covered by, any of the bonds secured by a prior lien mortgage so to be retired;

The date of said mortgage shall be at least five years prior to the date of such investment.

(h) *Bonds Underlying Refunding Mortgages.*—Mortgage bonds or bonds secured by mortgage bonds which are a direct obligation of, or which have

been assumed, or which have been guaranteed by endorsement as to both principal and interest by, a railroad corporation whose refunding mortgage bonds are made a legal investment under paragraphs three or four of subdivision *g; provided*, that—

Said bonds are prior to and are to be refunded by such refunding mortgage:

Said refunding mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien.

In the case of bonds so guaranteed or assumed, the corporation issuing said bonds is owned and operated, controlled and operated, or leased and operated, by said railroad corporation.

(i) *Guaranteed Obligations.*—Bonds which have been guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the provisions of subdivision *e; provided*, that—

Said bonds are secured by a first mortgage on the railroad of a railroad corporation which is owned and operated, controlled and operated, or leased and operated, by the corporation guaranteeing said bonds;

In the case of a leased railroad, the entire capital stock of which, except shares qualifying directors, is not owned by the lessee, the rental includes an amount to be paid to the stockholders of said leased railroad equal to at least four per cent per annum upon that portion of the entire capital stock thereof outstanding which is not owned by the lessee.

(j) First mortgage bonds of a railroad corporation which during each of its ten fiscal years next preceding the date of such investment has complied with all the requirements of paragraphs two, three and four of subdivision *e; provided*, that said bonds are guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the requirements of subdivision *e* preceding paragraph five, notwithstanding that the railroad of said issuing corporation is not operated by said guaranteeing corporation.

CORPORATION NOT TO LOSE CREDIT BY TEMPORARY DISTURBANCE OF RELATION OF GROSS EARNINGS TO FIXED CHARGES.

(k) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding two successive fiscal years to comply with the requirements of paragraph four of subdivision *e;* but no further investment in the bonds issued, assumed or guaranteed by said corporation shall be made during said period. If after the expiration of said period said corporation complies for the following fiscal year with all the requirements of subdivision *e*, it shall be regarded as having complied therewith during said period.

BONDS NOT TO BECOME ILLEGAL ON ACCOUNT OF CONSOLIDATION.

(l) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal, although the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and although the corporation which issued or assumed said bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for or to acquire the stock of the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to 4% per annum upon the capital stock outstanding at the time of such consolidation or purchase, of said corporation which issued or assumed said bond.

CREDIT OF A CORPORATION NOT TO BE LOST BY CONSOLIDATION.

(m) If a railroad corporation which has complied with all the requirements of subdivision *e* preceding paragraph five, except that the period of compliance is less than ten, but not less than five successive years, shall be, or shall have been, thereupon consolidated or merged into, or its railroad purchased and all of the debts of such corporation assumed by, another railroad corporation incorporated under the laws of any of the United States, such corporation so succeeding shall be considered as having complied with all the provisions of subdivision *e* preceding paragraph five during those successive years next preceding the date of such consolidation, merger or purchase in which all said consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would have so complied: *provided*, that said succeeding corporation shall continue so to comply for a further period which shall make such compliance equivalent to at least ten successive years, but which shall be in no case less than the two fiscal years next following said consolidation, merger or purchase.

STREET RAILWAY CORPORATIONS ARE NOT RAILROAD CORPORATIONS.

(n) In this Act, unless the context otherwise requires, "railroad corporation" means a corporation which owns or is in possession of and operating a railroad or railway of the class usually operated by steam power. Street railway corporations are not railroad corporations within the meaning of this clause.

STATUS OF RAILROADS UNDER FEDERAL CONTROL.

o Railroad bonds, which were legal investments for savings banks at the time when the Government of the United States, under the Act of Congress approved Mar. 21 1918, took over the operation of the railroads issuing such bonds, shall not become illegal investments by reason of the operation of the railroads by the Federal Government. The time during which any such railroad is operated by the Federal Government shall be excluded including the year in which the Government operation ends, in determining the compliance of any such railroad with the provisions of this section *provided, however*, that in case a railroad corporation the mortgage bonds of which would become legal for investment under sub-division *e* of this section upon its compliance with the requirements of said sub-division shall have complied with the requirements of said sub-division during the two years or more next preceding Jan. 1 1918, such railroad corporation shall be deemed to have complied with the requirements of said sub-division during the period of the Government operation of its railroad, including the year in which such Government operation ends, in computing the time of compliance with the requirements of said sub-division.

The time during which any railroad is operated by the Government of the United States under the provisions of an Act of Congress approved Aug. 29 1916, of an Act of Congress approved March 21 1918, or of any other Act or Acts of the Congress of the United States, and for two years thereafter, and the earnings made and dividends paid during said time and for said two years thereafter shall not be taken into consideration in determining whether the bonds of the railroad corporation comply with any of the provisions of this section. Any railroad corporation, which, at the time when the operation of its railroad by the Government of the United States under the provisions of the said Act or Acts began, had complied with the provisions of subdivision *e* of this clause, for one or more years next preceding the commencement of such Government operation and control shall be entitled to include, in computing the period of ten years prescribed by the provisions of said subdivision *e* every year during any part of which its railroad shall have been operated by the Government of the United States under the provisions of said Act or Acts, and the two years succeeding the termination of such operation, in determining whether such corporation has complied with the provisions of said subdivision *e* each year for ten years. Except as hereinbefore provided, whenever a reference is made in said subdivision *e* to a period of ten years preceding the date of an investment in the bonds of any railroad corporation, such period shall be deemed exclusive of any time during which the property of such railroad corporation has been operated by the Government of the United States under the provisions of the said Acts and of the two years succeeding the termination of such operation.

Any bonds acquired by savings banks or institutions for savings prior to May 7 1920, or at any time hereafter, which comply with the provisions of this clause, may, so long as they continue to comply therewith, be retained as investments authorized by law.

STREET RAILWAY BONDS.

(p) In notes, bonds or other obligations, issued or guaranteed as to principal and interest by a railroad corporation which complies with all the requirements of subdivisions (b) and (d), or subdivision (e) preceding Paragraph (5); provided, that—(1) such securities are secured by a first lien on, or by a lease and conditional sale of, new railroad equipment of standard gauge, consisting of locomotives, passenger train cars or freight train cars, free from all other encumbrances, for the purchase of which such securities were issued at not exceeding 80% of the purchase price of such equipment; (2) the instrument under which such securities are issued or the lease and conditional sale of such equipment provides for the proper maintenance and replacement thereof and for the payment of the entire issue of such securities in not exceeding fifteen equal annual or thirty equal semi-annual installments from date of issue, without the release of any part of the lien or interest in any part of the equipment securing such securities until the said entire issue of the series so secured shall have been paid or redeemed. Not more than 10% of the deposits of any such bank shall be invested in securities which are legal under this subdivision, nor more than 2% of its deposits in such securities issued or guaranteed by, or secured by lease and conditional sale to, any one railroad corporation.

FOURTH.—In the bonds of any street railway company incorporated in this Commonwealth the railway of which is located wholly or in part therein, and which has earned and paid in dividends in cash an amount equal to at least five per cent upon all its outstanding capital stock in each of the five years last preceding the certification by the Board of Railroad Commissioners hereinafter provided for. No such investment shall be made unless said company appears rom returns made by it to the Board of Railroad Commissioners to have properly paid said dividends without impairment of assets or capital stock and said board shall on or before the fifteenth day of January in each year certify and transmit to the Bank Commissioner a list of such street railway companies.

Dividends paid by way of rental to stockholders of a leased street railway company shall be deemed to have been earned and paid by said company within the meaning of this clause, provided that said company shall have annually earned, and properly paid in dividends in cash, without impairment of assets or capital stock, an amount equal to at least five per cent upon all its outstanding capital stock in each of the five fiscal years next preceding the date of the lease thereof.

If two or more street railway companies have been consolidated by purchase or otherwise during the five years prior to said certification, the payment severally from the earnings of each year of dividends equivalent in the aggregate to a dividend of five per cent on the aggregate capital stocks of the several companies during the years preceding such consolidation shall be sufficient for the purpose of this clause.

Bonds which have been or shall become legal investments under the provisions of this clause shall not, except as hereinafter provided, be deemed to be an illegal investment by reason of the fact that the corporation issuing such bonds shall hereafter fail or shall have heretofore failed for a period not exceeding two successive fiscal years to earn and pay dividends in accordance with the requirements of this clause, but no further investments in the bonds issued by the corporation shall be made during said period. If after the expiration of said period the corporation earns and pays or has earned and paid dividends during the following fiscal year in accordance with the requirements of this clause, it shall be regarded as having complied therewith during said period; provided, that it shall not have so failed to comply during any other period within the next preceding five years; and provided, that during said period of non-compliance its annual earnings shall have at least been sufficient to provide for the payment of the interest upon its outstanding indebtedness and all other fixed charges in addition to its operating expenses. The said department shall certify and transmit to the Bank Commissioner a list of any street railway companies whose bonds become legal investments by virtue of this paragraph.

TELEPHONE COMPANY BONDS.

FIFTH.—In the bonds of any telephone company incorporated under the laws of, and doing business in, any state of the United States on the continent of North America.

Provided, that during each of the five fiscal years of such telephone company next preceding the date of such investment—

(1) The gross income of such telephone company shall have been not less than ten million dollars per annum.

(2) Such telephone company shall have paid the matured principal and interest of all its indebtedness.

(3) Such telephone company shall have paid in dividends in cash an amount equal to not less than six per cent per annum on all its outstanding issues of capital stock.

(4) The dividends paid on the capital stock of such telephone company shall not have been less than the total amount necessary to pay the interest upon its entire outstanding indebtedness.

And further *provided* that such bonds shall be secured either (*a*) by a first mortgage upon at least seventy-five per cent of the property of such telephone company or (*b*) by the deposit with a trust company incorporated under the laws of this Commonwealth of bonds and shares of stock of other telephone corporations, under an indenture of trust which limits the amount of bonds so secured to seventy-five per cent of the value of the securities deposited as stated and determined in said indenture, and provided that during each of the five years preceding such investment the annual interest and dividends paid in cash on the securities deposited have amounted to not less than fifty per cent in excess of the annual interest on the bonds outstanding and secured by said deposit. Not more than two per cent of the deposits of any savings bank shall be invested in the bonds of telephone companies.

GAS, ELECTRIC OR OTHER PUBLIC SERVICE BONDS.

SIXTH.—In the bonds of a gas, electric or water company secured by a first mortgage of the franchise and property of the company; provided, that the net earnings of the company, after payment of all operating expenses, taxes and interest, as reported to, and according to the requirements of, the proper authorities of the commonwealth, have been in each of the three fiscal years preceding the making of such investment equal to not less than 4% on all its capital stock outstanding in each of said years; and, provided, that the gross earnings of the company in the fiscal year preceding the making of the investment have been not less than one hundred thousand dollars. A list of the companies whose securities prima facie comply with the requirements of this clause, shall be furnished to the Commissioner annually, at such time after June 16 in any year as he shall designate, by the proper authorities of the Commonwealth having supervision over such companies.

SIXTH A.—In the bonds, maturing not later than thirty years subsequent to such investment, issued or assumed by any corporation incorporated under the laws of the United States or of any State thereof, which is operating under the supervision of a public service or other similar commission of the United States or of any State thereof exercising regulatory jurisdiction therein and is engaged in the sale and distribution of electricity, or in such sale and distribution and also in some other form of public service enterprise, or in the manufacture and distribution of artificial gas, and is doing at least 80% of its business within the territorial limits of the United States; provided, that—

(1) The gross operating revenue of the corporation issuing or assuming such bonds shall be not less than one million dollars for its fiscal year immediately preceding the time of making such investment, and of such revenue at least 75% shall be derived from the sale and distribution of electricity or artificial gas, or both, and not exceeding 20% from the operation of a transportation system.

(2) Such corporation shall operate under a franchise or franchises under which at least 75% of its gross operating revenue is earned and extending at least three years beyond the maturity of any such bond, or under an indeterminate franchise or permit from, or agreement with, a public service commission or other competent public authority, which franchise, permit or agreement equally protects the security of the bondholders.

(3) The capital stock of such corporation shall be equal to at least two-thirds of the total funded debt thereof; provided, that, in the case of a corporation having shares without par value, the value of its property as shown by its books shall exceed by at least two-thirds its total mortgage indebtedness.

(4) For the period of five years immediately preceding the time of making any investment authorized by this clause, the officially reported net earnings available for interest charges of such corporation, as shown by its annual reports or other sworn statements to the municipal, State or Federal authorities, shall have been equal to at least twice the interest charges for the same period of the corporation's total outstanding funded debt.

(5) Such bonds, plus the total amount of any underlying bonds, shall be outstanding in an amount not exceeding 60% of the actual value of the fixed property securing such bonds, as shown by the books of the corporation.

(6) Such bonds shall be (*a*) a closed underlying mortgage bond secured by property owned and operated by the corporation issuing or assuming such bonds; provided, that such bond is to be refunded by a junior mortgage providing for the retirement of such bond, and that such underlying mortgage may remain open solely for the purpose of issuing additional bonds to be pledged under such junior mortgage or for refunding at par prior lien bonds; or

(*b*) a first mortgage bond constituting the only mortgage debt of such corporation. If such mortgage is not closed it shall by its terms prevent the issuance of additional bonds for extensions, improvements and property acquisitions, unless such additional bonds are issued either (1) for an amount not exceeding 75% of the actual cost of such extensions, improvements and property acquisitions, when net earnings available for interest charges, for twelve months out of the fifteen months preceding the application to the trustee under such mortgage for authentication of such additional bonds

have been equal to at least one and three-quarters times the interest charges for one year on the total amount of bonds outstanding under such mortgage and the proposed additional bonds, or (2) for an amount not exceeding 80% of the actual cost of such extensions, improvements and property acquisitions, when net earnings available for interest charges for twelve months out of the fifteen months preceding the application to the trustee under such mortgage for authentication of such additional bonds have been equal to at least twice the interest charges for one year on the total amount of bonds outstanding under such mortgage and the proposed additional bonds; or

(c) a refunding mortgage bond providing for the retirement of all prior lien or divisional mortgage bonds of such corporation outstanding at the time of making the investment, such bond being secured by a lien on property owned and operated by such corporation; provided, that any mortgage prior in lien to such refunding mortgage shall be closed unless such prior mortgage remains open solely for the purpose of issuing additional bonds to be pledged under such refunding mortgage; and provided, further, that if a mortgage junior in lien to such refunding mortgage bond exists, such refunding mortgage bond shall by its terms be refunded by such junior mortgage; and provided, further, that in case such refunding mortgage is not closed, it shall by its terms prohibit the issue of additional bonds for extensions, improvements and property acquisitions by said corporation unless such additional bonds are issued in accordance with the provisions of subdivision (1) or (2) of paragraph (b) thereof, and shall further provide that the net earnings available for interest charges as therein stated shall respectively equal at least one and three-quarters times or at least twice the interest charges for one year on the total amount of bonds outstanding under such mortgage, of bonds secured by equal or prior liens, and of the proposed additional bonds.

(7) In this clause, unless the context otherwise requires, "funded debt" shall be construed to mean all interest-bearing debt maturing more than one year from its date of issue, but excluding bonds of the company held simply as collateral to secure other of its outstanding obligations, and "net earnings" shall be construed to mean the amount available for interest charges after deduction has been made for all operating expenses, including current maintenance, all taxes except income taxes, and all rentals and guaranteed interest or dividends.

(8) If, during any of the periods mentioned in this clause, such corporation has been consolidated by purchase or otherwise, the aggregate operating figures of the corporations so consolidated, exclusive of inter-company charges, shall be sufficient for the purpose of this clause.

(9) Not more than 15% of the deposits of any such bank shall be invested in bonds under this clause, nor shall more than 2% of such deposits be invested in the bonds of any such corporation.

BANK STOCKS AND DEPOSITS IN BANKS

SEVENTH.—In the stock of a banking association located in the New England States and incorporated under the authority of the United States, or in the stock of a trust company incorporated under the laws of and doing business within this Commonwealth, but such corporation shall not hold both by way of investment and as security for loans more than twenty per cent of its deposits in the stock of such associations or companies, nor in any one such association or company more than three per cent of its deposits in, nor more than one hundred thousand dollars nor more than one-quarter of the capital stock of, such association or company. Such corporation may deposit not more than two and one-half per cent of its deposits in any banking association incorporated under the authority of the United States and located in this Commonwealth, and in any trust company incorporated in this Commonwealth, but such deposit shall not in any case exceed five hundred thousand dollars nor twenty-five per cent of the capital stock and surplus fund of such depositary.

EIGHTH—In bankers' acceptances and bills of exchange of the kinds and maturities made eligible by law for rediscount with Federal Reserve banks, provided the same are accepted by a bank, banking association or trust company incorporated under the laws of the United States or of this Commonwealth, and having its principal place of business within the Commonwealth. Not more than 10% of the deposits and of the income derived therefrom shall be invested by any savings bank in bankers' acceptances or bills of exchange, nor shall any savings bank invest in the acceptances and bills of exchange eligible by law for rediscount with Federal Reserve banks of any one accepting bank or trust company to any amount in excess of 5% of its deposits and of the income derived therefrom. The aggregate amount of bankers' acceptances and bills of exchange of any bank, banking association or trust company held by any savings bank shall not exceed 25% of the paid up capital and surplus of such bank, banking association or trust company.

NINTH—Loans on personal security.—In loans of the classes hereinafter described, payable and to be paid or renewed at a time not exceeding one year from the date thereof; but not more than one-third of the deposits and income shall so be invested, nor shall the total liabilities to such corporation of a person, partnership, association or corporation for money borrowed upon personal security, including in the liabilities of a partnership or company not incorporated the liabilities of the several members thereof, exceed 5% of such deposits and income; but said limitations, except as to time in which said loans shall be paid or renewed, shall not apply to loans made under paragraph (2), subdivision (e) of this clause.

(a) *Note of three citizens*.—A note which is the joint and several obligation of three or more responsible citizens of this Commonwealth: provided, that the total liabilities to such corporation of a person, partnership or association, for money borrowed under this subdivision, including in the liabilities of a partnership or company not incorporated the liabilities of the several members thereof, shall not exceed 1% of the deposits of such corporation.

(b) *Corporation note*.—A note, with one or more substantial sureties or endorsers: (1) of a corporation incorporated in this Commonwealth; or (2) of a manufacturing corporation with a commission house as surety or endorser, provided that such commission house is incorporated in this Commonwealth, or has an established place of business and a partner resident therein; or (3) of an association or corporation at least one-half of the real and personal property of which is located within the New England States, if at least one such surety or endorser is a citizen of or corporation incorporated in this Commonwealth: provided, that no such loan shall be made or renewed unless within eighteen months preceding the making or renewing of such loan an examination of the affairs, assets and liabilities of the borrowing corporation or association has been made, at the expense of such borrowing corporation or association, by an accountant approved by the Commissioner. The report of such examination shall be made in such form as the Commissioner may prescribe. A copy of the report certified to by the accountant shall be delivered by the borrowing corporation or association to the savings bank before such loan or a renewal thereof is made, and a copy so certified shall be delivered by the accountant to the Commissioner within thirty days after the completion of said examination.

(c) *Notes of certain public service companies*.—(1) A bond or note of a gas, electric light, telephone or street railway corporation incorporated or doing business in this Commonwealth and subject to the control and supervision thereof; provided, that the net earnings of said corporation, after payment of all operating expenses, taxes and interest as reported to, and according to the requirements of, the proper authorities of the Commonwealth, have been in each of the three fiscal years preceding the making or renewing of such loan equal to not less than 4% on all its capital stock outstanding in each of said years; and provided, that the gross earnings of said corporation in the fiscal year preceding the making or renewing of said loan have been not less than one hundred thousand dollars. A list of the companies whose securities prima facie comply with the requirements of this subdivision shall be furnished to the Commissioner annually, at such time after June 16 in any year as he shall designate, by the proper authorities of the Commonwealth having supervision over such companies.

(2) Other bonds or notes issued, assumed or guaranteed by endorsement as to both principal and interest by a public utility corporation whose securities are authorized for investment by clause Sixth A.

(d) *Notes issued or guaranteed by railroad companies*.—A bond or note issued, assumed or guaranteed by endorsement as to both principal and interest, by a railroad corporation which complies with all the requirements of subdivision (b) or of subdivision (e) preceding paragraph (5) of clause Third: provided, that the principal of such bond or note described in either this or the preceding subdivision is payable at a time not exceeding one year after the date of investment therein.

(e) *Notes secured by collateral*.—A note of a responsible borrower in such form as the Commission may approve, with a pledge as collateral of—

(1) One or more first mortgages of real estate situated in this Commonwealth: provided, that the amount of such note is not in excess of 60%, or in the case of unimproved or unproductive real estate in excess of 40%, of the value of the property or properties mortgaged; that the value of each of said properties has been certified in accordance with the provisions of clause First; and that the assignment of each of said mortgages has been recorded in the proper registry of deeds; or

(2) Bonds or notes authorized for investment by clause Second, Third, Fourth, Fifth or Seventeenth at no more than 90% of the market value thereof, at any time while such note is held by such corporation; or

(3) Deposit books of depositors in savings banks up to the amount of deposits shown therein and unpledged shares of co-operative banks at not more than 90% of their withdrawal value; or

(4) Shares of railroad corporations described in subdivision (a), (b) or (e) of clause Third at no more than 80% of the market value thereof, at any time while such note is held by such corporation; or

(5) Such other bonds, notes or shares of corporations or associations and at such percentages of their market values as the board of investment shall approve: provided, that, if the Commissioner shall disapprove any such bonds, notes or shares, he shall make such written recommendations to the board of investment of such corporation as the case may require, and shall include in his annual report a statement of the facts in each case in which such board of investment has not complied with his recommendations in a manner satisfactory to him; or

(6) Policies issued by life insurance companies approved by the Commissioner and properly assigned to the bank, but not exceeding 90% of the cash surrender value of such policies; but the aggregate of such loans made by any savings bank shall not exceed 1% of its deposits.

(f) *"Association" defined*.—Whenever used in this clause, the word "association" means an association the business of which is conducted or transacted by trustees under a written instrument or declaration of trust.

TENTH—Farm loan bonds.—In farm loan bonds lawfully issued by Federal Land Banks incorporated under the Act of Congress approved July 17 1916, entitled "An Act to provide capital for agricultural development, to create standard forms of investment based upon farm mortgage, to equalize rates of interest upon farm loans, to furnish a market for United States bonds, to create Government depositaries and financial agents for the United States, and for other purposes."

ELEVENTH—Bank building.—A sum not exceeding the guaranty fund and undivided earnings of such corporation, nor in any case exceeding 5% of its deposits or $200,000, may, subject to the approval of the Commissioner, be invested in the purchase of a suitable site and the erection or preparation of a suitable building for the convenient transaction of its business. Extraordinary alterations in, or additions to, a bank building owned by a savings bank, involving an expense exceeding $10,000, shall not be made without the approval of the Commissioner, and the cost of such alterations or additions shall not exceed the sum specified in this clause.

TWELFTH—Real estate acquired by foreclosure.—Such corporation may hold real estate acquired by the foreclosure of a mortgage owned by it, or by purchase at sales made under the provisions of such mortgages or upon judgments for debts due to it, or in settlements effected to secure such debts. Such corporation shall sell all such real estate within five years after the title thereof is vested in it, and notwithstanding the provisions of clause First may take a mortgage thereon from a bona fide purchaser to secure the whole or a part of the purchase price; but the Commissioner may, on petition of the board of investment of such corporation, and for cause, grant an additional time for the sale of the same or of the securities mentioned in the following clause.

THIRTEENTH—Securities acquired in settlement of indebtedness.—Such corporation may hold stocks, bonds, notes or other securities acquired in settlements effected to secure loans or indebtedness; but unless the time during which such securities may be held is extended as provided in the preceding clause, they shall be sold within five years after being acquired.

FOURTEENTH—Pledges of securities as collateral to remain valid.—The provisions of this chapter shall not invalidate or impair the title of a corporation to securities which have been or may be held by it in pledge or or as security for a loan or indebtedness; and the same shall be held for the purposes for which they were pledged.

FIFTEENTH—List of bonds to be prepared.—Annually, not later than February 1 the Commissioner shall prepare a list of all the bonds and notes which are then legal investments under the provisions of clause Third, Fourth, Fifth, Sixth A or Seventeenth. Said list shall at all times be open to public inspection and a copy thereof shall be sent to every savings bank. In the preparation of any list which the Commission is required to furnish, he may employ such expert assistance as he deems proper or may rely upon information contained in publications which he deems authoritative in reference to such matters; and he shall be in no way held responsible for the omission from such list of the name of any State, municipality or corporation the bonds of which conform to the provisions of this section, or of any bonds which so conform, nor shall he be held responsible for the inclusion in such list of any such names or bonds which do not so conform.

The Bank Commissioner issued a report in Feb. 1927 *containing a list of bonds considered legal under clauses Second, Third, Fourth, Fifth, Sixth and Seventeenth of the above Act.—This list appeared in the "State and City Department of the "Chronicle", pp.* 1713, 1714 *and* 1715 *of March* 19 *and p.* 1870 *of March* 26. *From time to time since then the Commissioner has iaaued bulletins announcing changes in the list.—See issues of April* 9, *April* 23, *April* 30, *May* 21 *and June* 11.

SIXTEENTH—Bonds not to become illegal by reason of temporary failure to meet legal requirements.—Bonds which at any time have been for ten successive years legal investments under the provisions of subdivision (a), (b), (c) or (d) of clause Third or clause Fifth of this section shall not be rendered illegal, although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding two successive years to comply as to dividends on its capital stock, with the requirements of the clauses specified above; but no further investment in the bonds issued, assumed or guaranteed by such corporation shall be made during said period. If after the expiration of said period, such croporation complies for the following fiscal year with the requirements of the clauses specified above, it shall be regarded as having complied therewith during said period: provided, that it shall not have so failed to comply during any other period within the next preceding ten years.

SEVENTEENTH—Certain investments previously authorized.—This section shall not render illegal the investment in any mortgages of real estate held by such corporation on June 8 1908, nor the investment before or after said date in any issue of bonds or notes dated before said date in which such corporation might then invest, so long as such bonds or notes continue to comply with the laws then in force.

[*Opinion of Attorney-General Regarding Legality of N. Y. N. H. & Hartford RR. Bonds as Savings Banks Investments*.]—The Attorney-General rendered an opinion in Feb. 1911 with reference to the Act passed by the Legislature in June 1910 to validate bonds and stocks of the New York New Haven & Hartford RR. Co., and for the purpose of determining whether or not the assets were sufficient to show the road a solvent corporation. As noted in V. 92, p. 462, the report of the Commission appointed under the Act referred to was filed with the Legislature on Feb. 17 1911. The Act stated that "nothing herein contained shall authorize the investment by savings banks in the securities aforesaid unless they are otherwise legal investments under the provisions of Chapter 590, Acts of 1909," and the Attorney-General finds that "no matter what the finding of the Commission appointed under the Act with reference to assets and liabilities was, it would not in and of itself make any change in the standing of securities for savings bank investments." See V. 92, p. 541.

Chapter 102, *Laws of* 1927, *reads as follows:* Savings banks and savings departments of trust companies may invest deposits and the income derived therefrom in loans upon notes secured by adjusted service certificates as provided under an act of Congress passed May 19 1924, entitled, "An Act to provide Adjusted Compensation for Veterans of the World War and for Other Purposes," and any amendments thereof.

BOSTON.—Malcolm E. Nichols, Mayor; Frank L. Brier, City Treas; Rupert S. Carven, City Auditor.
City was incorporated Feb. 23 1822. On Nov. 2 1909 a charter amendment was adopted under which municipal nominations are to be made only upon petition of 5,000 voters. The Mayor serves for four years, subject to recall after two years. V. 89, p. 1234. In 1918 the legislature rescinded the recall and made 3,060 the number for petition for Mayor. On Nov. 7 1911 the voters accepted an Act passed by the Legislature annexing the town of Hyde Park, which became a part of the city Jan. 1 1912. V. 93, p. 1337.
The county of Suffolk, in which Boston is situated, contains also the cities of Chelsea, and Revere, and the town of Winthrop. Boston, however, receives all the county income, pays all the county expenses, owns the county buildings, and is responsible for the county debt, which amounted on Feb. 28 1927 to $1,523,500.99. The details of this county debt are included in the following financial report for this city.

The following is a statement of debt, inside and outside, sinking funds and net indebtedness within the limit, as of April 30 1927:

Total funded debt, city and county		*$140,829,550.97
Funded debts, outside the debt limit (debts exempted from the operation of the law limiting municipal indebtedness):		
City debt	$38,890,300.00	
Water debt	1,228,000.00	
County debt	1,124,999.97	
Rapid transit debt	46,729,700.00	
		87,972,999.97
Funded debt within the debt limit		$52,856,551.00
Offsets to funded debt:		
Sinking funds	$44,110,225.86	
Less sinking funds for debt outside the debt limit:		
City sinking funds	$20,532,350.84	
County sinking fund	547,823.85	
Rapid transit sinking funds	8,974,048.41	
	30,054,223.10	
Offsets to funded debt within the debt limit		14,056,002.76
Net indebtedness within the debt limit		$38,800,080.14

* Includes $251,999.98 issued by the Commonwealth under Chapter 534 of the Acts of 1906.

The debt-incurring power of the city on March 31 1927 was estimated at $5,230,460.01.

In the following table the total debt and sinking funds as of March 31 1927 are analyzed according to purposes and according to whether it is inside or outside the debt limit:

	Gross Debt.	*Sink. Funds, &c.*	*Net Debt.*
City debt	$92,019,351.00	$36,913,489.29	$55,105,861.71
County debt	1,523,499.97	544,152.48	979,347.49
Water debt	1,228,000.00	93.00	1,127,907.00
	$94,770,850.97	$37,457,734.77	$57,313,116.20
Rapid transit debt	46,729,700.00	8,936,177.06	37,793,522.94
	$141,500,550.97	$46,393,911.83	$95,106,639.14

TOTAL DEBT, &c.—	*Jan.* 31 1927.	*May* 31 1926.	*Jan.* 31 1925.
City debt proper	$92,317,351.00	$91,873,501.00	$85,394,501.00
Water debt	1,244,000.00	1,124,000.00	250,000.00
County debt	1,523,499.97	1,569,999.98	1,652,499.98
Rapid transit debt	46,729,700.00	45,735,700.00	42,096,700.00
Total bonded debt	$141,814,550.97	$140,303,200.98	$129,393,700.98
Sinking funds, &c	46,304,993.50	46,252,646.60	41,564,006.23
Net debt	$95,502,557.47	$94,050,554.38	$87,829,694.75

The following table shows the amount of the gross funded debt, sinking funds and the net debt for the following years:

Years—	Gross Debt.	Sinking Funds &c.	Net Debt.
1927 (Jan. 31)	$141,822,550.97	$46,304,993.50	$95,517,557.47
1926 (May 31)	$140,303,200.98	$46,252,646.60	$94,050,554.38
1926 (Jan. 31)	136,304,200.98	45,321,483.76	90,982,717.22

1870	365,593,100	218,496,300	584,089,400	15.39

DEBT AND TAX LIMITATIONS.—Taxes in Boston, exclusive of the State tax, county tax and sums required by law to be raised on account of the city debt, are limited by Chapter 521 of the Acts of 1910 and amendments thereto, to $24.43 on every $1,000 of the assessor's average valuation of the taxable property therein for three years, said valuation being first reduced by the amount of all abatements allowed thereon previous to the thirty-first day of December in the year preceding said assessment.

Sec. 2, Chap. 312, Laws of 1885 (Sec. 3, Chap. 27, of the 1902 edition, Revised Statutes), places the debt limitation of the city of Boston at 2½% of the average assessors' valuations of the taxable property for the preceding three years.

The foregoing limitation is of course exclusive of debts created for water supply, and further exceptions have been made from year to year by different legislatures authorizing bonds outside of the debt limit for various purposes, especially enumerated.

It is proper to state that under Chapter 93, Acts of 1891, the city is authorized to *anticipate* its authority to borrow money within its debt limit for any current municipal year.

POPULATION.—1920, 748,060; 1915, 745,439; 1910, 670,585; 1905, 93,598; 1900, 560,892; 1890, 448,477; 1880, 362,839; 1870, 250,526.

Serial Loans.
Since Jan. 1 1914 all loans of the city of Cambridge have been issued on the "serial" basis in compliance with Chapter 719, Acts of 1913 and amendments thereto. The "serial" loans have been issued in the form of coupon bonds of $500 or $1,000 each whenever possible; odd amounts, less than $1,000, only when issue necessitated them. Coupon bonds may be exchanged for reg. bonds on request.

LEGISLATURE.—The Legislature now meets annually the first Tuesday in January. There is no limit as to the length of session, but compensation of the legislators is limited to sixty days' attendance in any calendar year.

HISTORY OF DEBT.—For early history of the Rhode Island State debt, see "State & City Supplement" of April 13 1895, page 33. The bonds which were outstanding on Dec. 1 1925 are described as follows:

Penal & Reformatory Inst. Loan.					
3½g '09	M-S	$300,000c	Mch 1	1959	
Penal & Charitable Inst. Loan.					
4s g '23	M-S	$600,000c	Sept 1	1973	
State House Loan.

Armory Construction Bonds.					
3s g '06	A-O	$350,000c	Apr 1	1946	
4s g '23	M-S	130,000c	Sept 1	1973	
4s g '23	M-N	250,000c	Nov 1	1973	
***Metropolitan Park Loan.**					
3½sg '08	J-D	$250,000c	June 1	1958	
4s '14	F-A	300,000c	Feb 1	1964	
Court House Loan.					
4s g '25	F-A	$1,350,000r*	Aug 1	1975	

*This is debt incurred for the benefit of the several towns and cities included in Metropolitan Park System. While such debt is a direct obligation of the State, its payment must eventually be met by assessment on the towns and cities benefited.

INTEREST on the State-House bonds and Charitable Inst. Loan 1914 is payable in Providence at the Rhode Island Hospital Trust Co.; on the Charitable Inst. bonds of 1916 and 1918 and bridge bonds of 1917, payable at National Exchange Bank; on all other issues at Industrial Trust Co.

	Dec. 1 '26.	*Dec.* 1 '25.	*Dec.* 1 '24.	*Dec.* 1 '23.
Total funded debt	$14,039,000	$13,039,000	$12,691,000	$12,157,000
Sinking funds	2,978,864	2,666,847	2,399,488	2,441,017
Net debt	$11,060,136	$10,372,153	$10,291,512	$9,715,983

The sinking fund is largely invested in city, town and district bonds and notes, and it is to receive $180,981 yearly.

TAX VALUATION.—The total assessed valuation of real estate and personal property in Rhode Island June 15 1926 was $1,235,380,650.26, consisting of $786,349,308.26 real estate and $449,031,342 personal property. The regular State tax is 90 cents per $1,000. An additional 6 cents tax was levied in 1919 for highway and other purposes and from 1920 to 1926 incl. an additional tax of 3 cents has been levied for highway purposes.

POPULATION OF STATE—

1925	679,260	1900	428,556	1860	174,620	1820	83,059
1920	604,397	1890	345,506	1850	147,545	1810	77,031
1915	595,986	1880	276,531	1840	108,830	1800	69,122
1910	542,610	1870	217,353	1830	97,210	1790	68,825
1905	480,082						

STATE AND MUNICIPAL INDEBTEDNESS LIMITATIONS.—Under Section 13, Article IV of the State constitution, the General Assembly has no power to incur State debt to an amount exceeding $50,000 without the consent of the people, except in time of war or of insurrection or invasion. In no case is the Assembly to pledge the faith of the State for the payment of obligations of others without the approval of the people. In reference to city debts, there is nothing in the constitution of Rhode Island limiting the amount of such obligations. The following, however, are two sections taken from Chapter 47 of the Revised Statutes of the State of 1923. Since 1878 these provisions have been in force, and consequently 3% of the taxable property has been the limit of the power of each town (which includes city) to create debt.

SECTION 21.—"The outstanding notes, bonds and contracts of towns shall be paid and be fulfilled according to the tenor thereof, and all public works now authorized to be prosecuted shall be prosecuted and all indebtedness now authorized to be incurred on account thereof may be incurred according to the tenor of the authority thereof."

SECTION 22.—"No town shall, *without special statutory authority therefor*, incur any debt in excess of three per centum of the taxable property of such town, including the indebtedness of such town on the tenth day of April, one thousand eight hundred seventy-eight; but the giving of a new note or bond for a pre-existing debt, or for money borrowed and applied to the payment of such pre-existing debt, is excepted from the provisions of this section, and the amount of any sinking fund shall be deducted in computing such indebtedness."

EXEMPTION FROM TAXATION.—Regarding the taxation of bonds issued by the State of Rhode Island and its sub-divisions, Z. W. Bliss, Chairman of the State Board of Tax Commissioners of Rhode Island, in answer to our inquiry regarding the matter, made the following statement under date of June 9 1924:

"1. Bonds of the State of Rhode Island are exempt from taxation when issued pursuant to a law providing for such exemption, and if not so exempted are taxable at the uniform rate of 40c. for each $100 of the value thereof, in the opinion of this Board, under the provisions of Section 11 of Chapter 59 of the General Laws of 1923. It has been the prevailing practice to exempt State bonds from taxation in the statutes authorizing their issue.

"2. Bonds of subdivisions of the State are taxable to the holder at his place of domicile at the uniform rate of 40c. for each $100 of the value thereof, under the provisions of Section 11 of Chapter 59 of the General Laws of 1923, as intangible personal property. Efforts have been made to include an exemption provision in acts of the Legislature authorizing certain issues of municipal bonds, but up to the present time no exemption has been authorized in the case of any municipal issues."

We were further advised by Mr. Bliss under date of May 26 1925 with reference to the exemption provision in the Acts of the General Assembly authorizing the issue of State bonds, that "in every case up to the present time the Act authorizing such an issue has carried an exemption provision, except one, the bridge and construction loan issue authorized by an Act of the General Assembly in 1923, in which Act, inadvertently, it is believed, the exemption was omitted."

SAVINGS BANK INVESTMENTS, RESTRICTIONS, &c.—Provisions regulating investments by savings banks in Rhode Island were incorporated under the revision of State's statutes in 1923 as Section 1, Chapter 272, General Laws of 1923. As previously related by us the laws concerning savings bank investments were subjected in 1911 to many changes—in fact completely revised and materially altered in many respects. Further amendments were also made in 1912, 1914, 1917, 1918 and 1919. See V. 94, p. 1397; V. 98, p. 1629; V. 104, p. 1824, and V. 106, p. 1741. A 1925 amendment to clause I permits investment in bonds of the Dominion of Canada. In 1925 paragraph *d* of clause X and the entire clause XI were amended and paragraph *f* of clause XV was added. In 1926 the law was again amended by adding to Clause 9, of Section 1, a new subdivision, lettered "C," relating to real estate mortgages, under which investments are permitted "in bonds or certificates of indebtedness, maturing within ten years from the date of issue, secured either by the deposit of first mortgages on improved real estate or by the deposit of bonds or certificates of a mortgage company with a bank or trust company, having resources of not less than five million dollars, as trustee, subject to certain restrictions." Prior to 1926 investments were only allowed in ordinary real estate loans. In V. 124, p. 3102 reference is made to Chapter 1034 of the Laws of 1927, which amends the savings banks investment law in several respects.

In the following we endeavor to give a comprehensive digest of the law as it stands at present.

Section I, summarized, follows:

***Clause I.* Permits investments in (a) bonds or notes of the United States or any State or Territory which has not, in the ten years next preceding the time of investment, defaulted in the payment of its debt**

(b) Bonds or notes of any city or town of the New England States or New York State which has not defaulted in ten years and whose net debt does not exceed 7% of the last preceding assessed valuation; or of any incorporated district of said States having over 5,000 inhabitants, or in New Hampshire, with a population of over 2,500, whose bonds are a direct obligation on all the taxable property of such district, and whose net debt does not exceed 5% of such valuation, and which bonds are provided for by a sinking fund or serial retirement.

(c) Bonds or notes of any city of the United States other than the New England States and New York State which has not defaulted during ten years, has 30,000 or more inhabitants, as established by the last national or State Census, or city Census certified to by the City Clerk or Treasurer of such city, and taken in the same manner as a national or State Census preceding such investment, and a net debt of not exceeding 7% of the last preceding assessed valuation, or the bonds and obligations of any incorporated school district within such city, payable primarily from taxes levied on all taxable property in such district; providing the population of the district is 30,000 or more, and the population and assessed valuation of the district are equal to at least 75% of the population and assessed valuation of the city within which such district is located.

(d) Bonds or notes of any county in the United States having a population of over 100,000 (according to National or State Census), and whose net indebtedness does not exceed 3% of the last preceding assessed valuation.

(e) Bonds of the Government of the Dominion of Canada to an amount not exceeding 2% of their deposits, providing such obligations have a fixed and definite date of maturity and are a direct obligation of the Government, with interest and principal payable in American gold in the United States.

"Net Indebtedness—Definition.—(f) 'Net indebtedness' shall mean the total debt less sinking funds, the net outstanding water and sewer debts and the tax levy for the current year."

Clauses II to VI, inclusive, govern investment in railroad bonds, public service securities and bonds of telephone companies. The text of these clauses follows:

"Steam Railroad Bonds and Notes.—*Clause II.* In the bonds and notes and receivers' certificates of steam railroad corporations described herein below, in the 'table of eligible steam railroad bonds and notes,' subsections (a) to (y) inclusive, subject to the following definitions and classification:

"The words 'railroad' and 'railway' herein used are to be considered synonymous titles.

"The term 'funded indebtedness' herein used shall include all bonds and notes bearing interest.

"All 'income bonds' are ineligible.

"The eligibility of such bonds for such investments is defined as follows, unless hereinafter otherwise provided:

"Definition.—Ownership.—Such railroad corporation shall own its road in fee.

"Location.—The railroad of such corporation shall be located principally in the United States.

"Gauge.—The railroad of such corporation shall be of standard gauge.

"Mileage.—Such railroad must be not less than 100 miles in length, exclusive of sidings.

"Net income.—The net income of any such corporation shall be its earnings and income after payment of all operating expenses, maintenance charges, rentals and taxes, and all guaranteed dividends and guaranteed interest paid by, or due from, it.

"The net earnings and income of any such corporation shall equal the following requirements by the following classes, to which reference is made in the succeeding table of bonds.

"Classification.—*Class I.* Any such corporation of this class must have earned and received in each of its three fiscal years, or three nearer and successive periods of one year, next preceding such investment, a net income of not less than twice the annual interest for the current year on all its funded indebtedness, including the bonds in question.

"*Class II.* Any such corporation of this class must have earned and received a net income, in each of its three fiscal years, or three nearer and successive periods of one year, next preceding such investment, not less than twice the annual interest for the current year on the underlying mortgage bonds in question, and all prior liens.

"*Class III.* Any such corporation of this class must have earned and received in each of its three fiscal years, or three nearer and successive periods of one year, next preceding such investment, a net income of not less than twice the annual interest for the current year on all its mortgage indebtedness outstanding, including the bonds in question.

"*Class IV.* Any such corporation of this class must have earned and received in each of its three fiscal years, or three nearer and successive periods of one year, next preceding such investment, a net income of not less than one and a half times the annual interest for the current year on all its funded indebtedness, including the bonds in question.

"Table of Eligible Steam Railroad Bonds and Notes.—(a) Debenture bonds of any such steam railroad corporation, incorporated in any of the United States, whose net income is described in Class I.

"(b) Debenture bonds of any such steam railroad corporation, incorporated in any of the United States, which has leased its railroad to another such railroad whose net income is described in Class I; *Provided*, that such lease is for a term extending at least ten years after the maturity of the bonds in question, and that the rent from such lease is sufficient to meet the interest and sinking fund requirements, if any, on said bonds or any prior lien or any other debenture bonds, together with a dividend of not less than four per centum per annum on the entire capital stock of the lessor corporation; and also provides for the proper maintenance and operation of the property leased.

"(c) Debenture bonds of any such steam railroad corporation, incorporated in any of the United States, guaranteed as to principal and interest or assumed by another railroad described in Class I.

"(d) Bonds of any such steam railroad corporation described in items (b) and (c), which are guaranteed as to principal and interest, or assumed by two or more steam railroads of which one shall be of Class I and the others may be of Class III or Class IV.

"(e) Mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, whose net income is not less than that described in Class III.

"(f) Underlying mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, whose net income is not less than that described in Class II.

"(g) Mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, which are guaranteed as to principal and interest, or assumed by another steam railroad, whose net income is described in Class I or Class III.

"(h) Mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, which are guaranteed as to principal and interest, or assumed, by two or more steam railroads, of which at least one shall be of Class I or Class III and the others may be of Class III or Class IV.

"(i) Mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, which has leased its railroad to another steam railroad whose net income is described in Class I or Class III; *Provided*, that said lease is for a term extending at least ten years after the maturity of the bonds in question, and that the rent from such lease is sufficient to meet the interest and sinking fund requirements, if any, on said bonds and any prior liens, together with a dividend of not less than four per centum on the entire capital stock of the lessor corporation, and provides for the proper maintenance and operation of the property leased.

"(j) Mortgage bonds of any such steam railroad corporation, incorporated in the United States, which has leased its railroad to two or more steam railroads, of which at least one shall be of Class I or Class III; *Provided*, that said lease shall be for a term extending at least ten years after the maturity of the bonds in question, and that the rent from such lease is sufficient to meet the interest, and sinking fund requirements, if any, on said bonds and any prior liens, together with a dividend of not less than four per centum on the entire capital stock of the lessor corporation, and provides for the proper maintenance and operation of the property leased.

"(k) First mortgage bonds or refunding mortgage bonds of any such steam railroad corporation which would be a legal investment under items (g), (h), (i) and (j), respectively, except for the fact that it owns in fee less than 100 miles of road, exclusive of sidings.

"(l) First mortgage bonds of any such steam railroad corporation, irrespective of mileage, which is a constituent part of a steam railroad and transportation system of not less than 1,000 miles of road, exclusive of sidings, and at least ninety per centum of the capital stock of which is owned by a proprietary holding company which operates said railroad and transportation system, and the earnings of which, with the earnings of the other divisions constituting said railroad and transportation system, are received by said holding company, and which bonds in question are fully guaranteed as to principal and interest by such holding company, either by direct guaranty, or by rental under lease extending at least ten years after the maturity of said bonds, the terms of which lease require a payment of rent equivalent to all taxes and interest, and provides a sinking fund sufficient to retire said bonds at maturity; *Provided, however*, that the net income of said holding company shall equal the requirements of railroads in Class I.

"(m) Bonds and debentures of any steam railroad corporation whose railroad property is unencumbered by mortgage, and whose net income is described in Class I: *Provided, however*, that such bonds or debentures shall be issued only under the authority of some State which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its railroad property without including in and securing by such mortgage all bonds previously issued by it and all its pre-existing debts and liabilities, which provision so enacted in such State shall have been accepted by the stockholders of such railroad company.

"(n) Bonds of any steam railroad corporation described in item (m) which has leased its railroad to another steam railroad for a term extending not less than ten years after the maturity of the bonds in question, which lessee railroad fully guarantees the principal and interest on said bonds: *Provided*, that said lessee railroad is one whose net income is at least up to the standard set in Class III: *and provided, further*, that said lease is for a term extending at least ten years after the maturity of the bonds in question, and that the rent from such lease is sufficient to meet the interest and sinking fund requirements, if any, on said bonds, together with a dividend of not less than four per centum per annum on the entire capital stock of the lessor corporation, and provides for the proper maintenance and operation of the property leased.

"(o) First mortgage bonds of any terminal company, or terminal railway company, incorporated in the United States, whose property is located in the United States, and whose bonds are guaranteed as to principal and interest by any such steam railroad corporation of Class I.

"(p) First mortgage bonds of any terminal company or terminal railway company, incorporated in the United States, whose property is located in the United States, whose bonds are guaranteed as to principal and interest by two or more steam railroad corporations of Class I or Class III.

"(q) First mortgage bonds of any terminal company or terminal railway company, incorporated in the United States, whose property is located in the United States, of which company at least ninety per centum of its capital stock is owned by two or more proprietary steam railroads of Classes I, III or IV, and which use said property, and jointly, or jointly and severally, guarantee the principal and interest of all the indebtedness of said company.

(r) First mortgage bonds of any terminal company or terminal railway company, incorporated in the United States, whose property is located in the United States, which has leased its property to one or more steam railroad corporations which guarantee the principal and interest on said bonds, and which lease runs for a term extending at least ten years after the maturity of said bonds, and which lease provides for the maintenance and operaton of the leased property; *Provided*, that, if such lease is to one steam railroad corporation, it shall be of Class I, and if such lease is to two steam railroad corporations, they may be of Classes I or III, and if such lease is to three or more steam railroad corporations, they may be of classes I, III or IV.

"(s) First mortgage bridge bonds issued by any railroad corporation of lass I.

"(t) First mortgage bonds of any bridge company, incorporated in the United States, whose property is in the United States, whose entire indebtedness is guaranteed as to principal and interest by one or more steam railroad corporations; *Provided*, that, if such guarantee is by one such railroad corporation, it shall be of Class I, and if such guarantee is by two or more railroad corporations they may be of Classes I, III or IV.

"(u) First mortgage bonds of any bridge company, incorporated in the United States, whose property is in the United States and whose capital stock is entirely owned, except shares qualifying directors, by two or more proprietary steam railroad corporations of Classes I, III or IV which guarantee the maintenance of the property and the principal and interest of such bonds.

(v) Equipment bonds, or equipment notes, issued by any steam railroad corporation which has not defaulted on any of its bond or note interest within ten years of the date of the issue of such equipment bonds or notes, which are secured by a first lien on the equipment against the purchase of which said bonds or notes were issued at not exceeding eighty per centum of the purchase price thereof: *Provided, however*, that the indenture under which said lien is established contains adequate requirements for the maintenance of the property pledged, and provides that an equal amount of any issue of such bonds, or notes, shall be paid annually until all are retired without the release of the lien on any such equipment."

"(w) Notes, warrants and obligations, running for a term of not more than five years from date of issue, given by any steam railroad corporation which has earned and paid dividends at the rate of not less than four per centum per annum on all its outstanding capital stock for five years next prior to the date of issue.

"(x) Certificates of indebtedness commonly termed 'receiver's certificates' issued by a receiver of any such steam railroad under an authorization of the court or courts having jurisdiction over such receiver.

"(y) First mortgage bonds and refunding mortgage bonds of any steam railroad, incorporated and whose property is principally located in the Dominion of Canada, which conform in all respects to the provisions applying to mortgage bonds of steam railroad corporations in the United States.

"Change of Motive Power.—*Clause III.* The change of motive power by any steam railroad corporation, whether wholly or in part, shall not affect the eligibility, for such investment, of any of the steam railroad obligations hereinbefore described, so long as its earnings conform with the foregoing requirements.

"Railroad Stocks.—*Clause IV.* (a) In the shares of the capital stock of any steam railroad which has leased its railroad to another steam railroad, which operates the property so leased as a part of its railroad system; *Provided*, that such lease is for a term of not less than fifty years, and the lessee company is one whose bonds would be a legal investment under the provisions of Clause II, Class III, and that by the terms of the lease the lessee company is obliged to pay rents sufficient to pay the interest on the outstanding bonds of the lessor and a dividend at an annual rate of not less than four per centum per annum on all the capital stock of the lessor company.

"(b) In the shares of the capital stock of any steam railroad which operates its own railroad whose bonds would be an eligible investment under Clause II, Class I; *Provided*, that such railroad has paid regular annual dividends on all its capital stock at the rate of not less than four per centum per annum for ten years next preceding such investment.

"(c) The aggregate investment of such deposits and income by any bank, savings bank or trust company in the stock of any one such steam railroad corporation at par value shall not exceed two per centum of said deposits held by it.

"Public Service Securities.—*Clause V.* In the bonds of public service corporations, commonly called 'public service securities,' described hereinbelow in the 'table of eligible public service securities,' sub-sections (a) to (*f*), inclusive, subject to the following description and definition:

"The title 'public service securities' shall include only mortgage bonds issued by any electric railroad, street railway, gas company, electric light or power company, or water company, as hereinafter described.

"The term 'funded indebtedness' herein used shall include all bonds and notes bearing interest.

"Descriptive Definition.—Ownership.—Such corporation shall own the major part of its property in fee.

"Location.—The property of such corporation shall be located principally in the United States, unless otherwise provided.

"Net Income.—The net income of such corporation shall be its net earnings and income after payment of all operating expenses, maintenance charges, rentals and taxes, and all guaranteed interest and guaranteed dividends paid by, or due from, it.

Eligibility for such investment:—Such corporation must have earned and received an average net income in the three fiscal years or three nearer periods of one year each, next preceding such investment, not less than twice the current annual interest on all of its indebtedness secured by the mortgage under which the bonds in question are issued and all prior liens: *provided*, that the net income in the last fiscal year or nearer period of twelve months next preceding such investment shall exceed the net income of each of the two preceding fiscal years or twelve month period, unless otherwise herein specified; and *provided further*, that such corporation has earned and received a net income in this last fiscal year or nearer period of twelve months, next preceding such investment, not less than twice the annual interest for such period on all of its indebtedness secured by all mortgages of equal rank to that under which the bonds in question are issued and on all prior liens, and that in each of the two preceding fiscal years or twelve month periods not less than twice the annual interest for each such period on all of its indebtedness of equal rank with the bonds in question and on all prior liens outstanding at such period, unless hereinafter otherwise specified and shall not have defaulted on any of its obligations during any one of said periods."

"Table of Eligible Public Service Securities.—(a) Mortgage bonds of any such electric railroad, street railway, gas, electric light or power company, incorporated under the laws of Rhode Island, whose property is located and operated chiefly in this State.

"(b) Mortgage bonds of any such electric railroad, street railway, gas and electric light or power company, incorporated under the laws of any of the United States: *Provided, however*, that the said bonds of any such electric railroad or street railroad company shall be a legal investment for such deposits and income only in case such company shall have received average gross earnings of not less than four hundred thousand dollars in each of its three fiscal years, or three nearer periods of one year, next preceding such investment, and if said bonds are issued by a company which carries on the business of an electric railroad or street railway combined with that of either a gas company or an electric light or power company, or both of such kinds of business, then, in such case, such company shall have received average gross earnings of not less than six hundred thousand dollars in each of its three fiscal years, or three nearer periods of one year, next preceding such investment; and if said bonds are issued by any such gas company or electric light or power company, or by a company which combines the business of a gas company and an electric light company, and, or, power company, or any two such businesses, then, in such case, it shall have received average gross earnings of not less than two hundred thousand dollars in each of its three fiscal years, or three nearer periods of one year, next preceding such investment.

"(c) First or refunding mortgage bonds of any such electric railroad, treet railway, gas, electric light or power company incorporated in any of the United States, which are in operation and show substantial net earnings and which are guaranteed as to principal and interest or assumed by another corporation whose bonds would be a legal investment under the provisions of paragraph (b) of this clause.

"(d) First or refunding mortgage bonds of any such electric railroad or street railway, incorporated in any of the United States, which are guaranteed as to principal and interest, or assumed by a steam railroad or railroads whose bonds would be a legal investment under the provisions of Class III of the classification of steam railroads herein.

"(e) First or refunding mortgage bonds of any such electric railroad, street railway, gas, electric light or power company which has leased its property to any other corporation whose bonds would be a legal investment under the provisions of paragraph (b) of this clause: *Provided, however*, that said lease shall extend for a term of at least ten years after the maturity of said bonds at a rental at least equal to the fixed charges and taxes of the lessor, including the interest on, and a sinking fund for, the bonds in question, or provides for the payment of said bonds at maturity, and shall require the operation and maintenance of the leased property: *and provided further*, that an authentic copy of such lease shall be filed in the office of the Bank Commissioner, and such copy shall be preserved in his files during the life of the bonds in question

"(f) Equipment bonds or equipment notes issued by any such electric railroad or street railway which are secured by a first lien on the equipment against the purchase of which said bonds or notes were issued at not exceeding eighty per centum of the purchase price thereof: *Provided*, the indenture under which said lien is established contains adequate requirements for the maintenance of the property pledged and provides that an equal amount of such bonds or notes shall be paid annually until all are retired, without the release of the lien on any of such equipment.

"(g) Certificates of indebtedness, commonly termed 'receiver's certificates,' issued by a receiver of any such electric railroad, street railway, gas electric light or power company under an authorization of the court or courts having jurisdiction over such receiver.

"(h) First mortgage bonds of any electric railroad, street railway, gas, electric light or power company, described in paragraph (b) of this clause, which is incorporated in the Dominion of Canada, and whose property is located principally in said Dominion: *Provided*, that such bonds conform in all other respects to the provisions of paragraph (b), (c), (d), (e) or (f) of this clause.

"(i) Bonds of any corporation which owns more than ninety per centum of the capital stock and of the outstanding bonds of any electric railroad or street railway company, incorporated in this State, the railway of which is located wholly or in part therein, secured by the deposit in trust of the said stock and bonds as collateral, and which corporation has paid, in each fiscal year for the five years last preceding such investment, dividends of not less than four per centum per annum upon all its outstanding capital stock; or the bonds of any such electric railroad or street railway company which are secured by mortgage on its property and are guaranteed as to principal and interest by any such corporation.

"(j) First mortgage bonds of any company incorporated in this State for the purpose of supplying water for domestic and other purposes; *Provided*, that such company has an exclusive franchise to serve a population of not less than ten thousand in this State, which franchise extends at least five years beyond the life of the bonds in question, and that said bonds are secured by a mortgage of the property, rights and franchises of such company.

(k) Notes, warrants and obligations, running for a period of not exceeding ten years from date of issue, of any electric railroad, street railway, gas and electric light or power company such as is described in paragraph (b) of this clause, and which has earned and paid dividends at the rate of not less than 4% per annum on all its outstanding stock for a term of not less than five years next prior to the date of issue; and in the notes, warrants and obligations, running for a period of not exceeding ten years from date of issue, of any such corporation which are secured by the deposit of collateral security having value in excess of the amount loaned of not less than 20%.

"Bonds of Telephone Companies.—*Clause VI.* In the bonds of any Telephone Company incorporated in any of the United States, whose property is located chiefly in the United States, subject to the following description and definition:

"The term 'Funded Indebtedness' herein used shall include all bonds and notes bearing interest.

"Descriptive Definition.—Location.—The property of such corporation shall be located principally in the United States.

"Net income.—Net income of such corporation shall be its net earnings and income after payment of all operating expenses, maintenance charges, rentals and taxes, and all guaranteed interest and guaranteed dividends paid by, or due from it.

"Eligibility for such investment.—Such corporation must have earned and received a net income in each of its three fiscal years, or three nearer periods of one year each, next preceding such investment, of not less than twice the annual interest for the current year on all its indebtedness secured by the indenture under which the bonds in question are issued, and all prior liens, unless otherwise hereinafter specified, and shall not have defaulted on any of its obligations during the same period.

"Table of eligible telephone company bonds.—(a) Mortgage bonds of any such telephone company incorporated under the laws of any of the United States: *Provided, however*, that the said bonds of any such telephone company shall be a legal investment for such deposits and income only in case such company shall have received average gross earnings of not less than one million dollars in each of its three fiscal years, or three nearer period of one year, next preceding such investment.

(b) Debenture bonds of any such telephone company incorporated under the laws of any of the United States where definite covenant is made by the company that said debenture issue shall be equally secured with any future mortgage lien that may be later made by the company: *Provided, however*, that such company shall have received average gross earnings of not less than two million dollars in each of its three fiscal years, or three nearer periods of one year next preceding such investment.

(c) First or refunding mortgage bonds of any such telephone company incorporated in any of the United States which is in operation and which shows substantial net earnings and which are guaranteed as to principal and interest or assumed by another corporation whose bonds would be a legal investment under the provisions of paragraph (a) or (b) of this clause.

(d) First or refunding mortgage bonds of any such company which has leased its property to any other corporation whose bonds would be a legal investment under the provisions of paragraphs (a) or (b) of this clause: *Provided, however*, that said lease shall extend for a term of at least ten years after the maturity of said bonds, at a rental at least equal to the fixed charges and taxes of the lessor, including the interest on, and a sinking fund for, the bonds in question, or provides for the payment of said bonds at maturity and shall require the operation and maintenance of the leased property; and *provided, further*, that an authentic copy of such lease shall be filed in the office of the bank commissioner and such copy shall be preserved in his files during the life of the bonds in question.

(e) Certificates of indebtedness commonly termed receiver's certificates issued by a receiver of any such telephone company under an authorization of the court or courts having jurisdiction over such receiver.

(f) Collateral trust bonds of any such telephone company secured by the deposits with a trust company of bonds and of shares of stock of other telephone companies, under an indenture of trust which limits the amount of bonds so secured to not more than 75% of the value of the securities deposited as stated and determined in said indenture, and provided that the company issuing such collateral trust bonds shall have received average gross earnings of not less than five million dollars in each of its three fiscal years, or three nearer periods of one year, next preceding such investment and *provided, further*, that such telephone company shall have earned and paid cash dividends on all its outstanding issues of stock at the rate of not less than 6% per annum during each of its five fiscal years next preceding such investment.

(g) Notes, warrants and obligations, whether secured by collateral or unsecured, running for a period of not exceeding ten years from date of issue, of any telephone company such as is described in paragraph (a) of this clause and which has earned and paid cash dividends on all its outstanding issues of stock at the rates of not less than 6% per annum during each of its five fiscal years next preceding such investment.

A true copy of the mortgage or indenture of trust securing said bonds shall be filed in the office of the bank commissioner and shall be preserved during the life of said bonds.

The aggregate investment of such deposits and income by any bank, savings bank or trust company in the bonds of any one such telephone company at par value shall not exceed 2% of said deposits held by it.

Under Clause VII a bank may invest in the capital stock of any bank or trust company incorporated under the laws of any of the New England States, or New York State, or of any national banking association doing business in these States. An amendment to this clause made in 1927 permits investment in the capital stock of any bank or trust company in the country which is a member of the Federal Reserve System, has a principal office located in a city of 200,000 (or over) population according to most recent Federal Census, has an aggregate capital, surplus and undivided profits of at least $5,000,000, and has been in active business for at least ten years next preceding the date of investment, including in the computation of the ten years, if such corporation results from a consolidation of two or more corporations, the time during which any constituent corporation has been in active business. Holdings both by investment and as security for loans are limited to not more than 25% of a bank's deposits. No more than 3% of the deposits shall be invested in the stock of any one such corporation, nor shall such corporation hold, both by investment and as security for loans, more than one quarter of the capital stock of any one such bank, trust company or national banking association. Clause VIII concerns limit of deposits in any one bank.

Clauses IX, X and XI deal with real estate mortgages and personal securities. The text of these three clauses reads:

Real Estate Mortgages.—*Clause* 9. (a) In the bonds of the Federal Land Banks organized pursuant to the provisions of an Act of Congress approved July 17 1916: *Provided*, that not more than 3% of the deposits of any bank shall be invested in said bonds.

"(b) In loans secured by first mortgage on real estate subject to the following restrictions:

"No such loan shall be made except upon the report of not less than two officers, or trustees, or directors, or agents duly authorized to the duty by the board of trustees or directors, who shall certify according to their best judgment to the value of the premises to be mortgaged. Such report and certificate shall be in writing, and shall be filed and preserved in the records of the corporation.

"Loans on improved real estate shall not exceed 60% of such valuation.

"Loans on unimproved real estate shall not exceed 40% of such valuation.

"The aggregate amount of such loans shall not exceed 70% of such deposits, and of this authorized amount, not exceeding 30% thereof shall be on real estate located out of Rhode Island.

"In event of any such mortgage loan continuing for five years unreduced in amount, the property upon which such loan is secured, shall be re-examined and revalued, and a written report and certificate of the condition and value of the property at the time of such re-examination, shall be filed and preserved in the records of the corporation after the manner provided for a new loan, and such an examination and revaluation shall be made as often as every fifth year, until such loan is paid. If at the time of any such revaluation it shall appear that the property mortgaged has depreciated in value so that the loan secured thereby is in excess of the percentage limit of such value herein permitted for such loans, a reduction in the amount of the loan shall be required and secured as promptly as is practicable until the margin of safety is restored."

"(c) In bonds or certificates of indebtedness, maturing within ten years from the date of issue, secured either by the deposit of first mortgages on improved real estate or by the deposit of bonds or certificates of a mortgage company, which would themselves be proper investments under the provisions of this subdivision, with a bank or trust company, having resources of not less than five million dollars, as trustee, subject to the following restrictions:

"Said bonds or certificates of indebtedness shall be either the direct obligation of, or unconditionally guaranteed principal and interest by, a mortgage or other corporation, dealing in securities, having a capital and surplus of not less than one million dollars, provided, however, that the amount of outstanding bonds or certificates issued or guaranteed by any such mortgage or other corporation shall not at any time exceed 15 times its paid in capital and surplus, unless such bonds or certificates are insured against any loss arising through their non-payment, both principal and interest, under a contract of insurance endorsed thereon duly executed by an insurance company, authorized to write investment insurance or guaranty, under the insurance laws of some one of the New England States or of the State of New York, Pennsylvania or Maryland.

"The mortgages deposited to secure said bonds or certificates of indebtedness shall average not in excess of ten thousand dollars each, and each such mortgage shall mature within ten years from the date thereof, shall be amortized at the rate of 5% per annum if it does not mature in five years from the date of issue, shall constitute a first mortgage on improved fee simple real estate, consisting of residential or business property in developed localities, to an amount not exceeding 60% of the conservatively appraised value of such property. The titles to the property subject to said mortgages shall be in each case guaranteed by a policy of a title insurance company of sound financial standing with a paid in capital and surplus of at least three hundred thousand dollars and each of said mortgages shall be guaranteed irrevocably as to both principal and interest for the entire term thereof by a bonding or indemnity company with resources of not less than ten million dollars, and with contingent liabilities not in excess of an amount approved by the bank commissioner. The principal amount of such mortgages, mortgage bonds and/or mortgage certificates, together with the face value of United State Lisberty bonds and the amount of cash deposited with said trustee as collateral security, shall be always at least equal to the aggregate principal amount of such bonds or certificates of indebtedness then secured thereby.

"There shall be deposited with the trustee for the benefit of the holders of such bonds or certificates of indebtedness insurance policies issued by responsible companies acceptable to the bonding and indemnity company in each instance, covering damage by fire and by windstorm to each of the properties mortgaged to an amount at least equal to the amount secured by said mortgage.

"The mortgage or other corporation, dealing in securities, issuing or guaranteeing such bonds or certificates of indebtedness, shall keep its books upon an accrual basis and shall have its accounts and consolidated financial statements audited at least once a year by a certificated public accountant, acceptable to the bank commissioner of the State of Rhode Island, a copy of such annual report to be filed with the bank commissioner, and shall not have loaned more than 25% of its consolidated resources in any one State or possession of the United States and shall have made no loans out side the United States or its possessions.

"The aggregate amount of such bonds or certificates of indebtedness shall not exceed 8% of the deposits of the bank investing therein."

"Personal Securities.—*Clause X.*—(a) In the note or notes of an individual, copartnership, or corporation, with a pledge of any of the securities described in Clause I, Clause II, Clause IV, Clause V, or Clause VI, or Clause VII, of this chapter, the market value of which securities shall be at least twenty per centum in excess of the amount secured, which margin must always be maintained.

"(b) In the note or notes of an individual, copartnership, or corporation, secured by the pledge as collateral of shares of the capital stock of any steam railroad company or companies incorporated in any of the United States, or the Dominion of Canada, whose road is located wholly or in part in said countries, and which is in possession of and is operating its own road, and has earned and paid regular dividends of not less than four per centum per annum in each fiscal year on all its issues of capital stock, for five years last preceding such investment, which shares are listed either on the New York, Boston, Philadelphia, or Chicago stock exchange, and the market value of which collateral shall be at least twenty per centum in excess of the amount secured, which margin must always be maintained; such note or notes to be paid or renewed within one year from the date thereof.

"(c) In the note or notes of any individual, copartnership, or corporation, secured by pledge, as collateral, of the capital stock of any national banking association, or of any bank or trust company incorporated under the laws of the State in which it is located, other than the New England States or the State of New York, which banking association, bank or trust company is a member of the clearing house of any city of the United States which has a population of more than two hundred thousand inhabitants, as ascertained by the last national or State census preceding such investment, which securities shall have a fair market value of at least twenty-five per centum in excess of such note or notes so secured, which margin shall always be maintained, and in no case shall an aggregate of more than ten per centum of such deposits be loaned on such bank and trust company stocks, nor more than two per centum of such deposits on the stock of any one such bank or trust company.

"(d) In loans to any depositor in such corporation upon the personal note of such depositor to an amount not exceeding one hundred per centum of any such deposit: *Provided*, that the deposit and deposit book of any such depositor, with a properly executed assignment thereof, shall be held by such corporation as security for such loan.

Other Personal Securities.—*Clause XI.*—If such deposits and income cannot be satisfactory invested in the modes provided in Clauses I to X an amount not exceeding one-third part of such deposits may be invested in promissory notes or other personal securities, payable and to be paid within six months from the date thereof, with at least one responsible surety or secured by collateral with a market value of at least 20% in excess of the amount loaned thereon, excepting that the margin required in the case of certain bank and trust company stocks, provided for in paragraph (c) of Clause X, shall be observed, which margin must always be maintained:—or, not exceeding one-third of said one-third part of such deposits may be invested in single name promissory notes or drafts issued or accepted by a solvent individual, firm or corporation engaged in mercantile or manufacturing business in the United States that makes statements of his or its financial condition, duly ascertained and certified to by a public accountant approved by the Bank Commissioner of the State of Rhode Island, a copy of such certified statement to be kept on file in the office of the bank or trust company discounting or purchasing such note or draft. Such statement shall be as of a period within the 12 months preceding such investment and shall be the latest issued by the indivdual, firm or corporation presenting the same. Such statement shall consist of a balance sheet showing quick assets, slow assets, permanent or fixed assets, current liabilities and accounts, short term loans, long term loans, capital and surplus. Accompanying such balance sheet there shall also be a signed statement from the borrower or public accountant who has prepared said balance sheet giving the following information:

1. The nature of the business.
2. All contingent liabilities such as endorsements or guarantees.
3. Particulars respecting any mortgage debts and whether there is any lien on current assets.
4. Gross sales, net profits, dividends or withdrawals for the 12 months preceding the date of said statement.

Such promissory note or draft must be issued or accepted by an individual, firm or corporation whose net worth is not less than twice the amount of his or its outstanding liabilities, including any contingent liabilities arising from the rediscount of bills receivable or accommodation endorsements and not less than $300,000.

Any savings bank or trust company purchasing such note or draft shall have on file information bearing upon the credit standing of the maker or acceptor, which shall have been received by such savings bank or trust company within 12 months previous to the time of making such purchase and shall be of a character satisfactory to the Bank Commissioner; *provided, however*, that all such investments shall be duly approved by at least two of the trustees or directors of the bank, savings bank, or trust company so investing the savings or participation deposits held by it; *and provided, further*, that no savings bank shall loan an amount in excess of 2% of its deposits and in no case more than $250,000 to any individual, firm, association or corporation, including in the liabilities of a partnership or association the liabilities of the several members thereof either direct or as endorser, and including in the liabilities of an individual his or her liabilities to such savings bank as endorser or surety.

Clause XII permits investment in the note or notes of a gas, water, electric light or power, telephone, electric railroad or street railway company incorporated, or doing business, in this State, which has paid dividends of at least 4% in each fiscal year upon all its issues of capital stock for 5 years next preceding the date of such investment; *Provided*, the principal of said note or notes matures at a time not exceeding 3 years from the date of investment therein; *and provided, further*, that said note or notes shall mature at least 5 years before the expiration of the principal franchise or franchises under which said gas, electric light or power, telephone, electric railroad or street railway company are operated; *and provided, further*, that the aggregate amount so invested by any bank, savings bank or trust company in the note or notes of any such corporation, together with the bond and other securities of such corporation held, shall not exceed 2% of said deposits held by it.

Clause XIII permits the bank to hold real estate acquired by foreclosure or mortgage, or by purchase, or by judgments, or in settlement of debts, but the provision is made that such property is to be disposed of within 5 years after taking title.

Securities taken in settlement of debt may be held under Clause XIV, but the non-legal securities so obtained shall be sold within five years after being acquired, unless the time is extended.

Clauses XV to XVIII, inclusive, read:

"General Provisions.—*Clause XV.* (a) Securities acquired after the passage of this Act, which were legal investments when acquired, need not be disposed of if it happens afterwards that the net income of the corporation issuing such securities shall fall below the limit fixed by this Act, or, in the case of a city, county, town or district, if the debt limit is exceeded, unless, in the judgment of the Commissioner, it is hazardous to retain the same, in which case said Commissioner may give directions in writing requiring the disposal of such securities, and when such directions are given, such securities shall be disposed of within one year from the date of such notice, unless an extension of time is granted by said Commissioner.

"(b) Bonds which are legal investments under the foregoing provisions of this chapter and are secured by a mortgage which provides for payments to a sinking fund shall cease to be legal investments if the corporation issuing such bonds shall at any time fail to make such payments. And such bonds shall not be legal investments under the provisions of this section so long as any such payment is in arrears and unpaid.

"(c) If a corporation is formed by a consolidation or merger of two or more corporations, and it is desired to ascertain the legality of the bonds of the successor corporation for investment of savings deposits, the earnings and income of the several predecessor and constituent corporations shall be consolidated, and the aggregate corporate income so ascertained shall be regarded as that of one and the same continuous corporation represented by the successor corporation; or, if a corporation shall acquire by purchase the property and franchises of another corporation, and a bond issue is made for the financing of the transaction, the legality of the bonds so issued with the other bonds of the purchasing corporation shall be ascertained by the same process as in the case of a consolidation or merger above provided, subject to the rules applying to the several classes of corporations described under the preceding clauses of this chapter.

"(d) If the net earnings and income of any corporation whose bonds have been a legal investment under the provisions of this chapter shall fall somewhat below the requirements of this chapter for a period of not exceeding two successive fiscal years, and in the following year such earnings and income shall be restored to the required amount, said corporation after such restoration of income, shall be regarded as having complied with said requirements during said period, but during the period of failure to earn the required amount no investment shall be made in the bonds of a corporation so situated.

"(e) Serial maturities of bonds shall be considered equivalent to sinking fund provisions.

(f) Subject also to the provisions of Clause XI, the total amount which may be invested by any savings bank in bonds, notes, stocks or other evidences of indebtedness of any one person, corporation, association or firm, including in the amount of the loan to any firm or association, the amount of the obligation of the several members thereof, shall not exceed 2% of the deposits of said savings bank; *provided, however*, that this limit shall not apply to obligations of the United States or of the State of Rhode Island.

(g) In determining the eligibility for investment of bonds secured by mortgage on the property of the company issuing such bonds and also secured by collateral in addition to such mortgage, the Bank Commissioner may in his discretion take into account the annual interest charges either on such mortgage bonds or on such collateral deposited for additional security but not the interest charges on both such bonds and collateral."

"Of the Segregation of Assets.—*Clause XVI.* (a) Every bank or trust company which maintains a savings or participation department, or solicits or receives deposits as savings or on participation, shall invest all deposits therein, or so received, according to the requirements of this chapter, and such deposits, invested or uninvested, shall be set apart for the exclusive protection of the deposits in said savings or participation department, and shall not be liable for, or be used to pay, any other obligation or liability of such bank or trust company until after the payment of all the deposits in said savings or participation department.

"(b) The foregoing provision as to the character of the investment of savings or participation deposits shall not render illegal any investments of such deposits made prior to May 26 1908, nor compel the change of such investments for those prescribed by this chapter, except as hereinafter provided.

"(c) If any bank or trust company shall continue to hold such investments of non-legal character made prior to May 26 1908 which, in the opinion of the Bank Commissioner, are hazardous and unsafe for the investment of savings deposits, said Commissioner may, by giving notice in writing, require such bank or trust company to dispose of such investments, to substitute other investments of a character in conformity with the requirements of this chapter within one year from the date of receipt of such notice, and said bank or trust company shall make such disposal or substitution in accordance with such requirement; but if it shall appear on written request of such bank or trust company that additional time is reasonably necessary in which to make such disposal or substitution in order to avoid unnecessary sacrifice, said Commissioner may grant a reasonable extension of time for the compliance herewith.

"(d) If any investment of the savings or participation department of any bank or trust company, which has been set apart as provided in (a) of this clause, shall be in default in payment of either principal or interest, such investment shall promptly be reduced in its book value approximately to the market value of the same.

"(e) The uninvested funds of the savings or participation department of any such bank or trust company shall be kept in a distinct deposit account or accounts or demand certificates of deposit in such manner that the same can be readily identified as clearly belonging to the segregated assets of such savings or participation deposits.

"(f) Every bank or trust company shall keep an accurate account wherein shall appear a complete list of the assets set apart for the exclusive protection of savings or participation deposits held by it, showing the par value, book value, and, periodically, as often as a report is made to the Bank Commissioner shall enter in such account the fair market value of each of the investments of said assets.

"(g) The Bank Commissioner in requiring the substitution of investments under the provisions of (c) of this clause shall not require changes or substitutions aggregating in any one year more than two per centum of the savings or participation deposits of any such trust company at the time of the passage of this Act.

"Of Savings Bank Investments Made Before the Passage of This Act.—*Clause XVII.* (a) The provisions of this chapter shall not render illegal any investments held by any savings bank prior to May 26 1908, nor require the change of any such investment for those herein prescribed for the investment of savings deposits; *Provided, however*, if any savings bank shall hold any such investment or investments which are in default in the payment of interest or dividends thereon, or which, at any time, in the opinion of the Bank Commissioner, are hazardous or unsafe for the investment of savings deposits, the Bank Commissioner may by notice in writing require such savings bank to dispose of such investments; and such savings bank within one year from the receipt of such notice, unless such time shall be extended by the Commissioner, shall dispose of the same; *Provided, further*, said Commissioner shall not require the disposal of investments aggregating in value in any one year more than two per centum of the amount of the deposits of such savings bank.

"Defaulted Bonds.—*Clause XVIII.* If any bonds held by any savings bank shall be in default either in principal or interest, such investment shall promptly be reduced in its book value approximately to the market value of the same."

Clause XIX relates to "loans to officers of savings banks."

Clause XX provides that bonds bought below par shall be entered on the books and returns of the corporation holding the same at the actual cost price thereof, and the discounts in the price thereof may, by an equal annual amortization, be extinguished so as to gradually bring the book value thereof to par at maturity.

Clauses XVI and XVII read:

"Borrowing by Savings Banks."—*Clause XXI.* It shall not be lawful for any savings bank to borrow money for the purpose of investing or loaning the same, but this shall not be so construed as to prevent any savings bank from borrowing for the purpose of meeting a run or unusual withdrawals by its depositors, and in no case shall such borrowing exceed 10% of the deposits of any such savings bank, and the provisions of Clause XXII of this section shall constitute a further exception to such prohibition against borrowing. The note or notes given may be issued either on the general credit of the corporation or on pledge of securities owned, and shall be made only upon authority granted by vote of the board of trustees, or of the investment committee if specifically authorized so to do, and shall contain a reference to the minutes of the meeting at which the authority to borrow was voted. All such notes shall be executed in the name of the corporation by its Treasurer and shall bear the corporate seal of the corporation, and shall be countersigned by the President or Vice-President and two members of the investment committee. No general authority to borrow shall be voted by the trustees or the investment committee, but all borrowings shall be only upon a specific vote relating to the note to be issued. In event of such borrowing, such savings bank shall not make any new investment or loan until the note or notes given are all paid."

Clause XXII. It shall be lawful for any savings bank to borrow money for the purpose of purchasing bonds or other evidence of indebtedness of the United States, issued on or after the first day of April 1918, provided that in no case shall the aggregate amount of the sum so borrowed exceed 10% of the amount of the deposits of any such savings bank. The note or notes given in payment therefor shall be made only upon authority granted by vote of the board of trustees, or of the investment committee if specifically authorized so to do, and shall contain a reference to the minutes of the meeting at which the authority to borrow was voted. All such notes shall be executed in the name of the corporation by its Treasurer, shall bear the corporate seal of the corporation and shall be countersigned by the President or Vice-President and two members of the investment committee. No general authority to borrow shall be voted by the trustees or the investment committee, but all borrowing shall be upon only a specific vote relating to the note to be issued.

JOHNSTON.

This town is in Providence County and was incorporated Mch. 6 1759. On June 1 1898 a portion of this town, representing about five-sevenths of the assessed valuation, was annexed to the City of Providence. The commission appointed to apportion the debt to be assumed by the city of Providence reported that the city's share of the net debt was $255,720.64, leaving $101,677.48 as the town debt remaining. Bonds Numbers 151 to 191 (all inclusive) remain as an obligation of the town of Johnston. The bonds given below are those remaining as an obligation of the town after division. Chap. 882, Laws of 1912, increases the limit of debt which may be incurred by this town (not counting temporary loans) to 5% of the taxable property.

PROVIDENCE. C. E. Cray, Tr.

The city is situated in Providence County, which has no debt. On June 1 1898 a portion of the town of Johnston, representing about five-sevenths of the assessed valuation, was annexed to the city of Providence, and the latter assumed $255,720.64 of the net debt of the old town of Johnston. City was incorporated 1832. None of the city's bonds is tax-exempt.

LEGISLATURE meets biennially in odd years on the Wednesday following the first Monday in January. A constitutional amendment adopted in Oct. 1911 limits the length of each session to the first Wednesday after the first Monday in June. V. 95, p. 1435.

HISTORY OF DEBT.—For early history of the Connecticut State debt see "State and City Supplement" of April 1895, page 36. The 3½% bonds below, it is provided, "shall be exempt from taxation by or under State or municipal authority." The 4s are also exempted from taxation but the Act provides that "this exemption shall not be construed to apply to corporations taxed under the provisions of Section 2331, General Statutes and amendments thereof." Connecticut's debt now is as follows:

Name and Purpose.		—Interest— Rate.	Payable.	—Principal— When Due.	Outstand'g.
State bonds	1909	3½	A-O	*April 1 1934	$2,955,000
do do	1911	4	J-J	July 1 1936	11,336,000
War loan	1865	Ceased		Oct. 1 1885	100
Permanent improvement bonds	1921	5	J-J	July 1 1936	2,000,000

* Subject to call after April 1 1924.

INTEREST on all bonds is payable in Hartford, Conn., but checks are mailed on request.

TOTAL DEBT, &c.	July 1 '26.	July 1 '25.	July 1 '24.	July 1 '23.
Total bonded debt	$16,291,100	$16,291,100	$16,291,100	$16,291,100
Civil list funds	6,500,127	4,863,913	3,164,905	2,209,234
Sinking fund x	12,391,758	12,156,448	11,659,526	11,195,442
Net bonded debt	$2,600,785	(a)	$1,466,669	$2,886,424

a After deduction of the civil list and sinking funds from bonded debt there is found for July 1 1926 a surplus of $2,600,785.

Cash balances, exclusive of sinking funds, on July 1 1926 amounted to $6,500,127.

x The General Assembly of 1915 enacted a law providing for a sinking fund of $500,000 annually, to be taken from the State tax on the towns and used in the purchase of State or municipal bonds. The bonds so purchased are to be held and the proceeds, with the interest on the purchased bonds are to be used for the redemption, at maturity, of all State bonds. This law was repealed in 1919 after four such annual appropriations had been made. Appropriations of $3,000,000 were also made by each of the General Assemblies of 1917 and 1919, making a total of $8,000,000 set aside for the sinking fund. The 1921 legislature again authorized the setting aside of $500,000 annually from State tax on towns to be placed in sinking fund. Appropriations for the years 1922 and 1923, each for $500,000, were made, but at the 1923 session of the Legislature the law was repealed, as the fund, it was found, would easily take care of present debt at maturity of the bonds. On July 1 1926 the fund had $12,390,034 invested.

The General Assembly of 1921 authorized the Treasurer to issue $3,000,000 deficit bonds, to mature $1,000,000 on July 1 1924, 1925 and 1926, and $2,000,000 State institutions building and improvement bonds, to mature July 1 1936. The latter issue has been sold. The Act, however, authorizing the $3,000,000 bonds was repealed by the 1923 Legislature, as the bonds were found unnecessary.

ASSESSED VALUATION.—Assessed value believed to be fair value.

Years.	Tax Valuation.	Years.	Tax Valuation.	Years.	Tax Valuation.
1925	$2,434,056,031	1918	a1,464,602,164	1910	$997,500,664
1924	c2,258,265,601	1917	a1,375,708,933	1909	965,629,807
1923	c2,144,303,460	1916	a1,278,357,574	1905	712,519,166
1922	c2,018,526,711	1915	a1,174,551,713	1900	694,200,162
1921	b1,962,763,631	1914	a1,105,081,413	1895	444,321,927
1920	b1,935,355,236	1912	1,102,990,545	1888	354,557,515
1919	a1,661,776,728	1911	1,041,334,019		

a State tax of $1,750,000 apportioned to towns on basis of taxes collected.
b State tax of $2,000,000 apportioned to towns on basis of taxes collected.
c State tax of $1,500,000 apportioned to towns on basis of taxes collected.

These valuations do not include steam or electric railroads, banks, insurance or investment companies and only a small portion of cash, bonds or notes.

Under Chapter 106, as amended by Chapter 165, Laws of 1901, the State collects the tax on every bank, national banking association, trust, insurance, investment and bridge company whose stock is not exempt from taxation, and remits the amount so collected to the various city and town treasurers. The value of such stocks was previously included in the grand list of each town.

POPULATION OF STATE.—Population has been as follows:

1920	1,380,631	1880	622,700	1840	309,978	1810	261,942
1910	1,114,756	1870	537,454	1830	297,675	1800	251,002
1900	908,420	1860	460,147	1820	275,248	1790	237,946
1890	746,258	1850	370,792				

DEBT LIMITATION.—The constitution of Connecticut contains but a single provision restricting the debt-making power. The provision is Article 25, adopted as an amendment in 1877, and is as follows:

No county, city, town, borough or other municipality shall ever subscribe to the capital stock of any railroad corporation, or become the purchaser of the bonds, or make donation to, or loan its credit, directly or indirectly, in aid of, any such corporation; but nothing herein contained shall affect the validity of any bonds or debts incurred under existing laws, nor be construed to prohibit the General Assembly from authorizing any town or city to protect by additional appropriations of money or credit any railroad debt contracted prior to the adoption of this amendment.

The foregoing is explicit and comprehensive, covering every municipality. There were formerly no general restrictions upon the issue of bonds in the statutes, such restrictions as were provided from time to time being inserted in enabling Acts and in city charters. As to towns, indeed, Section 1931, Chapter 121, of the Revised Statutes of 1902 granted unlimited power to issue bonds. The 1915 Legislature, however, by Chapter 318 passed an Act, last amended by Chapter 111, Laws of 1923, which is as comprehensive as it is simple. It is defined as "An Act limiting the indebtedness which towns and municipal corporations may incur," and provides that: "No municipality or subdivision thereof shall incur any indebtedness through the issue of bonds in excess of five per centum of its grand list, unless otherwise provided by special Act," and that "in computing the net bonded indebtedness subject to the limit prescribed by this Act, bonds issued for the supply of water, gas or electricity shall not be included."

The General Assembly of 1923 passed a law (constituting Chapter 213, Laws of 1923), requiring every municipality on and after Jan. 2 1923 to issue its bonds serially.

Authority to redeem bonds before maturity is granted to any city or borough, or to any town or other municipality which is authorized to levy and collect taxes, through Chapter 200, Laws of 1923.

GRAND LIST DEFINED.—Chapter 111, Laws of 1923, also defines as follows the grand list on which a municipality's maximum indebtedness is computed: That grand list shall be (a) the assessed value of the municipality's taxable real estate and tangible personalty plus (b) the fair market value of the municipality's tax exempt real estate, except that owned by the county, State or the United States, or that owned by Connecticut's

four privately conducted colleges (Yale, Wesleyan, Trinity, and the Connecticut College for Women).

TAX EXEMPTION.—A law was enacted by the 1917 Legislature, exempting from taxation within the State all bonds, notes and other evidences of indebtedness issued after April 1 1917 by the U. S. Government, and by any county, town, city, borough or other municipal taxing district in this State. The full text of the law was given in the "Chronicle" of April 21 1917, page 1617.

Section 1160 of the General Statutes, as amended by Chapter 159, Laws of 1919, and Chapter 109, Laws of 1921, provides that any bonds (original issue or bonds issued to refund same) issued by any town or city in aid of the construction of certain railroads shall be exempt from taxation in the hands of the holders thereof. Bonds of the State are exempt from taxation when issued pursuant to any Act which provides for their exemption. (See said section and chapters given above.)

SAVINGS BANK INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—A complete revision of the law concerning investments by savings banks was made by the 1919 Legislature. The 1921 Legislature amended sub-section 20 of section 3972 extending for a two-year period the provision that railroad bonds which were legal investments for savings banks at the time when the Federal Government took over the operation of the roads shall not become illegal investments by reason of such operation. The 1921 Legislature also passed an act permitting savings banks to invest two per cent of their deposits and surplus in equipment obligations issued by the National Railway Service Corporation. In 1923 the law was amended in two particulars (V. 116, p. 2545). The restriction placed in subdivision 21 upon the amount that a savings bank may invest in railroad equipment trust notes, bonds or certificates was raised from 2% to 6% of deposits and surplus, but the amount that may be placed in such securities of any one road is limited to 2% of deposits and surplus. The other amends subdivision 23 in relation to water companies in Connecticut. It makes eligible for investment, in addition to bonds of such companies supplying communities having a population of not less than 15,000, bonds of any company which has had gross receipts for water service in Connecticut in amount of more than $50,000 yearly for five consecutive years, and whose franchise is an exclusive one in the territory served by it. Chapter 141 of the 1925 laws, as amended in 1927, permits investment in additional public service company bonds.

An Act of 1927 gives savings banks authority to make loans on adjusted service compensation certificates issued to World War veterans. The text of the law as it now stands follows:

Savings banks may invest their deposits and surplus only as provided in chapter 204 of the General Statutes: (1) In the stock or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the principal and interest, including the bonds of the District of Columbia;

(2) Not exceeding ten per centum of their deposits and surplus in bills of exchange drawn by the seller on the purchaser of goods and accepted by such purchaser, provided such bill of exchange is indorsed by any national bank, member of a Federal Reserve bank, State bank or trust company in this State, or in the city of Boston, Massachusetts, the city of Providence, Rhode Island, the city of New York, New York, or the city of Philadelphia, Pennsylvania, and in the acceptance authorized by section 13 of the Federal Reserve Act of the United States or any amendment thereto, of any national bank, or member of a Federal Reserve bank, in this State, in the city of Boston, Massachusetts, the city of Providence, Rhode Island, the city of New York, New York, or the city of Philadelphia, Pennsylvania, or of any State bank or trust company in this State which may be authorized to issue such acceptances, nor shall the amount invested in such acceptances and bills of exchange of any one bank by any savings bank, when added to the sum of any funds deposited by the savings bank in such bank, exceed thirty per centum of the capital stock, surplus and undivided profits of said depositary bank;

(3) In the stock or bonds or interest-bearing obligations of any State of the United States which was admitted to Statehood prior to January 1 1896, which has not, within ten years previous to making such investment by such corporation, defaulted for more than ninety days in the payment of any part of either principal or interest of any debt authorized by the Legislature of such State to be contracted; and in the bonds or interest-bearing obligations of any such State of the United States which have been issued and outstanding for a period of at least ten years previous to making such investment by such corporation, and which have been issued in pursuance of the authority of the Legislature of such State, (a) for the funding or settlement of any previous obligation of such State theretofore in default, or (b) for the refunding of such funding or settlement obligation of such State theretofore in default, and on which said funding or settlement obligation or obligation issued to refund the same there has been no default in the payment of either principal or interest since its issue, provided the authorization of any obligation by the Legislature of any such State hereinbefore referred to shall not have been in violation of any constitutional provision, and provided such bond or interest-bearing obligation shall be the direct obligation of such State and the faith and credit of the State shall be pledged for its payment, principal and interest;

(4) In the obligations of any county, town, city, borough, school district fire district or sewer district, in this State;

(5) In the stock or bonds of any incorporated city situated in one of the States of the United States which was admitted to Statehood prior to January 1 1896, and which was incorporated as a city, under the same or a different name, at least twenty-five years prior to making such investment, and which has not less than twenty thousand inhabitants, as ascertained by the United States or State Census, or any municipal census taken by authority of the State, next preceding such investment, provided the amount of the bonds of such city, including the issue in which such investment is made, and its proportion, based on the valuations of property therein for the assessment for taxation next preceding such investment, of the county and town debt, after deducting the amount of its water debt and the amount of the sinking funds which are available for payment of its bonds other than water bonds, does not exceed seven per centum of the valuation of the taxable property in such city, to be ascertained by the valuation of property therein for the assessment of taxes, next preceding such investment, and provided, the city issuing such bonds, or the State in which it is located, has not defaulted for more than ninety days in the payment of any of its funded indebtedness or interest thereon within fifteen years next preceding the purchase of such bonds by the savings bank. The provisions of this sub-division shall not authorize the investment of funds in any "special assessment" or "improvement" bonds, or other bonds or obligations which are not the direct obligations of the city issuing the same, and for which the faith and credit of the issuing city are not pledged. A city or State shall be considered to be in default within the meaning of this section while any unpaid and overdue obligation, either principal or interest, shall be outstanding;

(6) In the bonds or interest-bearing obligations issued by a railroad corporation organized under the laws of any of the New England States, and owning in fee not less than 300 miles of railroad located in said States, and which has paid in dividends in cash an amount equal to not less than four per centum per annum on its outstanding shares of capital stock in each fiscal year for the 5 years next preceding such investment, or in the bonds or interest-bearing obligations issued by a railroad, terminal, depot, bridge, tunnel or street railway corporation organized under the laws of any of the New England States or the State of New York assumed by a railroad corporation organized under the laws of any of the New England States and owning in fee not less than 300 miles of railroad located in said States and complying with all the provisions of this section; if any such railroad corporation shall be leased to another railroad corporation organized under the laws of any of the New England States and owning in fee not less than 300 miles of railroad located in said States, under a lease which provides for the payment by the lessee as rental an amount sufficient to pay dividends on the capital stock of the lessor amounting in the aggregate in each fiscal year of said lessor corporation during the term of said lease to not less than 4% on its outstanding capital stock, such lessor shall be regarded as having paid its dividends within the meaning of this sub-division, but in case the lessee shall hold any shares of the capital stock of the lessor, such shares shall not be considered as outstanding within the meaning of this sub-division.

(7) In bonds or debentures actually issued by a railroad corporation incorporated in any of the New England States, at least ½ of the railroad of which is located in said State, whether such corporation is in possession of and is operating its own railroad or such railroad is leased to another railroad corporation incorporated in any one of the New England States, provided such bonds or debentures shall be secured either by a mortgage which was at the date thereof, or is at the time of making the investment, a first mortgage on not less than 75% of the railroad of such corporation owned in fee at the date of the mortgage, or by a refunding mortgage which provides for the retirement of all prior lien mortgage bonds of such railroad corporation, or by a mortgage which is a prior lien on some part of the railroad covered by a refunding mortgage which provides for the retirement of all outstanding prior lien bonds, or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds or debentures shall be issued under the authority of one of said States which provides by law that no such railroad corporation which has issued bonds or debentures shall subsequently execute a mortgage upon its road, equipment, franchise or upon any of its real or personal property, without including in and securing by such mortgage all bonds or debentures previously issued and all pre-existing debts and liabilities, and provided such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding capital stock in each fiscal year for the five years next preceding such investments. If any such railroad company shall hold the railroad of another such railroad corporation under a lease which provides for the payment by the lessee as rental of an amount sufficient to pay dividends on the capital stock of the lessor amounting in the aggregate in each fiscal year of said lessor, during the term of said lease, to not less than 4% on all its outstanding capital stock, such lessor shall be regarded as having paid its dividends within the meaning of this subdivision; but in case the lessee shall hold any shares of the capital stock of the lessor such shares shall not be considered as outstanding within the meaning of this sub-division.

(8) No bonds or other interest-bearing obligations shall be made a legal investment by sub-divisions 6 and 7 in case the authorized issue thereof, with all outstanding prior debts of the issuing or assuming corporation, including all evidences of debt that may legally be issued under any of its prior authorizations or under any of its assumed prior authorizations, after deducting therefrom, in case of a refunding mortgage, the bonds reserved under the provisions of said mortgage to retire prior debts at maturity, shall exceed three times the outstanding capital stock of said corporation at the date of such investment.

(9) In the bonds issued by a railroad, terminal, depot, bridge, tunnel or street railway corporation organized under the laws of any of the New England States or the State of New York, the property of which is located wholly or in part in one of said States, or in the bonds issued by a railroad, terminal, depot, bridge, tunnel or street railway corporation, organized under the laws of any of said States, assumed by a railroad, terminal, depot, bridge, tunnel or street railway corporation organized under the laws of said States, provided such bonds shall be secured either by a mortgage which was at the date thereof, or is at the time of making the investment, a first mortgage on not less than 75% of the railroad owned in fee at the date of the mortgage, in the case of a railroad or street railway corporation, or the fixed property, in the case of a terminal, depot, bridge or tunnel corporation, owned by the corporation issuing the bonds, or by refunding mortgage which provides for the retirement of all prior lien bonds of such corporation, or by a mortgage which is a prior lien on some part of the property covered by a refunding mortgage which provides for the retirement of all outstanding prior lien bonds. No bond shall be made a legal investment under this sub-division unless the bonds are guaranteed, principal and interest, by endorsement by, or guaranteed principal and interest by indorsement, which guaranty has been assumed by a railroad corporation owning in fee not less than 300 miles of railroad in the New England States, whose bonds are made a legal investment under sub-division 6. No bonds shall be made a legal investment by this sub-division in case the mortgage securing the bonds shall authorize a total issue of bonds which, added to the total debt described in sub-division 8 of the guaranteeing corporation, including therein the authorized amount of all previously guaranteed bond issues, shall exceed 3 times the outstanding capital stock of said guaranteeing corporation at the time of making said investment.

(10). In the mortgage bonds, as described in sub-division 15, issued or assumed by any railroad corporation incorporated under the laws of the United States, or any State, provided such railroad corporation owned in fee during each of the 5 fiscal years of such railroad corporation next preceding the date of such investment not less than 500 miles of standard-gauge railroad, exclusive of sidings, within the United States, and provided such railroad corporation has complied during each of said fiscal years with the provisions of sub-division 14, or if such corporation owned in fee less than 500 miles of such railroad, the gross earnings of such corporation, as reckoned in sub-division 14, shall have been not less than $10,000,000.

(11) In the mortgage bonds, as described in sub-division 15, issued or assumed by any railroad corporation incorporated under the laws of the United States, or any State thereof, provided during each of the 5 fiscal years of such railroad corporation next preceding the date of such investment its railroad subjected to the lien of the mortgage securing its bonds has been operated by a corporation described in, and which has complied with all the provisions of, sub-divisions 10 and 14. No bonds shall be made a legal investment by this sub-division unless the bonds are guaranteed principal and interest by endorsement by, or guaranteed principal and interest by endorsement which guaranty has been assumed by, the corporation operating the railroad covered by the mortgage securing the bonds and which has complied with all the provisions of sub-divisions 10 and 14.

(12) In the mortgage bonds as described in this Act issued or assumed by any terminal, depot, bridge or tunnel company incorporated under the laws of the United States, or any State, provided the property of such terminal, depot, bridge or tunnel company is used by one or more railroad corporations described in, and which have complied with all the provisions of, sub-division 10 and 14. No bond shall be made a legal investment by this sub-division unless the bond is guaranteed principal and interest by endorsement by, or guaranteed principal and interest by endorsement which guaranty has been assumed by, one or more railroad corporations described in, and which has complied with all the provisions of, sub-divisions 10 and 14

(13). In the mortgage bonds as described in sub-division 15 issued or assumed by any railroad corporation incorporated under the laws of the United States, or any State, provided, during each of the 5 fiscal years of such railroad corporation next preceding the date of such investment, such railroad corporation owned in fee not less than 100 miles of standard-gauge railroad, exclusive of sidings, within the United States, and provided such railroad corporation has complied during each of said fiscal years with the provisions of sub-division 14. No bonds shall be made a legal investment by this sub-division unless the bonds are guaranteed principal and interest by endorsement by, or guaranteed principal and interest by endorsement, which guaranty has been assumed by, a corporation described in, and which has complied with all the provisions of, sub-divisions 10 and 14, nor unless it complies with the provisions of sub-division 16.

(14) Any railroad corporation described in sub-divisions 10 and 13 shall comply with the provisions of this sub-division during each of the 5 fiscal years of such railroad corporation next preceding the date of such investment, before any of its mortgage bonds as described in sub-division 15 shall be made a legal investment. Such railroad corporation shall have paid the matured principal and interest of all indebtedness and shall have paid in dividends in cash to its stockholders an amount equal to at least 4% upon all its outstanding capital stock; the gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the sale of coal from mines owned or controlled by it, shall not have been less in amount than 5 times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals of all leased lines, and the interest on all outstanding indebtedness of railroads controlled and operated which are not owned by said corporation, after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporations not operated by said corporation, which have been deposited with a trustee as the only security for the payment of bonds or notes issued by said corporation, but not in excess of the interest on said last-named bonds or notes.

(15). Whenever the term "mortgage bonds" is used in sub-divisions 10 to 20, inclusive, it shall mean either (*a*) That the mortgage securing the bonds was at the date thereof, or is at the date of such investment, a first mortgage on not less than 75% of the railroad, in the case of a railroad corporation, or the fixed property, in the case of a terminal, depot, bridge or tunnel company, owned in fee at the date of the mortgage by the corporation which executed the mortgage and issued the bonds; that 75% of the railroad subject to the lien of said mortgage is connected; that the date of said mortgage is at least 5 years prior to the date of such investment, unless the corporation issuing, assuming or guaranteeing the bond has complied with sub-division 14 for each of the 10 fiscal years of such corporation next preceding the date of such investment; but a mortgage given in substitution for and not greater in amount than such mortgage, and covering the same railroad or property, shall be considered to be in accordance with this requirement; (*b*) That if the mortgage securing the bonds was at the date thereof, or is at the date of such investment, not a first mortgage on not less than 75% of the railroad owned in fee at the date of the mortgage, it is a first mortgage on at least 75% of the railroad subject to the lien of said mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of said mortgage as part security therefor, representing or covering railroad mileage not owned in fee, the bonds secured by said mortgage shall not become legal investments unless said corporation owns in fee at least 75% of the total mileage which is subject to the lien of such mortgage, including the

mileage which is represented or covered by said stocks or bonds; that 75% of the railroad subject to the lien of said mortgage is connected; that the date of said mortgage is at least 5 years prior to the date of such investment, unless the corporation issuing, assuming or guaranteeing the bond has complied with sub-division 14 for each of the 10 fiscal years of such corporation next preceding the date of such investment; but a mortgage given in substitution for and not greater in amount than such mortgage, covering the same railroad or property, shall be considered to be in accordance with this requirement. (c) That the mortgage securing the bonds was at the date thereof, or is at the date of such investment, a first mortgage or a mortgage or trust indenture which is in effect a first mortgage upon all the railroads, subject to the lien of said mortgage or trust indenture by virtue of the irrevocable pledge with the trustee thereof of an entire issue of issues of bonds which are a first lien, upon the railroad of a railroad corporation which is owned and operated, controlled and operated, or leased and operated, by the corporation issuing or assuming said bonds; that 75% of the railroad subject to the lien of said mortgage is connected; that the date of said mortgage is at least 5 years prior to the date of such investment, unless the corporation issuing, assuming or guaranteeing the bonds has complied with subdivision 14 for each of the 10 fiscal years of such corporation next preceding the date of such investment; but a mortgage given in substitution for and not greater in amount than such mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement. (d) That the mortgage securing the bonds was at the date thereof, or is at the date of such investment, a refunding mortgage which provides for the retirement of all prior lien mortgage bonds of said corporation outstanding at the time of said investment, and covering at least 75% of the railroad owned in fee by said company at the date of said mortgage. No mortgage is to be regarded as a refunding mortgage under the provisions of this subdivision unless the bonds which it secures mature at a later date than any bond which it is given to refund; but, in case bonds are issued to mature at an earlier date than any bond which it is given to refund, the mortgage contains the provisions that bonds issued to mature at an earlier date may be retired by a like amount of bonds reissued under said mortgage. (e) That the mortgage securing the bonds is a prior lien to a refunding mortgage described above, on some part of the railroad or railroad property covered by said refunding mortgage, provided the bonds issued under such mortgage are to be refunded by said refunding mortgage, and the property covered by said prior lien mortgage is operated by, and its operations included in, those of the railroad corporation issuing said refunding mortgage.

(16). No bond shall be made a legal investment by sub-division 10 in case the mortgage securing the same shall authorize a total issue of bonds, which, with all outstanding prior debts of the issuing or assuming corporation, including all bonds not issued that may legally be issued under any of its prior debts, or of its assumed prior debts, after deducting therefrom in case of a refunding mortgage the bonds reserved under the provisions of said mortgage, to retire prior debts at maturity, shall exceed 3 times the outstanding capital stock of said corporation at the date of such investment; no bond shall be made a legal investment by sub-divisions 11, 12 and 13 in case the mortgage securing the same shall authorize a total issue of bonds, which, added to the total debt, as defined in this sub-division, of the guaranteeing corporation, including therein the authorized amount of all previously guaranteed bond issues, shall exceed 3 times the capital stock of said guaranteeing corporation outstanding at the time of making said investment; in case of a mortgage executed prior to May 28 1913, under which the total amount of bonds which may be issued is not specifically stated, the amount of bonds outstanding thereunder at the date of such investment shall be considered as the total authorized issue.

(17) Bonds which have been or shall become legal investments under any of the provisions of sub-divisions 10 to 20, incl., shall not be rendered illegal, although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding 2 successive fiscal years to comply with the requirements of sub-divisions 10 and 14; but no further investment in the bonds issued, assumed or guaranteed by said corporation shall be made after the first fiscal year of such failure; but if, after the expiration of said period, said corporation complies for the following fiscal year with all the requirements of sub-divisions 10 and 14, it shall be regarded as having complied therewith during said period, and thereupon said bonds shall be legal investments, but in case of any subsequent failure to comply with subdivisions 10 and 14 the bonds of said corporation shall not be purchased until said corporation shall have complied each year for 5 successive years with said sub-divisions 10 and 14.

(18) Bonds which have been or shall become legal investments under any of the provisions of sub-divisions 10 to 20, incl., shall not be rendered illegal because the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and the corporation which issued or assumed said bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for, or to acquire the stock of, the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to 4% per annum upon the capital stock outstanding at the times of such consolidation or purchase, of said corporation which issued or assumed said bonds.

(19). If a railroad corporation which has complied with all the requirements of sub-divisions 10 and 14 except that the period of compliance is less than 5 years, shall be, or shall have been, consolidated or merged with, or its railroad purchased and all the debts of such corporation assumed by, another railroad corporation incorporated under the laws of the United States, or any State, the corporation so succeeding shall be considered as having complied with all the provisions of said sections during those successive years next preceding the date of such consolidation, merger or purchase, in which said consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would, taken together, have so complied, provided in the case of a railroad corporation which has complied with all the requirements of said subdivisions except that the period of compliance is less than 5 years, said succeeding corporation shall continue so to comply for a further period which shall make such compliance equivalent to at least 5 successive years.

(20). If, by means of consolidation, merger or purchase, a railroad corporation shall own and possess the properties and franchises which, prior thereto, belonged to similar corporations, and, during the years next preceding such consolidation, merger or purchase, one or more of said corporations, have regularly paid in cash to stockholders dividends in amounts equaling or exceeding 4% per annum upon the entire capital stock of the successor corporation outstanding at the time of the investment, such successor corporation shall be considered as having paid such dividends during the same period of years; the time during which any railroad is operated by the Government of the United States and the earnings and dividends made and paid during said time shall not be taken into consideration in determining the compliance of the corporation owning said railroad with any of the provisions of this section, nor shall any default in the earning or payment of dividends or any failure to make the gross earnings required by this section, during said period of Government control and for two years thereafter, render any bonds illegal for investment which were legal at the beginning of said Government operation.

(21). Savings banks may invest not exceeding 6% of their deposits and surplus in equipment trust notes, bonds or certificates issued by, or which are guaranteed by endorsement both as to principal and interest by, or which are secured by lease of equipment to, a railroad corporation which in case of a railroad corporation incorporated under the laws of any of the New England States, has complied with sub-division 6, or which, in the case of a railroad corporation incorporated under the laws of any other State, or of the United States, has complied with all the provisions of sub-divisions 10 and 14, provided said notes, bonds or certificates are secured by a first lien on, or by a lease and conditional sale of, new standard railroad equipment free from other encumbrances, for the purchase of which said notes, bonds or certificates were issued at not exceeding 90% of the purchase price thereof, and provided the instrument under which such notes, bonds or certificates are issued, or the lease of such equipment to the railroad corporation, provides for the proper maintenance of the equipment covered thereby and for the payment of the entire issue of such notes, bonds or certificates in not exceeding 15 annual or 30 semi-annual installments, without the release of any part of the lien or interest in any of the equipment securing such notes, bonds or certificates until the entire issue of such series of notes, bonds or certificates shall have been paid or redeemed, provided in no case shall the investment in the equipment trust notes, bonds or certificates of any one railroad corporation be in excess of 2% of such deposits and surplus. No equipment trust notes, bonds or certificates shall be made a legal investment by this section in case the series authorizes an amount which, added to the total debt as defined in subdivision 8, in the case of a railroad corporation organized under the laws of any of the New England States, or subdivision 16 in the case of a railroad corporation organized under the laws of any other State or of the United States, which issued or guaranteed or is the lessee of the equipment securing such equipment trust notes, bonds or certificates, including therein the outstanding amounts of all previously issued series of such equipment trust notes, bonds or certificates, shall exceed 3 times the capital stock of such railroad corporation outstanding at the time of making said investment.

(22). Savings banks may invest not exceeding 2% of their deposits and surplus in bonds issued by any street railway corporation incorporated in this State the railway of which is located wholly or in part therein, provided such bonds are secured by a mortgage which was at the date of the mortgage or is at the date of the investment a first mortgage on not less than 75% of the railway of such corporation owned in fee at the date of the mortgage, and provided the gross earnings of said corporation each fiscal year for the 5 years next preceding the date of such investment were not less than $100,000, and that said corporation in each of said years earned and paid in dividends in cash an amount equal to at least 4% per annum upon the outstanding capital stock, and provided, at the date of any such dividend, the outstanding capital stock is equal to at least ½ of the debt of such corporation.

(23). Savings banks may invest not exceeding 2% of their deposits and surplus in mortgage bonds and other interest-bearing obligations of any water company incorporated in this State supplying water for domestic use to communities in this State having a population of not less than 15,000, or of any such company whose gross receipts for water service in this State shall have been more than $50,000 per annum for five consecutive years, and whose franchise is an exclusive one in the territory served by it and unlimited in time, provided the amount of all the outstanding debts of such company does not exceed its capital stock, and provided such water company has earned each year and paid in cash from its officially reported net earnings, as shown by its annual report or other official statement under oath, to municipal, State or United States authorities, dividends of not less than 4% per annum on its entire outstanding capital stock, for a period of 4 years next preceding the making of the investment.

(24). Savings banks may invest not exceeding 2% of their deposits and surplus in bonds of any telephone company incorporated in this State, whose property is located chiefly in this State, which are secured by a first mortgage upon at least 75% of the property of such company, including its franchises, rights and privileges, and limiting the amount of bonds issuable thereunder to 75% of the valuation of the property mortgaged, excluding any valuation of said franchises, rights and privileges, and providing the gross income of such telephone company shall have been not less than $2,000,000 per annum during each of the 5 fiscal years of such telephone company next preceding the date of such investment.

(25). Savings banks may invest not exceeding 2% of their deposits and surplus in bonds of any telephone company incorporated in any of the New England States, or in the State of New York, and secured by a first mortgage upon at least 75% of the property of such telephone company, or by the deposit with a trust company incorporated under the laws of one of the New England States or of the State of New York of bonds or shares of stock, or both, of other telephone corporations under an indenture of trust which limits the amount of bonds so secured to 75% of the value of the securities deposited as stated and determined in said indenture, and provided the gross income of such telephone company shall have been not less than $25,000,000 per annum during each of the 5 fiscal years of such telephone company next preceding the date of such investment. No bond of a telephone company shall be made a legal investment under sub-divisions 24 and 25 unless during each of the fiscal years of such telephone company next preceding the date of such investment said telephone company shall have paid the matured principal and interest of all its indebtedness, and shall have paid, during each of said years, in cash dividends an amount equal to not less than 6% per annum of all its outstanding issues of capital stock, and the dividends paid on the capital stock of such telephone company shall not have been less than the total amount necessary to pay the interest upon its entire outstanding indebtedness.

(26) Savings banks may invest not exceeding 2% of their deposits and surplus in mortgage bonds of any gas or electric light company, incorporated under the laws of this State, supplying gas or electricity for lighting to any community in this State whose franchise is an exclusive one and unlimited in time, provided the amount of the outstanding debts of such company does not exceed its capital stock, and provided such gas or electric company has earned each year and paid in cash from its officially reported net earnings as shown by its annual report or other sworn official statement to the municipal, State or United States authorities, dividends of not less than 5% per annum on its entire outstanding capital stock for a period of four years next preceding the making of such investment. The term "indebtedness," as used in this Act, shall be construed to mean and include all bonds, notes and other obligations or accounts payable at a time or times more than a year after their date.

(27) Savings banks may invest in the capital stock of any bank or trust company located in this State, or in the City of New York in the State of New York, or in the City of Boston in the State of Massachusetts, but no savings bank shall hold by way of investment and as security for loans more than 20% of its deposits in the stocks of such banks or trust companies, at par value, nor more than 3% of its deposits, nor more than $100,000 of par value in, nor more than ¼ of the capital stock of, any such bank or trust company. The provisions of this sub-division shall not render illegal any such investments owned by any bank or trust company on Aug. 1 1913.

(28) Savings banks may invest not exceeding 20% of their deposits and surplus in notes secured by pledge of stock or bonds as collateral, provided the corporation issuing such stock or bonds shall have paid thereon dividends or interest at the rate of not less than 4% per annum during the two years next preceding the time when such loan is made; or by the pledge of any stocks or bonds or other obligations which under the provisions of this section may be purchased by savings banks; but the market value of any securities given to secure any collateral loan shall be at least 20% in excess of the amount of the loan and not more than 5% of the aggregate deposit in any savings bank shall be loaned on the stock, bonds or other obligations of one corporation, or by the pledge of deposit accounts and books in savings banks in this State to an amount not exceeding the balance due from said savings banks on such deposit account.

(29) The provisions of this Act shall not render illegal the investment in, nor the investment hereafter in, any bonds or interest-bearing obligations issued or assumed by a railroad corporation, which were a legal investment on May 28 1913, so long as such bonds or interest-bearing obligations continue to comply with the laws in force prior to said date; but no such bond or interest-bearing obligation that fails, subsequent to said date, to comply with said laws, shall again be a legal investment unless such bonds or int.-bearing obligations comply with the provisions of this section.

(30) If any street railway company, the bonds of which were a legal investment prior to May 28 1913 shall fail, in any fiscal year subsequent to said date, to pay dividends equal to 4% upon its outstanding capital stock, the bonds of such railway company shall cease to be a legal investment until such company has complied with all the provisions of sub-division 22 of this section.

(31) In the sub-divisions of this section which relate to railroad bonds the word "debt" shall be construed to mean obligations issued or assumed evidenced by a series of bonds or other interest-bearing instruments which mature at a time or times exceeding 3 years after their date, and the term "railroad corporation" shall be construed to mean a corporation which owns or is in possession of and operating a railroad or railway of the class usually operated by steam power. Street railway corporations are not railroad corporations within the meaning of this section.

(32) Savings banks may invest not exceeding 2% of their deposits and surplus in notes secured by a trust indenture of any stocks or bonds or other obligations which under provisions of this section may be purchased by savings banks; the market value of any securities given shall be at least 20% in excess of the amount of the loan, provided the bonds under such trust indenture shall be legal investment for the savings banks of this State.

(33) Savings banks may invest not exceeding 10% of their deposits and surplus in the obligations of the Government of the Kingdom of Great Britain and Ireland, and the Government of the French Republic and the Government of the Dominion of Canada or any of its provinces, provided such obligations have a fixed and definite date of maturity and shall be the direct obligations of such Government or province and that the full faith and credit of such Government or province shall be pledged for its payment, principal and interest.

(34) [Added by Act of 1923.] "Savings banks may invest not exceeding two per centum of their deposits and surplus in prior lien equipment obligations or equipment trust certificates issued by the National Railway Service Corporation in pursuance of any equipment trusts financed in whole or in part through a loan or loans made or approved by the Inter-State Commerce Commission, provided such securities are issued for not exceeding in par value sixty per centum of the cost of standard railway equipment, and that such obligations shall mature in approximately equal annual or semi-annual installments over a period of not exceeding fifteen years."

Chapter 141 of the Laws of 1925, as amended in 1927, referred to above, reads:

Section 1. Savings banks may invest in bonds of any corporation engaged in the generation and sale of electricity or in the generation and sale of electricity and in addition thereto some other form of public service enterprise, incorporated under the laws of the United States or any State thereof and doing the major portion of its business in the United States, and operating under the supervision of a public service or other commission requiring a uniform system of accounting, subject (A) to the following restrictions as to the corporation issuing or assuming the bonds: (a) The gross income of such corporation shall be not less than one million dollars for the year immediately preceding the time of making such investment and shall be derived (1) at least seventy-five per centum from the sale of electricity and (2) not to exceed ten per centum from the operation of srteet railway properties; (b) such corporation shall have either a franchise or franchises under which at least seventy-five per centum of its gross income is earned, extending at least ten years beyond the maturity of any such bond, or an indeterminate permit from, or agreement with, a public service or other commission; (c) such corporation shall own and operate steam or hydro-electric power plants capable of generating at least sixty per centum of its actual electric sales for the year immediately preceding the time of making the investment; (d) the capital stock of such corporation shall be equal to at least two-thirds of the total funded debt of such corporation, provided, in the case of a corporation having shares without par value, the amount of capital which such shares represent shall be the stated capital as shown by the books of the corporation; (e) the combined surplus and reserves for depreciation and for contingencies of such corporation shall be not less than the following percentages of the actual value of the fixed property of such corporation as shown by its books: (1) Ten per centum in the case of a corporation generating more than fifty per centum of its electrical output from water power, or (2) fifteen per centum in the case of a corporation generating more than fifty per centum of its electrical output from steam (f) for five years immediately preceding the time of making such investment, the officially reported net earnings of such corporation, as shown by its annual reports or other sworn statements to the municipal, State or United States authorities, available for interest charges, after deducting charges to cover depreciation, taxes and rentals, shall have been equal to at least twice the interest charges for the period on such corporation's total outstanding funded debt, and for the year immediately preceding the time of making the investment such net earnings less such deductions shall have been equal to at least twice the interest charges on the corporation's total outstanding funded debt; (g) the term "funded debt" as used in this Act shall be construed to mean all interest-bearing debt maturing more than one year from date of issue; and (B) to the restrictions as to such bonds that any such bond shall be one of an issue of not less than one million dollars, and such issue, plus the total amount of any underlying bonds, shall be outstanding in an amount not to exceed sixty per centum of the value of the actual fixed property securing such bonds, as shown by the corporation's books, exclusive of work in progress, and any such bond shall be either (a) a closed underlying mortgage bond secured by property owned and operated by the corporation issuing or assuming the bond, which property is of currently usable value to the corporation and is so used a major portion of the time, provided such bond is to be refunded by a junior mortgage providing for its retirement, and that such underlying mortgage may remain open solely for the issue of additional bonds which are to be pledged under such junior mortgage; or (b) by a first mortgage bond constituting the only mortgage debt of such corporation, and, in case such mortgage is not closed, its terms shall prevent the issuance of additional bonds for extensions, improvements and property acquisitions unless such additional bonds are to be issued either (1) for an amount not to exceed seventy-five per centum of the actual cost of such extensions, improvements and property acquisitions, when net earnings available for interest charges, for twelve months out of the fifteen months preceding application to the trustee under such mortgage for authentication of such additional bonds, have been equal to at least one and three-quarters times the interest charges for one year on the total amount of bonds outstanding under such mortgage and the proposed additional bonds, or (2) for an amount not to exceed eighty per centum of the actual cost of such extensions, improvements and property acquisitions, when net earnings available for interest charges, for twelve months out of the fifteen months preceding application to the trustee under such mortgage for authentication of such additional bonds, have been equal to at least twice the interest charges for one year on the total amount of bonds outstanding under such mortgage and the proposed additional bonds; or (c) a refunding mortgage bond providing for the retirement of all prior lien or divisional mortgage bonds of such corporation outstanding at the time of making the investment, which refunding mortgage bond is secured by a lien on property owned and operated by the corporation issuing or assuming the bonds, provided any mortgage prior in lien to such refunding mortgage shall be closed unless such prior mortgage shall remain open solely for the issue of additional bonds which are to be pledged under such refunding mortgage, and provided, if there shall exist a mortgage junior in lien to such refunding mortgage bond, such refunding mortgage bond is to be refunded by such junior mortgage, and provided, in case such refunding mortgage is not closed, its terms shall prevent the issuance of additional bonds for extensions, improvements and property acquisitions unless such additional bonds are to be issued either (1) for an amount not to exceed seventy-five per centum of the actual cost of such extensions, improvements and property acquisitions, when net earnings available for interest charges, for twelve months out of the fifteen months preceding application to the trustee under such mortgage for authentication of such additional bonds, have been equal to at least one and three-quarters times the interest charges for one year on the total amount of bonds outstanding under such mortgage, those secured by equal or prior liens, and the proposed additional bonds, or (2) for an amount not to exceed eighty per centum of the actual cost of such extensions, improvements and property acquisitions, when net earnings available for interest charges, for twelve months out of the fifteen months preceding application to the trustee under such mortgage for authentication of such additional bonds, have been equal to at least twice the interest charges for one year on the total amount of bonds outstanding under such mortgage, those secured by equal or prior liens and the proposed additional bonds.

Sec. 2. Savings banks may also invest in the bonds of corporations engaged in furnishing telephone communication, incorporated under the laws of the United States or any State thereof and doing the major part of their business in the United States, subject (A) to the following restrictions as to the corporation issuing or assuming the bonds; (a) The gross income of such corporation, for three years prior to the time of making the investment, shall have been not less than fifteen million dollars annually; (b) the total outstanding funded debt of such corporation at the time of making the investment shall not exceed the outstanding capital stock of such corporation; (c) for five years immediately preceding the time of making the investment, the officially reported net earnings of such corporation available for interest charges, after having made adequate provision for maintenance and for depreciation of the physical assets of the corporation, shall have been equal to at least twice the interest charges for the period on the corporation's total outstanding debt, and for the year immediately preceding the time of making the investment, such net earnings shall have been equal to at least twice the interest charges on the corporation's total outstanding debt; (d) the term "funded debt" as used in this Act shall be construed to mean all interest-bearing debt maturing more than one year from date of issue; and (B) to the restrictions as to such bonds that any such bond shall be one of an issue of not less than five million dollars, that not to exceed thirty-three and one-third per centum of the specific security for such bond may consist of stock or unsecured obligations of affiliated or other telephone companies or both, and that such bond, plus the total amount of any underlying bonds, shall be outstanding in an amount not to exceed sixty per centum of the value of the actual fixed property of such corporation securing such bonds, and that any such bond shall be either (a) a first mortgage bond secured by property owned and operated by the corporation issuing or assuming the bonds, provided, if there shall exist a mortgage junior in lien to such first mortgage bond, such first mortgage bond is to be refunded by such junior mortgage, or (b) a bond secured by a refunding mortgage providing for the retirement of all prior lien mortgage bonds of such corporation outstanding at the time of making the investment, which refunding mortgage bond is secured by a lien on at least fifty per centum of the property owned and operated by the corporation issuing or assuming the bond, provided, if there shall exist a mortgage junior in lien to such refunding mortgage bond, such refunding mortgage bond is to be retired by such junior mortgage, and provided any mortgage prior in lien to such refunding mortgage bond shall be closed.

Sec. 3. The provisions of Sections 3976, 3977 and 3978 of the General Statutes shall apply to Section one hereof.

Section 4. No savings bank may invest more than 15% of its deposits and surplus in the bonds which may become legal under the provisions of Section one of this Act, or more than 2% of such deposits and surplus in the bonds of any one such corporation engaged in the generation and sale of electricity. No savings bank shall invest more than 5% of its deposits and surplus in the bonds of telephone corporations which may become legal under the provisions of Section two of this Act or more than 2% of such deposits and surplus in the bonds of any one such telephone corporation.

Sec. 5. This Act shall not affect the provisions of sub-divisions twenty-two, twenty-three, twenty-four, twenty-five and twenty-six of Section 3972 of the General Statutes, and savings banks may continue to invest in bonds authorized under said sub-divisions.

The text of the 1927 Act referred to above, which allows investment in loans on adjusted service compensation certificates, follows:

Section 1. Savings banks may accept as security adjusted service certificates issued under the provisions of an Act of Congress passed May 19 1924, entitled "An Act to provide adjusted compensation for veterans of the World War and for other purposes," and any amendments thereof.

REAL ESTATE MORTGAGE INVESTMENTS.—Section 3973 of the General Statutes provides that "Savings banks may invest in loans secured by first mortgage on unencumbered real estate, not to exceed 50% of the value of such real estate, located in this State, or in the County of Providence, Washington or Kent in the State of Rhode Island, or in the County of Worcester, Hampden or Berkshire in the Commonwealth of Massachusetts, or in the County of Dutchess, Putnam or Westchester, or on Fisher's Island, in the State of New York." An Act of 1927 restricts this class of investment by the following provision: "No savings bank shall invest in loans secured by first mortgages on unencumbered real estate as provided in Section 3973 of the General Statutes, to an amount in excess of 75% of its deposits and surplus. Any savings bank holding loans upon real estate in excess of 75% of its deposits and surplus at the time of the passage of this Act, shall reduce the aggregate amount of such loans to the limit prescribed herein, on or before July 1 1932."

ONE AND TWO-NAME PAPER.—Section 3975 of the General Statutes, as amended in 1927, restricting loans on one and two-name paper reads: "Savings banks may invest not exceeding 5% of their deposits and surplus in notes, each of which shall be the joint and several obligation of two or more parties, all residents of this State, but no savings bank shall loan on personal security to one person more than 3% of its deposits at the time of making such loan."

The Bank Commissioner at regular intervals issues a list of securities which meet with the requirements of the savings bank investment law. The most recent one published by us appeared in V. 123, p. 1003.

TRUST FUNDS—HOW LOANED OR INVESTED.—Investment of trust funds is regulated by Section 4903 of the General Statutes, as amended by Chapter 171 of Laws of 1925. Sec. 4903 follows:

Trust funds, unless otherwise provided in the instrument creating the trust, may be loaned on the security of mortgages on unincumbered real estate in this State, double in value the amount loaned, or may be invested in such mortgages or in the bonds or loans of this State, or of any town, city or borough of this State, or in any bonds, stocks or other securities in which the savings banks in this State may be authorized by law to invest, or may be deposited in savings banks incorporated by this State, or in the capital stock of any insurance company chartered by the State not less than ten years prior to such investment, with authority to issue insurances upon lives, and which shall have regularly paid in dividends in cash an amount not less than six per centum on its outstanding shares of capital stock in each fiscal year for the five years next preceding such investment.

CITIES, COUNTIES AND TOWNS IN CONNECTICUT

The relation which the towns, cities and boroughts of this State bear to one another is peculiar and requires a word of explanation. The State is divided into eight counties, and these counties are made up of towns, numbering in the aggregate 169. The towns are the civil unit, and on the assessed valuation (which is called the "Grand List" of each town) is levied the tax for State purposes as well as the tax for town expenditures. Within the town is often situated a city or a borough, or both, all of which may at the same time have bonds outstanding. Many towns and cities, however, whose limits were about identical, have been consolidated (including Shelton, Bridgeport, New Britain, New London and New Haven), and the outstanding bonds of both town and city are reported together without distinction.

The borough stands in about the same relation to the town as does the city. The grand list as determined for the town is used by both the city and the borough in levying taxes, the city, for instance, putting a tax of its own on its share of the total grand list of the town. This tax is additional to the town tax. In eight municipalities the schools are in the charge of school districts (40 in all), which also are empowered to issue bonds and to levy a tax, so that to cover the total tax paid by a city, it is necessary to take into account the State, town, city and school district levies. In the statements which follow we give under one heading the town and city, wherever they bear the same name, for, though distinct corporations, their debts are to greater or less extent the debts of a single community.

AGGREGATE MUNICIPAL INDEBTEDNESS.

The total indebtedness of all the towns, cities, boroughs and counties in the State was in 1924 $107,162,098. In the following table we show the funded indebtedness, the floating debt and the total indebtedness of all the civil divisions of the State at quadrennial periods:

	Funded debt.	*Floating debt.*	* *Total debt.*
1924	$94,562,618.00	$12,599,80.00	$107,162,098.00
1920	69,511,940 00	9,873,960 75	79,385,900 75
1916	51,268,300 00	9,122,333 00	60,390,633 00
1912	37,058,361 70	6,481,868 99	43,540,230 69
1908	30,598,153 47	7,865,551 44	38,463,704 91
1904	26,906,859 05	5,269,101 56	32,520,460 61
1900	22,142,993 58	5,005,323 09	27,624,827 42
1896	19,749,667 08	4,384,980 56	24,581,066 55
1892	16,023,832 46	4,473,571 36	20,627,058 48
1888	15,569,818 67	3,759,642 86	19,392,804 89

* In 1904 and at former periods the county debt ($344,500 in 1904) was not divided into funded and floating debt, and therefore is included only in total debt column.

Against the funded debt for the quadrennial period ending in 1920 there was a sinking fund of $5,955,130.03. For the 1924 period there was a sinking fund of $7,150,834.

ANSONIA.

Ansonia is in New Haven County. Inc. April 1889. Legislature in 1893 authorized consolidation of borough, town and fire district to form present city.

NEW HAVEN.
This city is the county seat of New Haven County. Incorporated 1784. By an Act of the General Assembly, the city, town and school district of New Haven were consolidated Dec. 7 1897 under one government, and the city assumed the assets and liabilities of the two other governments. On July 16 1921 Westville School Dist. was consolidated with the city of New Haven. At the time of consolidation the district had $638,000 bonds outstanding, which are given below.

LEGISLATURE meets annually the first Wednesday in January, and length of sessions is not limited.

HISTORY OF DEBT.—The early historical details of New York State's debt from 1817 to 1894 will be found in the "State and City Supplement" of April 1893, page 41.

During a period of eleven years ending in 1893 the State debt was paid at the average of $1,000,000 per year, and practically wiped out.

In Nov. 1895 the voters approved a bond issue of $9,000,000, for the purpose of enlarging and improving the Erie, Oswego and Champlain canals. These bonds were all issued and have since been redeemed. In 1903 a further issue of $101,000,000 canal bonds was authorized, and these bonds have all been sold. [A bill, signed by the Governor April 17 1912, authorized the State Comptroller to issue canal improvement bonds made payable in foreign currency. V. 94, p. 1131.] At the 1905 election a constitutional amendment was adopted giving authority to create an aggregate debt of $50,000,000 for highway purposes, and all of these bonds have been sold. The question of issuing an additional $50,000,000 bonds for highways received a favorable vote in Nov. 1912, the last of these bonds being sold in June 1921. In Nov. 1909 the voters approved the issuance of $7,000,000 bonds for the Cayuga and Seneca Canals, all of which have been sold. In 1910 the voters approved the issuance of $2,500,000 bonds, all of which have been sold, for the acquisition of the Palisades Interstate Park. At the election Nov. 7 1916 a favorable vote was polled on the referendum proposition providing for the issuance of $10,000,000 additional bonds for this purpose and for State Forest Preserve, and the last of these bonds were sold in June 1921. Under the provisions of Chap. 394, Laws of 1911, and Chapter 252, Laws of 1914, Chapter 335, Laws of 1915, $1,284,000 bonds were authorized for a State Reservation at Saratoga Springs. These bonds were all issued and have now been redeemed, the last of the bonds maturing March 1 1925. A proposition to issue $19,800,000 barge canal terminal bonds was adopted Nov. 7 1911, and the last of these bonds were sold in June 1921. On Nov. 2 1915 the voters approved the issuance of $27,000,000 bonds for the completion of the barge canal; all of these have been disposed of. On Nov. 2 1920 the voters approved the proposition to issue $45,000,000 "Soldiers' Bonus" bonds. $10,000,000 of these bonds were offered to the public on June 9 1921, but owing to the raising of a question of their legality, were not sold. On June 20 1921 the constitutionality of the Soldiers' Bonus Law was unanimously sustained by the Appellate Division of the Supreme Court, Third Department (V. 112, p. 2785). Later, on Aug. 31 1921, by a vote of 5 to 2, the Court of Appeals reversed the above court and held that the Soldiers' Bonus Law was unconstitutional on the ground that it would lend the credit of the State for the benefit of individuals (V. 113, p. 1073). A new Soldier Bonus measure in the form of a constitutional amendment (which is Section 13 of Article 7) providing for a $45,000,000 bond issue, was approved by the voters in Nov. 1923 (see V. 116, p. 965, and V. 117, p. 2457). The 1924 Legislature passed an enabling Act carrying the amendment into effect (for text see V. 118, p. 930), and on April 8 1924 the bonds were sold (V. 118, p. 1821). Under authority of Section 4 of Article 7 of the Constitution $50,000,000 State institution buildings bonds were also submitted to the voters at the fall election in 1923 and carried (see V. 116, p. 2418, and V. 117, p. 2457). So far $12,500,000 of these bonds have been sold.

At the November 1924 election the voters had submitted to them, under authority of an Act passed at the 1924 session of the Legislature, the question of issuing of bonds, not exceeding $15,000,000, for the development, improvement and extension of State parks. The proposition was approved (V. 119, p. 2671). Legislation providing for the expenditure of all this issue was passed at the 1926 session of the Legislature. $8,475,000 of these bonds were floated in 1926.

At the fall election in 1925 the voters adopted two amendments to Article 7 of the Constitution (V. 121, p. 3031). One added a new section (14) under which the Legislature is authorized to incur indebtedness not exceeding $300,000,000 for the elimination, under State supervision, of railroad crossings at grade within the State, at the joint expense of the State, railroad companies, cities, towns and villages. Of such indebtedness, the State would bear 25%, city, town or village 25% and the railroads 50%. The other amends Article 7 by adding another new section (15), which empowers the Legislature to authorize by law $100,000,000 in bonds to provide moneys for the acquisition by the State of real property and for the construction of buildings, works and improvements for the State, or for any one or more of such objects, in installments of $10,000,000 a year for 10 years, no vote of the people being necessary.

Initial expenditures out of the grade crossing elimination issue and the permanent improvement issue were provided for by the 1926 Legislature. The amounts to be expended are $70,000,000 and $10,000,000, respectively. $10,000,000 of the grade crossing bonds and $10,000,000 of the permanent improvement bonds were issued in 1926. For description of bonds see table below. The State's total bonded debt on May 31 1927 was $341,059,000. The sinking fund resources on May 31 1927 were $100,050,736.42. Loans outstanding are as follows:

STATE DEBT FOR A SERIES OF YEARS.—The figures of gross bonded State debt given below are for the fiscal years ending June 30 beginning with June 30 1916, the year having been changed from Sept. 30 to this date by Chapter 118, Laws of 1916. All other figures in the following table are for the old date (Sept. 30):

1926	$315,520,000	1915	$186,400,660	1904	9,410,660	1885	$9,461,854
1925	318,456,000	1914†	$159260,660	1903	$9,665,660	1880	$9,114,054
1924	308,491,000	1913	108,355,660	1902	$9,920,660	1875	28,328,686
1923	264,244,500	1912	109,702,660	1900	10,130,660	1870	8,641,606
1922	266,998,000	1911	79,730,660	1899	10,185,660	1865	50,861,349
1921	267,729,000	1910	57,230,660	1898	9,340,660	1860	34,182,975
1920	236,024,000	1909	41,230,660	1897	5,765,660	1850	23,507,874
1919	236,119,660	1908	26,230,660	1893	660	1840	18,385,309
1918	236,214,660	1907	17,290,660	1892	763,160	1830	8,635,035
1917	236,309,660	1906	10,630,660	1891	2,927,655	1820	2,983,500
1916	211,404,660	1905	11,155,660	1890	4,964,304	1816	2,905,535

† Comptroller's temporary loan certificates amounting to $650,000 were also outstanding Sept. 30 1914. * In addition, there were outstanding Sept. 30 1913 $27,000,000 notes issued in anticipation of the sale of bonds.

TAX VALUATION, TAX RATE, &c.—Large increase in values for 1904, due mainly to New York City's real estate being assessed about full value. The constitutional amendment adopted in 1905 permits interest and sinking fund requirements to be met out of funds in the Treasury instead of by means of a direct tax as heretofore. No direct State levy, therefore was made in 1906 to 1910, revenue being entirely raised through the operation of mortgage, stock transfer, liquor, inheritance and corporation taxes. In July 1911, however, the Legislature again imposed a direct tax of 6-10 of a mill on each dollar of real and personal property. In 1912 the Legislature made provision for a direct tax levy of one mill. At the 1913 session, in order to avoid the levying of a direct tax, a bill was introduced to permit the transfer to the general fund of a part of the sinking fund. This measure, however, failed to pass both houses. V. 96, p. 1435. On Sept. 17 1913, while the Legislature was in extra session, a bill was passed authorizing the levy of a direct tax of 5805-10000 of a mill. In 1914 a bill was passed providing for a direct tax of three hundred and fifty-five thousandths of a mill but this was vetoed by the Governor. V. 98, p. 1404. At the 1915 session of the Legislature provision was made for the levy of a direct tax of one and seven-tenths mills. V. 100, p. 1525. No direct State tax was imposed by the 1916 Legislature. In 1917 the Legislature provided for a direct tax of 1.08 mills; in 1918 and 1919 it imposed a direct tax of 1.06 mills; in 1920, 2.695 mills; in 1921, 1.5043 mills; in 1922, 1.2915 mills; in 1923, 2 mills; in 1924, 1.50 mills; in 1925, 1.50 mills, and in 1926, 1 mill.

* The total valuations shown are those used for the purpose of levying the State tax for each of the years enumerated.

POPULATION OF STATE.—New York ranks first in population among the States of the Union. The following gives the U. S. Census figures, except 1905, 1915 and 1925 returns, which were compiled under State supervision.

1925	11,162,151	1900	7,268,894	1860	3,880,735	1820	1,372,812
1920	10,385,227	1890	*6,003,174	1850	3,097,394	1810	959,049
1915	9,687,744	1880	5,082,871	1840	2,428,921	1800	589,051
1910	9,113,614	1870	4,382,759	1830	1,918,608	1790	340,120
1905	8,067,308						

*Includes population (5,321) of Indian reservations, specially enumerated

CONSTITUTIONAL AMENDMENT CHANGING CLASSIFICATION OF CITIES.—At the Nov. 1907 election an amendment to Sec. 2 of Art. 12 of the constitution was adopted by a vote of 309,159 "for" to 123,919 "against." This amendment alters Sec. 2 by changing the population of cities of the first class from "250,000 or more" to "175,000 or more," and cities of the second class from "50,000 and less than 250,000" to "50,000 and less than 175,000." This section was printed in full in V. 85, p. 359.

NEW YORK, NEW JERSEY PORT DISTRICT.—A treaty, creating a port district between New York and New Jersey, ratified by the Legislatures of both States, was signed on April 30 1921. The treaty provides for the creation of a single "Port District" governed by a single Port Authority, which body will control the improvement and development of the district in conjunction with the Federal authorities. See "Chronicle" May 7 1921, page 1998.

NEW CONSTITUTION DEFEATED.—A revised Constitution drafted by the Convention of 1915, in session from April 6 to Sept. 10, was overwhelmingly defeated at the general election Nov. 2 1915. V. 102, p. 172. The changes proposed by the Convention were explained in an "address to the people," which was given in full in the "Chronicle" of Sept. 18 1915, page 892. The voters, at the general election on Nov. 7 1916, defeated the question of holding another constitutional convention. V. 104, p. 86.

DEBT LIMITATION—STATE.—The provisions of the fundamental law restricting the power of the Legislature over the issue of debt under the Constitution of 1894 are contained in Article 7. Amendments to Sections 2, 4, 5, 11 and 12 were adopted by the voters on Nov. 2 1920. Section 13 was added in 1923 and Sections 14 and 15 were added in 1925. We give the sections below which have reference to the subject as amended.

State credit not to be given.—SECTION 1. The credit of the State shall not in any manner be given or loaned to or in aid of any individual, association or corporation.

State debts—power to contract.—SEC. 2. The State may contract debts in anticipation of the receipt of taxes and revenues, direct or indirect, for the purposes and within the amounts of appropriations theretofore made; bonds or other obligations for the moneys so borrowed shall be issued as may be provided by law, and shall with the interest thereon be paid from such taxes and revenues within one year from the date of issue.

State debts to repel invasions.—SEC. 3. In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection, or defend the State in war; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

Limitation of Legislative power to create debts.—SEC. 4. Except the debts specified in Sections 2 and 3 of this Article, no debt shall be hereafter contracted by or in behalf of this State, unless such debt shall be authorized by law, for some single work or object, to be distinctly specified therein. On the final passage of such bill in either house of the Legislature, the question shall be taken by ayes and noes, to be duly entered on the journals thereof, and shall be: "Shall this bill pass, and ought the same to receive the sanction of the people?" No such law shall take effect until it shall, at a general election, have been submitted to the people and have received a majority of all the votes cast for and against it at such election nor shall it be submitted to be voted on within three months after its passage nor at any general election when any other law, or any bill shall be submitted to be voted for or against. The Legislature may at any time, after the approval of such law by the people, if no debt shall have been contracted in pursuance thereof, repeal the same; and may at any time, by law, forbid the contracting of any further debt or liability under such law.

Except the debts specified in sections 2 and 3 of this article, all debts contracted by the State after Jan. 1 1920, pursuant to an authorization therefor, heretofore or hereafter made and each portion of any such debt from time to time so contracted irrespective of the terms of such authorization, shall be paid in equal annual installments, the first of which shall be payable not more than one year, and the last of which shall be payable not more than fifty years after such debt or portion thereof shall have been contracted. No such debt hereafter authorized shall be contracted for a period longer than that of the probable life of the work or object for which the debt is to be contracted, to be determined by general laws, which determination shall be conclusive.

The Legislature may from time to time alter the rate of interest to be paid upon any State debt which has been or may be authorized pursuant to the provisions of this section or upon any part of such debt, provided, however, that the rate of interest shall not be altered upon any part of such debt or upon any bond or other evidence thereof which has been or shall be created or issued before such alteration. The money arising from any loan creating such debt or liability shall be applied to the work or object specified in the Act authorizing such debt or liability, or for the payment of such debt or liability, and for no other purpose whatever.

Sinking Fund, how kept and invested.—SEC 5.—The sinking funds provided for the payment of interest and the extinguishment of the principal of the debts of the State heretofore contracted shall be continued; they shall be separately kept and safely invested, and neither of them shall be appropriated or used in any manner other than for such payment and extinguishment as hereinafter provided. The Comptroller shall each year appraise the securities held for investment in each of such funds at their fair market value not exceeding par. He shall then determine and certify to the Legislature the amount of each of such funds and the amounts which, if thereafter annually contributed to each such fund, would, with the fund and with the accumulations thereon and upon the contributions thereto, computed at the rate of 3% per annum, produce at the date of maturity the amount of the debt to retire which such fund was created, and the Legislature shall thereupon appropriate as the contribution to each such fund for such year at least the amount thus certified.

If the income of any such fund in any year is more than a sum which, if annually added to such fund would, with the fund and its accumulations as aforesaid, retire the debt at maturity, the excess income may be applied to the interest on the debt for which the fund was created.

After any sinking fund shall equal an amount the debt for which it was created, no further contributions shall be made thereto except to make good any losses ascertained at the annual appraisals above mentioned, and the income thereof shall be applied to the payment of the interest on such debt. Any excess in such income not required for the payment of interest may be applied to the general fund of the State.

The Legislature may also by general laws provide means and authority whereby outstanding bonds of the State, for which sinking funds are provided, may be exchanged at par for cancellation, for serial bonds of the form authorized under section 4 of this Article, upon such terms and conditions as to interest and otherwise as it may in its discretion authorize or determine, except that the debt as thus refunded shall finally mature no later and at no greater comparative cost to the State than the original debt; the determination of the Legislature as to such comparative cost shall be conclusive. No further contributions to the respective sinking funds shall be made on account of bonds so exchanged and the proportion of any such sinking fund which the amount of the bonds so exchanged shall bear to the amount of bonds outstanding of the same issue may be appropriated, as required, for the payment of the substituted serial bonds.

Sec. 11. The Legislature shall annually provide by appropriation for the payment of the interest upon and installments of principal of all debts created on behalf of the State except those contracted under section 2 of this Article, as the same shall fall due, and for the contribution of all of the sinking funds heretofore created by law, of the amounts annually to be contributed under the provisions of section 5 of this Article. If at any time the Legislature shall fail to make any such appropriation, the Comptroller shall set apart from the first revenues thereafter received, applicable to the general fund of the State, a sum sufficient to pay such interest, installments of principal, or contributions to such sinking fund, as the case may be, and shall so apply the moneys thus set apart. The Comptroller may be required to set aside and apply such revenues as aforesaid, at the suit of any holder of such bonds.

Improvement of Highways.—SEC. 12. Debts hereafter authorized for the improvement of highways shall be created only in the manner provided in Section 4 of this article. No provision of this article shall be deemed to impair or affect the validity of any debt of the State heretofore contracted or any right or obligation heretofore created between the State and any of its civil divisions.

Bonus to honorably discharged soldiers, sailors and marines of the World War.—SEC. 13. The Legislature may authorize by law the creation of a debt or debts of the State to provide for the payment of bonuses to honorably discharged soldiers, sailors and marines of the World War who were actual residents of the State at the time of their enlistment or induction into the military service of the United States. An apportionment of the moneys on the basis of the periods of service of the respective beneficiaries shall be provided for by general laws. The aggregate of the debts authorized by this section shall not exceed forty-five million dollars. The provisions of this article, not inconsistent with this section, relating to the issuance of bonds for a debt or debts of the State and the maturity and payment thereof, shall apply to a debt or debts created pursuant to this section; except that the law authorizing the contracting of such debt or debts shall take effect without submission to the people pursuant to Section 4 of this article.

Creation of State debt for elimination of railroad grade crossings.—SEC. 14. The Legislature may authorize by law the creation of a debt or debts of the State, not exceeding in the aggregate three hundred million dollars, to provide moneys for the elimination, under State supervision, of railroad crossings at grade within the State, at the expense of the State, railroad companies, cities, towns and villages. Of the expense of a grade crossing elimination to which any of the proceeds of such a debt are applied, twenty-five per centum shall be borne by the State, twenty-five per centum by the city, town or village, and fifty per centum by the railroad company. Laws shall be enacted to provide, so far as practicable, for repayment to the State of moneys advanced in aid of railroad companies, cities, towns and villages at such times, in such manner and with interest at such rate, that the State shall be able to pay when due the portion of the State debt equal to the proceeds which shall have been so advanced, and interest thereon. The provisions of this article, not inconsistent with this section, relating to the issuance of bonds for a debt or debts of the State, and the maturity and payment thereof, shall apply to a State debt or debts created pursuant to this section; except that the law authorizing the contracting of such debt or debts shall take effect without submission to the people pursuant to Section 4 of this article.

Creation of State debt for construction of public buildings and works.—SEC. 1. In addition to any other debt, authorized by or pursuant to this article, the Legislature, in each of the ten calendar years following the adoption of this section, may authorize by law the creation of a debt or debts, not exceeding in the aggregate in any such year the sum of ten million dollars, to provide moneys for the acquisition by the State of real property and for the construction of buildings, works and improvements for the State, or for any one or more of such objects. The provisions of this article, not inconsistent with this section, relating to the issuance of bonds for a debt or debts of the State and the maturity and payment thereof, shall apply to a State debt or debts created pursuant to this section; except that the law authorizing the contracting of such debt or debts shall take effect without submission to the people pursuant to Section 4 of this article.

[On June 2 1913 a bill was signed increasing from 4% to 4½% the rate of interest on bonds thereafter issued for canal and highway improvements and barge canal terminal facilities. V. 96, p. 1642. A bill passed in 1915 permits the sale of canal and highway bonds at *not exceeding* 4½% interest and a block of $27,000,000 4½s was sold on March 10 1915.]

Chapter 645, Laws of 1913, as amended by Chap. 333, Laws of 1915, allows the Comptroller to issue 5% 1-year notes in anticipation of the sale of State bonds. On June 5 1913 the State sold $27,000,000 of these notes due Feb. 1 1914, and these were taken up with a part of the proceeds of $51,000,000 4½% bonds sold Jan. 21 1914.]

DEBT LIMITATION—CITIES, COUNTIES, TOWNS AND VILLAGES.—The constitution of 1894 puts a general and uniform limit to the power of counties and cities of the State to contract and put out their obligations, leaving the Legislature to fix the debt-making power of villages and towns only. These provisions are found in Art. 8, Sec. 10. We give that section in full below. The separation into paragraphs and the figures in parentheses which number and begin the paragraphs are our own, we having inserted them so that those who need to refer to any particular portion can the more readily find the part desired.

We specialize in

City, County, Village, Town and all District Bonds in the State of New York.

GEO. B. GIBBONS & CO.
INCORPORATED
MUNICIPAL BONDS
40 WALL ST. NEW YORK

[A proposed amendment to this article was defeated by the voters in November 1923 (see V. 117, p. 2457). It proposed to create a new section (Section 10a) and provided that where a change in the system of taxation is made, resulting in the exemption from taxation of property therefore taxable there should be no change in the debt limit of the city or county, but that the valuation of the property so exempted, as it last appeared on the assessment rolls, should be included in the valuation upon which the debt limit is based.]

(1) No county, city, town or village shall hereafter give any money or property, or loan its money or credit to or in aid of any individual, association or corporation, or become directly or indirectly the owner of stock in, or bonds of, any association or corporation; nor shall any such county, city, town or village be allowed to incur any indebtedness except for county, city, town or village purposes. This section shall not prevent such county, city, town or village from making such provision for the aid or support of its poor as may be authorized by law.

(2) No county or city shall be allowed to become indebted for any purpose or in any manner to an amount which, including existing indebtedness, shall exceed 10% of the assessed valuation of the real estate of such county or city subject to taxation as it appeared by the assessment rolls of said county or city on the last assessment for State or county taxes prior to the incurring of such indebtedness; and all indebtedness in excess of such limitation, except such as may now exist, shall be absolutely void, except as herein otherwise provided.

(3) No county or city whose present indebtedness exceeds 10% of the assessed valuation of its real estate subject to taxation shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit.

(4) This section shall not be construed to prevent the issuing of certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes for amounts actually contained, or to be contained in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes; nor to prevent the City of New York from issuing bonds to be redeemed out of the tax levy for the year next succeeding the year of their issue, provided that the amount of such bonds which may be issued in any one year in excess of the limitations herein contained shall not exceed one-tenth of one per centum of the assessed valuation of the real estate of said city subject to taxation.

(5) Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water; but the term of the bonds issued to provide for the supply of water, in excess of the limitation of indebtedness fixed herein, shall not exceed twenty years, and a sinking fund shall be created on the issuing of the said bonds for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity.

At the 1909 election a constitutional amendment with reference to the exclusion of debt incurred for rapid transit and dock purposes by New York City, and with reference to the exclusion after Jan. 1 1910 of water bonds issued by third class cities, was ratified by the voters. In November 1917 the voters adopted an amendment to the constitution providing that debts incurred *by any city of the first class* after Jan. 1 1904 to provide for the supply of water, are not to be included in ascertaining the power of a city to become indebted. Previously this section simply applied to New York City. A proposal to amend the constitution so as to allow New York City to issue $300,000,000 bonds for subway construction, which bonds would be exempt from debt limitations, will be submitted to the voters in November 1927. The amendments referred to change sub-division (6), making it read as follows:

(6) All certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes, which are not retired within five years after their date of issue, and bonds issued to provide for the supply of water, and any debt hereafter incurred by any portion or part of a city, if there shall be any such debt, shall be included in ascertaining the power of the city to become otherwise indebted; except that debts incurred by any city of the first class after the first day of January, nineteen hundred and four, and debts incurred by any city of the second class after the first day of January nineteen hundred and eight, and debts incurred by any city of the third class after the first day of January, nineteen hundred and ten, to provide for the supply of water, shall not be so included; and except further that any debt hereafter incurred by the City of New York for a public improvement owned or to be owned by the city which yields to the city current net revenue, after making any necessary allowance for repairs and maintenance for which the city is liable, in excess of the interest on said debt and of the annual installments necessary for its amortization, may be excluded in ascertaining the power of said city to become otherwise indebted, provided that a sinking fund for its amortization shall have been established and maintained and that the indebtedness shall not be so excluded during any period of time when the revenue aforesaid shall not be sufficient to equal the said interest and amortization installments, and except further that any indebtedness heretofore incurred by the city of New York for any rapid transit or dock investment may be so excluded proportionately to the extent to which the current net revenue received by said city therefrom shall meet the interest and amortization installments thereof, provided that any increase in the debt-incurring power of the city of New York which shall result from the exclusion of debts heretofore incurred shall be available only for the acquisition or construction of properties to be used for rapid transit or dock purposes. The Legislature shall prescribe the method by which and the terms and conditions under which the amount of any debt to be so excluded shall be determined, and no such debt shall be excluded except in accordance with the determination so prescribed. The Legislature may in its discretion confer appropriate jurisdiction on the Appellate Division of the Supreme Court in the First Judicial Department for the purpose of determining the amount of any debt to be so excluded. No indebtedness of a city valid at the time of its inception shall thereafter become invalid by reason of the operation of any of the provisions of this section.

(7) Whenever hereafter the boundaries of any city shall become the same as those of a county, the power of the county to become indebted shall cease, but the debt of the county at that time existing shall not be included as part of the city debt. At the November 1899 election an amendment to the constitution was adopted changing this paragraph to read as follows: Whenever the boundaries of any city are the same as those of a county, or when any city shall include within its boundaries more than one county, the power of any county wholly included within such city to become indebted shall cease, but the debt of the county heretofore existing shall not, for the purposes of this section, be reckoned as a part of the city debt.

(8) The amount hereafter to be raised by tax for county or city purposes, in any county containing a city of over 100,000 inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not in the aggregate exceed in any one year 2% of the assessed valuation of the real and personal estate of such county or city, to be ascertained as prescribed in this section in respect to county or city debt.

By the terms of the foregoing section, Paragraph (1), every "County, City, Town or Village" is included in the prohibition against (1) loaning "its money or credit," (2) in becoming "directly or indirectly the owner of stock in or bonds of any association or corporation," and (3) in "incurring any indebtedness except for County, City, Town or Village purposes." Most of the other paragraphs include only counties and cities.

In May 1886 the New York Court of Appeals decided at the end of a litigation begun in July 1885 *that the sinking fund was not a part* of the city debt within the meaning of the above provision of the constitution limiting the creation of debt to 10% of the assessed valuation of the real estate.

Towns and villages are not limited in their debt-making power by the constitution. Those municipalities are governed by general or special statutes. Section 130 of Chapter 64, Laws of 1909 (amended by Chapter 139, Laws of 1923) limits village debt to 10% of the assessed value of property.

The 1920 Legislature amended the Educational Law by adding a sentence to Section 1 of Chapter 16 of the Consolidated Laws, limiting the bonded debt of districts having a total valuation of real property of $1,000,000 or over to 10% of the aggregate assessed value of real property. This law was again amended in 1921 and 1922 (see State & City Section June 30 1923, page 55). It was further amended in 1923 (Chapter 400, Laws of 1923) by substituting the word "full" for "assessed" and now provides that school districts having an aggregate full valuation of real property of $500,000 or over shall not issue bonds at any time in excess of 15% of their full valuation figures, except as provided in said statute. The full valuation of taxable property shall be determined by the ratio, as ascertained by the tax commission, which the assessed valuation of such property bears to the actual or full property of such property. Section 1 was again amended in 1925 (Chapter 102, Laws of 1925) and now permits the creation of indebtedness, also for the payment of judgments.

The 1895 Legislature passed an Act "for the protection of bona fide purchasers and holders of coupon bonds and of municipal corporations against misfeasance, malfeasance or negligence of public officers." The full text of this law was published in the "Chronicle" of June 8 1895. V. 60, p. 1023

STATE RE-ORGANIZATION AMENDMENT CARRIED.—On Nov. 3 1925 the voters approved the amendment to Article V and Section 11 of Article XIII for a short ballot and consolidation of State Departments. For the reconstruction of the administrative departments a committee was appointed with Ex-Secretary of State Charles E. Hughes as its Chairman. A report embodying their suggestions was submitted to the legislative on March 1 1926 all of which is accepted (see reference in V. 122, p. 349.

HOME RULE BILL.—On April 10 1913 a bill was signed (given in full in V. 96, p.1108), conferring on all cities full powers of local self-government.

A constitutional amendment which gives more power to municipalities, particularly New York City, in the management of local affairs, was submitted to the voters in the autumn of 1923 and carried (V. 117, p. 2457). An enabling Act was enacted by the 1924 Legislature carrying the amendment into effect. For text see V. 118, p. 2856.

On July 6 1925 the Appellate Division (First Department) of the State Supreme Court in a decision handed down on that date held void both city home rule amendment and the enabling Act passed in 1924 carrying the amendment into effect (V. 121, p. 227). The case, however, was appealed, and on Sept. 2 1925 at Albany the decision was reversed by the State Court of Appeals (V. 121, p. 1254).

OPTIONAL CITY GOVERNMENT LAW DECLARED VALID.—The Court of Appeals on Dec. 22 1917 declared valid the optional city government law passed by the Legislature in 1914. V. 105, p. 2560.

BILL REGULATING ISSUANCE AND SALE OF MUNICIPAL AND SCHOOL BONDS.—The general municipal law was amended in 1917 (Chapter 534) providing that municipal bonds having no coupons attached must have the payee's name inserted and registered with the treasurer or other designated official, before interest shall be paid. The bill also provides that all bonds hereafter issued by any municipal corporation, or by any school district or civil division of the State shall be sold, in the case of first class cities as required by its charter or special act, and in the case of second class cities, as required by the second class cities law, and in all other cases, bonds must be sold at public sale not less than 5 or more than 30 days after publication of offering. The full text of the 1917 amendment was published in the "Chronicle" of May 19 1917, page 2031.

BILL PERMITTING LEGALIZING OF MUNICIPAL BONDS BY SUPREME COURT.—The 1911 Legislature passed a bill amending the general municipal law by providing that proceedings heretofore or hereafter taken by municipal corporations in relation to bond issues, pursuant to statute authorizing such procedure, may be legalized and confirmed by the Supreme Court instead of requiring legislative enactments. This bill was given in full in the "Chronicle" of Dec. 9 1911, page 1619. See also "Chronicle" of Feb. 3 1912, pages 316 to 318, inclusive. The Appellate Division of the Supreme Court at the July 1913 term declared the Act to be constitutional. V. 97, p. 211.

EXEMPTION FROM TAXATION.—Sec. 8, Article Two, Chapter 24, Consol. Laws of 1909 (p. 403) provides that "all bonds of a municipal corporation, until payable, shall be exempt from taxation for town, county, municipal or State purposes." Chapter 24 here mentioned provides that the term 'municipal corporation' as used in this chapter includes only a county, town, city and village." This differs from the definition given in the General Corporation Law (Chapter 23, Consolidated Laws of 1909), which in Section 3 of Article 1 says that "A 'municipal corporation' includes a county, town, school district, village and city and any other territorial division of the State established by law with powers of local government."

A bill was passed by the 1917 Legislature, now Chapter 97, Laws of 1917, amending the tax law in relation to exemption from taxation of bonds of the State and its civil divisions. The new law amends sub-division 6 of Section 4, Chapter 62, Laws of 1909, constituting Chapter 60 of the consolidated laws, so as to read that "bonds of this State or any civil division thereof," are exempt from taxation. V. 104, p. 1513.

TAXATION ON MORTGAGES.—Mortgages on real property wholly within the State of New York are not subject to taxation of any kind, the only charge being the payment of a recording tax of ½ of 1%. Important changes, however, were made by the 1916 Legislature in that section of the mortgage recording tax law, relating to mortgages and bonds secured by real property both within and without the State—a condition which oft-times applies in the case of corporation mortgages.—V. 103, p. 551 and 552. Among these was the amendment to Section 264 of this law relating to an optional tax on prior advanced mortgages on real property. It applies to mortgages recorded prior to July 1st 1906 (the date when the mortgage recording tax went into effect) and bonds secured thereby. When first enacted this section was intended to enable the holder of any such bond to present it to the recording officer in the county where the mortgage was first recorded and pay a tax on the whole amount at the prevailing rate of ½ of 1%, thus putting such bonds on a parity with those issued subsequent to the recording tax law as regards exemption from the personal property tax. A ruling of the Attorney-General (V. 95, p. 993) held that such bonds could only be exempted from the personal property tax to the extent that the mortgage covered real property within the State. The 1916 amendment made it clear that the whole amount of such bonds would be included under this section, and when the recording tax was paid the bonds would become exempt from the personal property tax. Another amendment of 1916, to Section 260, provided that when a mortgage was recorded covering property, both within and without the State, the tax could be paid on the entire amount, and the whole value of bonds be exempted from the personal property tax. The Legislature in 1917 again amended this section of the law (Chapter 72, Laws of1917) so that now the situation is as it was prior to 1916, that the tax can be paid only on the value of the mortgaged property within New York State, and bonds are exempt pro rata only, the remaining portion of the bond being liable to personal property assessment as an investment, without deduction for indebtedness of the owner. See "Chronicle" of May 5 1917, pages 1762 and 1763.

STATE INCOME TAX LAW.—The 1919 Legislature by Chapter 627 (which received the approval of the Governor on May 14 1919) enacted a State Income Tax Law. This was done by amending Chapter 62 of the Laws of 1909, entitled "An Act in relation to taxation, constituting Chapter 60 of the Consolidated Laws," by adding a new article, to be Article 16. The law was published in full in the "Chronicle" of May 10 1919, pages 1883 to 1887. It imposes an annual tax upon every resident of the State 1% of the amount of net income not exceeding $10,000, 2% of the amount of net income in excess of $10,000 but not in excess of $50,000, and 3% of the amount of net income in excess of $50,000. A like tax is imposed with respect to the net income from all property owned and from every business, trade, profession or occupation carried on in the State of New York by natural persons not residents of the State. The tax was first levied in the year 1920 and based upon taxable income for calendar year 1919. In case of a single person, a personal exemption of $1,000 was originally allowed, while in the case of the head of a family or a married person living with husband or wife the personal exemption was originally $2,000, with a further exemption of $200 for each person (other than husband or wife) dependent upon and receiving his chief support from the taxpayer, if such dependent person is under 18 years of age or is incapable of self support because mentally or physically defective. In 1923 an amendment was made, increasing the exemptions of heads of families, where the income is less than $5,000, to $2,500. Exemptions for each dependent were increased from $200 to $400. V. 116, p. 2418. In 1926 the personal exemptions were again increased. The amount of exemption for a single person was increased to $1,500 and for married persons and heads of families to $3,500. These changes were made to conform with the changes made in Federal law in 1926. Amendments made to the law in 1924 are contained in Chapters 54 and 312, Laws of 1924. Chapter 27, Laws of 1924, allowed a reduction of 25% in the personal income tax for 1923, chargeable against the State's share of such tax. (For text, see V. 118, p. 1345.) By Chapter 196, Laws of 1925, this same reduction is allowed in the personal income tax for 1924. Continuing this practice the 1926 Legislature passed an Act permitting the same exemption in 1925 income tax return. The 1927 Legislature failed to enact any law extending the reduction to 1926 incomes. The income tax supersedes the personal property tax. Of revenue collected, 50% goes into State Treasury, while remaining 50% is distributed to the Treasurers of the several counties, who in turn apportion the amount received among the several towns and cities within the county. In its original form the law allowed larger exemptions to residents than to non-residents. The validity of this provision was attacked in the courts, and in March 1920 the U. S. Supreme Court declared the law unconstitutional in that respect. In April 1920 the Legislature amended the law so as to remove the objection referred to (see V. 110, p. 1611). The New Jersey State Attorney-General still thought the law discriminatory as to non-residents, and (V. 111, p. 38) advised residents of New Jersey to comply only under protest. The Court of Appeals on June 2 1921 sustained the claim of the State that the original statute was only void in part and that its invalidity had been cured when the Legislature amended the law in 1920 (V. 112, p. 2608).

The 1919 Legislature also passed an Act (Chapter 628 of the Laws of 1919, approved May 14 1919) increasing the tax on net incomes of corporations from 3% to 4½% annually, and extending the application of the law so as to make it apply to business corporations in general in the State instead of merely to manufacturing and mercantile corporations. The law was printed in the issue of the "Chronicle" of May 3 1919, pages 1780 and 1781.

CONDEMNATION OF PRIVATE PROPERTY FOR PUBLIC USE.—In Nov. 1911 a proposed constitutional amendment relating to the taking of private property for public use was defeated V. 93, p. 1679. A similar amendment permitting municipalities to condemn property in excess of the amount actually needed for public parks and streets was ratified at the general election in Nov. 1913 (V. 97, p. 1837).

TAX LAW RELATIVE TO INVESTMENTS IN STATE BONDS BY SAVINGS BANKS, TRUST COMPANIES AND INSURANCE COMPANIES.—Section 190 of the Tax Law (Chapter 60, Consolidated Laws) provides that every corporation, company or association required by Section 187, 188 or 189 of that Chapter, to pay an annual tax equal to a percentage of its gross premiums, capital stock, surplus, undivided profits or undivided earnings for the privilege of exercising its corporate franchise, or carrying on its business in such corporate or organized capacity, which shall own any State bonds, shall have credited to it annually to apply upon or in lieu of the payment of such tax, an amount equal to 1% of the par value of such bonds bearing interest at a rate not exceeding 3% annually, and owned by such corporation, company or association. At the 1913 session a law was passed proposing to increase the credit on all holdings of bonds, but at the special session which convened June 16 1913 the law was repealed. V. 96, p. 1784. By Chapter 332, Laws of 1924, the words "to the State," which appeared in Section 190 in its original make up, were omitted. We place these in bold face brackets below. Section 190 as it stands at present reads as follows:

Sec. 190. Every corporation, company or association required by Section 187, 188, or 189 of this chapter, to pay [to the State] an annual tax equal to a percentage of its gross premiums, capital stock, surplus, undivided profits or undivided earnings, or one or more, for the privilege of exercising its corporate franchise or carrying on its business in such corporate or organized capacity, which shall own any of the bonds of the State of New York, shall have credited to it annually to apply upon or in lieu of the payment of such tax an amount equal to one per centum of the par value of all such bonds of the State, bearing interest at a rate not exceeding three per centum per annum, owned by such corporation, company or association, and registered in its name or registered in the name of a public department, a public officer or officers of this State, or of any other State, or of the United States, in trust for such corporation, company or association, on the thirtieth day of June prior to the date when such tax shall become due and payable; provided, however, that there shall in no case be credited to any such corporation, company or association an amount in excess of the amount due from such corporation, company or association for taxes payable to the State under this chapter for the fiscal year for which such credit is given; and further provided that any such credit so allowed under this section shall not bear interest.

SAVINGS BANK INVESTMENTS—POWER AND RESTRICTIONS—The general banking law, known as Chap. 2 of the Consolidated Laws, was completely revised by the Legislature of 1914, but no material change was made in that part of the law regulating investment by savings banks, except that the section dealing with this subject is now numbered 239, instead of 146, and its provisions apply to the sums credited to the guaranty fund as well as to savings bank deposits. The Legislature in 1915 passed an Act authorizing banks to invest in certain judgments against the State and in contracts entered into by the special examiner and appraiser of canal lands (V. 100, p. 1525), and in 1920 amended the first-mentioned provision so as to broaden its scope somewhat. See V. 111, p. 106. Another amendment passed in 1915 adds to Paragraph (*a*) of Subdivision 7, of Section 239 of the Banking Law, the words which we have given in *italics*. The purpose of the amendment was to remove any question as to the legality of the refunding bonds issued by the N. Y. Central RR. since the last consolidation with the Lake Shore & Mich. Sou. Ry. and other roads. In 1916 the Legislature passed an amendment to subdivision 8 of Section 239 relating to promissory notes in which investments may be made. This amendment also adds to the banking law a new paragraph (subdivision 10) and allows the investment by savings banks in the bonds of the land bank of the State of New York. See V. 102, p. 1825. Three important changes were made in the banking law by the 1918 Legislature. The first of these amends subdivision 5 by granting savings banks much broader authority to invest their funds in the securities of municipalities in contiguous States. Formerly the qualifications and limitations for municipalities in these States were the same as for those in other States. Now it is provided that they may invest in the stocks or bonds of any incorporated city, county, village or town situated in one of the States of the United States which adjoins the State of New York. Another amendment, creating paragraph (d) of subdivision 8, permits the investment by savings banks in promissory notes secured by savings bank passbooks and by the assignment of one or more first mortgages on real estate situated in the State of New York. In 1922 this paragraph (d) subdivision [8] was amended, the percentage at which banks may lend money on promissory notes, secured by deposits, being increased from 90% to 100% of the balance due the depositor, as shown by his passbook. The third amendment of 1918 adds a new subdivision (No. 11), authorizing savings banks in this State to invest in bankers' acceptances and bills of exchange to the extent of 5% of their total deposits. See V. 106, p. 1596, and 1738. This subdivision [No. 11] was amended in 1920 and 1923. See V. 110, p. 1994, and V. 116, p. 2038 and 2168. The 1919 Legislature, by Chapter 160, amended Subdivision 7 of Section 239 of Chapter 369 of the Laws of 1914 by adding a new paragraph, providing that the period during which a railroad is operated by the U. S. Government shall not be taken with the provisions of the law. In 1920 the Legislature amended this subdivision (7) by extending the period of suspension of restrictions on railroad bonds for two years after the termination of Government control (V. 110, p. 1896). In 1923 this period of grace was extended another two years. V. 116, p. 1089, 2038, and 2168. By an addition to subdivision 6 made at the special session of the Legislature in June 1919, it is provided that real property on which there is a building in process of construction, and which when completed will constitute a permanent improvement, shall be considered improved and productive real property. By an Act of the 1922 Legislature, inserting subdivision 10a, bonds of the First Land Bank District were added to the list (V. 114, p. 1803). In 1923 subdivision 3, relating to State bonds, was amended. The amendment had the effect of permitting investment in bonds of the State of Virginia. V. 116, p. 2038 and 2168. An amendment to subdivision 6, made by the 1923 Legislature, increased from 65% to 70% of deposits and guaranty the limit placed upon investment in bonds and mortgages on unencumbered real estate in New York State. V. 116, p. 2547. Subdivision (b) of paragraph 5 was amended by the enactment of the Davison bill at the 1924 session of the Legislature. The amendment permits savings banks of the State to invest "in the stocks or bonds of cities situate in any other of the States [meaning States not contiguous to New York, provision for which is made in subdivision (a) of the same paragraph] of the United States which was admitted to Statehood prior to Jan. 1 1909 and the obligations of which State are an authorized investment for the moneys of savings banks." The change consisted in moving forward the date from Jan. 1 1896 to Jan. 1 1909, and the effect has been to bring Utah and Oklahoma within the provisions of the statute, Utah not having been admitted as a State until Jan. 4 1896, and Oklahoma not until Nov. 16 1907. The Davison bill also contained the so-called "Southern cities" amendment. This consisted in the omission from the law (after the date Jan. 1 1896) of the following words—"which since Jan. 1 1861 has not repudiated or defaulted in the payment of any part of the principal or interest of any debt authorized by the Legislature of any such State to be contracted." The effect of the presence of the words quoted had been to rule out the cities of nearly all of the Southern States and the elimination of these words operates to bring the securities of the cities of these Southern States within the provision of the law and hence to make them legal investments for savings banks—provided they meet the other requirements of the statute. Still another change was in making the provisions regarding defaults apply only to the city concerned instead of to both city and State. An amendment of 1927—V. 124, p. 1870—provided that municipal bonds issued from the passage of the Act until May 1 1929 by any city of 100,000 population whose bonds had been legal investments at any time since Jan. 1 1925, and which city at the time of the issuance of such bonds should be empowered to levy an unlimited tax for their payment, shall constitute legal investments. This Act also changed the restrictions bearing on defaults, so that a default of 90 days or more at any time 25 years prior to the proposed date of investment rendered the bond eligible as a savings bank investment. The previous restriction was against default at any time since Jan. 1 1878. Section 239 in full as it now stands is as follows:

Sec. 239. A savings bank may invest the moneys deposited therein, the sums credited to the guaranty fund thereof and the income derived therefrom, in the following property and securities, and no others, and subject to the following restrictions:

1. The stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal, including the bonds of the District of Columbia. [*The State Attorney-General ruled that this sub-division does not authorize savings banks to invest in the land purchase bonds of the Philippine Islands. V. 78, p. 298.*

2. The stocks or bonds or interest-bearing obligations of this State issued pursuant to the authority of any law of the State.

3. The stocks, bonds or interest-bearing obligations of any State of the United States, upon which there is no default and upon which there has been no default for more than 90 days, provided that within 10 years immediately preceding the investment such State has not been in default for more than 90 days in the payment of any part of principal or interest of any debt duly authorized by the Legislature of such State to be contracted by such State since Jan. 1 1878, except debts representing a refunding or adjustment of any indebtedness originally contracted or in existence at that date or prior thereto.

[On Aug. 11 1909 the Attorney-General held that Port Commission 5% bonds of the State of Louisiana "maturing at any time between July 1 1924 and July 1 1959" were not legal investments for New York State savings banks. The Attorney-General mentioned as a ground of objection to the Port Commission bonds that they are not a direct obligation of the State of Louisiana. This view, however, is not concurred in by the United States authorities, for on Oct. 23 1911, the Assistant Attorney-General for the Post Office Department, rendered an opinion holding that the bonds referred to are an obligation of the State of Louisiana, and in accordance with this advice the Treasurer of the United States, on March 11 1912 announced that the bonds would be accepted by his office as security for postal savings funds.]

[Bonds of the State of Louisiana to be issued for the refunding of what is known as "Consolidated Bonds," due Jan. 1 1914, were held to be legal investments for New York State savings banks in an opinion rendered by the Attorney-General on October 22 1913. In previous opinions (July 3 1912 and August 11 1909), it was held that, inasmuch as Louisiana had defaulted in the payment of the "baby bonds," other obligations of the State could not be legally purchased by savings bank trustees. In reversing these former rulings the Attorney-General said that it now appeared that these "baby" bonds were not bonds for the payment of which the credit of the State was pledged, but were issued against certain revenues of the State, namely unpaid taxes, and were payable out of these revenues only. Therefore the failure to pay the same does not, according to the Attorney-General, constitute such a default as would make other bonds of the State improper investments. See V. 97, p. 1227, 1304, 1367 and 1444.]

[On June 16 1913 the Attorney-General held that bonds of the State of New Mexico issued pursuant to an Act approved June 1 1912 are legal investments for New York savings banks. V. 96, p. 1852.]

[Bonds of the Territory of Hawaii were held to be legal investments in an opinion by the Attorney-General dated Aug. 10 1914. V. 99, p. 554.]

4. The stocks, bonds, interest-bearing obligations or revenue notes sold at a discount of any city, county, town, village, school district, union free school district or poor district in this State, provided that they were issued pursuant to law and that the faith and credit of the municipality or district that issued them are pledged for their payment.

5. (*a*) The stocks or bonds of any incorporated city, county, village or town, situated in one of the States of the United States which adjoins the State of New York. If at any time the indebtedness of any such city, town or village, together with the indebtedness of any district or other municipal corporation or sub-division, except a county, which is wholly or in part included within the boundaries or limits of said city, town or village, less its water debt and sinking fund, or the indebtedness of any such county, less its sinking fund, shall exceed 7% of the valuation of said city, county, town or village for the purposes of taxation, its bonds and stocks shall thereafter, until such indebtedness shall be reduced to 7% of the valuation for the purposes of taxation, cease to be an authorized investment for the moneys of savings banks.

(*b*) The stocks or bonds of any incorporated city situated in any other of the States of the United States which was admitted to Statehood prior to Jan. 1 1909, and the obligations of which State are an authorized investment for the moneys of savings banks, provided said city has a population, as shown by the Federal Census next preceding said investment, of not less than 45,000 inhabitants, and was incorporated as a city at least twenty-five years prior to the making of said investment, and has not, within 25 years prior to the making of said investment, defaulted for more than ninety days in the payment of any part either of principal or interest of any bond, note or other evidence of indebtedness, or effected any compromise of any kind with the holders thereof. But if, after such default on the part of any such city, the debt or security, in the payment of the principal or interest of which such default occurred, has been fully paid, refunded or compromised by the issue of new securities, then the date of the first failure to pay principal or interest, when due, upon such debt or security, shall be taken to be the date of such default, within the provisions of this sub-division, and subsequent failures to pay installments of principal or interest upon such debt or security, prior to the refunding or final payment of the same, shall not be held to continue said default or to fix the time thereof, within the meaning of this sub-division, at a date later than the date of said first failure in payment. If at any time the indebtedness of any such city, together with the indebtedness of any district or other municipal corporation or subdivision except a county, which is wholly or in part included within the bounds or limits of said city, less its water debt and sinking funds, shall exceed 7% of the valuation of said city for purposes of taxation, its bonds and stocks shall thereafter, and until such indebtedness shall be reduced to 7% of the valuation for the purposes of taxation, cease to be an authorized investment for the moneys of savings banks.

(*c*) The stocks or bonds hereafter issued, prior to May 1 1929, by any city, the stocks or bonds of which have been authorized investments for the moneys of savings banks under paragraph (*a*) or (*b*) at any time since Jan. 1 1925; provided said city has a population as shown by the last decennial Federal census of not less than 100,000 inhabitants and that at the time of the issuance of said stocks or bonds such city shall have the power to levy taxes for their payment without any limitation of the rate or amount of such taxes.

[On Feb. 15 1911 an opinion was rendered by the Attorney-General deciding that both *real and personal* property should be used as a basis in determining the 7% debt limit which the savings bank law says must not be exceeded in the case of municipalities in the bonds of which the banks may make investments. The question was raised because of the fact that the constitutional provision in regard to cities of this State provides that no city shall be allowed to become indebted for more than ten per cent of its assessed real estate. See V. 92, p. 610.]

[On Apr. 27 1914 the Attorney-General, in holding that banks may legally invest in bonds of the City of Minneapolis, Minn., ruled that it is proper to include in the estimate of the valuation of property for purposes of taxation, pursuant to sub-division 5 above, the valuation placed upon money and credits pursuant to Chap. 285 of the 1911 laws of the State of Minnesota. V. 98, p. 1404.

[On Sept. 6 1912 the Attorney-General rendered an opiion, the full text of which was given in the "Chronicle" of Sept. 14 1912, page 700, holding that bonds of the city of Tacoma, Wash., are legal investments.]

[In an opinion rendered Sept. 14 1912, the Attorney-General held that bonds of the City of Dallas, Tex., are legal investments. V. 95, p. 842.]

[Improvement bonds of the City of Portland, Ore., issued pursuant to Section 383A of the city charter are legal investments, according to an opinion of the Attorney-General dated April 5 1913. V. 96, p. 1169.]

[On April 20 1916 the Attorney-General held that bonds of the city of El Paso, Tex., are legal investments. See V. 102, p. 1643.]

[The Attorney-General in 1917 held that bonds of the City of San Francisco, Calif., and of the City of Peoria, Ill., are legal investments. See V. 104, p. 877.]

[Bonds of the City of Newark, N. J., were declared legal investments for savings banks by Attorney-General on July 11 1917.—V. 105, p. 304.

6. In bonds and mortgages on unincumbered real property situated in this State, to the extent of 60% of the appraised value thereof. Not more than 70% of the total assets shall be so loaned or invested. If the loan is on unimproved and unproductive real property, the amount loaned thereon shall not be more than 40% of its appraised value. No investment in any bonds and mortgages shall be made by any savings bank except upon the report of a committee of its trustees charged with the duty of investigating the same, who shall certify to the value of the premises mortgaged or to be mortgaged, according to their judgment, and such report shall be filed and preserved among the records

of the corporation. For the purposes of this subdivision real property on which there is a building in process of construction, which when completed will constitute a permanent improvement, shall be considered improved and productive real property.

7. The following bonds of railroad corporations:

(a) The first mortgage bonds of any railroad corporation of this State the principal part of whose railroad is located within this State, or of any railroad corporation of this or any other State or States connecting with and controlled and operated as a part of the system of any such railroad corporation of this State, and of which connecting railroad at least a majority of its capital stock is owned by such a railroad corporation of this State, or in the mortgage bonds of any such railroad corporation of an issue to retire all prior mortgage debt of such railroad companies respectively provided that at no time within five years next preceding the date of any such investment such railroad corporation of this State or such connecting railroad corporation, respectively, shall have failed regularly and punctually to pay the matured principal and interest of all its mortgage indebtedness, and in addition thereto regularly and punctually to have paid in dividends to its stockholders during each of said five years an amount at least equal to 4% upon all its outstanding capital stock; and provided, further, that at the date of every such dividend the outstanding capital stock of such railroad corporation, or such connecting railroad company, respectively, shall have been equal to at least one-third of the total mortgage indebtedness of such railroad corporations, respectively, including all bonds issued or to be issued under any mortgage securing any bonds, in which such investment shall be made. *If by means of consolidation a railroad corporation shall own and possess the properties and franchises which prior thereto belonged to similar corporations, and if the outstanding capital stock of the railroad corporation formed by such consolidation shall be equal to at least one-third of the total mortgage indebtedness of such railroad corporation, including all bonds issued or to be issued under any mortgage securing any bonds in which such investment shall be made, and if during the five years next preceding such consolidation no one of the consolidating railroad corporations shall have failed regularly and punctually to pay the matured principal and interest of all of its mortgage indebtedness, and if in addition thereto during the five years next preceding such consolidation, the dividends paid in cash by one or more of such consolidating corporations have equaled or exceeded four per centum per annum upon an amount equal to the combined capital stock of the consolidating corporations as outstanding at the time of each dividend payment during such five-year period, such successor railroad corporation formed by such consolidation shall be considered as having regularly and punctually paid such matured principal and interest and such dividends equal to or exceeding four per centum per annum during the same period of five years, provided further that the amount of dividends paid in cash during each of such five years has equaled or exceeded four per centum per annum on the stock of the consolidated corporation as outstanding at the time of such consolidation.* (The part in italics was, as stated above, added in 1915.)

(b) The mortgage bonds of the following railroad corporations: The Chicago & North Western RR. Co., Chicago Burlington & Quincy RR. Co., Michigan Central RR. Co., Illinois Central RR. Co., Pennsylvania RR. Co., Delaware & Hudson Co., Delaware Lackawanna & Western RR. Co., New York New Haven & Hartford RR. Co., Boston & Maine RR. Co., Maine Central RR. Co., the Chicago & Alton RR. Co., Morris & Essex RR. Co., Central RR. of New Jersey, United New Jersey RR. & Canal Co.; also in the mortgage bonds of railroad companies whose lines are leased or operated or controlled by any railroad company specified in this paragraph if said bonds be guaranteed, both as to principal and interest, by the railroad company to which said lines are leased or by which they are operated or controlled. Provided that at the time of making investment authorized by this paragraph the said railroad corporations issuing such bonds shall have earned and paid regular dividends of not less than 4% per annum in cash on all their issues of capital stock for the ten years next preceding such investment, and provided the capital stock of any said railroad corporation shall equal or exceed in amount one-third of the par value of all its bonded indebtedness; and further provided that all bonds authorized for investment by this paragraph shall be secured by a mortgage which is a first mortgage on either the whole or some part of the railroad and railroad property of the company issuing such bonds, or that such bonds shall be mortgage bonds of an issue to retire all prior mortgage debts of such railroad company; provided, further, that the mortgage which secures the bonds authorized by this paragraph is dated, executed and recorded prior to January 1 1905.

(c) The mortgage bonds of the Chicago Milwaukee & St. Paul Railway Co. and the Chicago Rock Island & Pacific Railway Co., so long as they shall continue to earn and pay at least 4% dividends per annum on their outstanding capital stock, and provided their capital stock shall equal or exceed in amount one-third of the par value of all their bonded indebtedness, and further provided that all bonds of either of said companies hereby authorized for investment shall be secured by a mortgage which is a first mortgage on either the whole or some part of the railroad or railroad property actually in the possession of and operated by said company, or that such bonds shall be mortgage bonds of an issue to retire all prior debts of said railroad company; provided, further, that the mortgage which secures the bonds authorized by this paragraph is dated, executed and recorded prior to January 1 1905.

(d) The first mortgage bonds of the Fonda Johnstown & Gloversville RR. Co., or in the mortgage bonds of said railroad company of an issue to retire all prior mortgage debts of said railroad company, and provided the capital stock of said railroad company shall equal or exceed in amount one-third of the par value of all its bonded indebtedness, and provided also that such railroad be of standard gauge of four feet eight and one-half inches and in the mortgage bonds of the Buffalo Creek Railroad Company of an issue to retire all prior mortgage debts of said railroad company, provided that the bonds authorized by th s paragraph are secured by a mortgage dated, executed and recorded prior to Jan. 1 1905.

(e) The mortgage bonds of any railroad corporation incorporated under the laws of any of the United States which actually owns in fee not less han 500 miles of standard-gauge railway, exclusive of sidings, within the United States, provided that at no time within five years next preceding the date of any such investment such railroad corporation shall have failed regularly and punctually to pay the matured principal and interest of all its mortgage indebtedness and in addition thereto regularly and punctually to have paid in dividends to its stockholders during each of said five years an amount *at least equal to 4% upon all its outstanding capital stock; and provided, further, that during said five years the gross earnings in each year from the operations of said company, including therein the gross earnings of all railroads leased and operated or controlled and operated by said company, and also including in said earnings the amount received directly or indirectly by said company from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable during that year upon its entire outstanding indebtedness, and the rentals for said year of all leased lines, and further provided that all bonds authorized for investment by this paragraph shall be secured by a mortgage which is at the time of making said investment or was at the date of the execution of said mortgage, (1) a first mortgage upon not less than 75% of the railway owned in fee by the company issuing said bonds, exclusive of sidings at the date of said mortgage or (2) a refunding mortgage issued to retire all prior lien mortgage debts of said company outstanding at the time of said investment and covering at least 75% of the railway owned in fee by said company at the date of said mortgage. But no one of the bonds so secured shall be a legal investment in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of said company, after deducting therefrom in case of a refunding mortgage the bonds reserved under the provisions of said mortgage to retire prior debts at maturity, shall exceed three times the outstanding capital stock of said company at the time of making said investment. And no mortgage is to be regarded as a refunding mortgage, under the provisions of this paragraph, unless the bonds which it secures mature at a later date than any bond which it is given to refund, nor unless it covers a mileage at least 25% greater than is covered by any one of the prior mortgages so to be refunded.

[*In an opinion rendered by the Attorney-General on Jan. 13 1908, stating that bonds of the Missouri Pacific Ry. Co. were not legal investments for savings banks, owing to the fact that the dividend for the 6 months ending Dec. 31 1907 had been paid with a new issue of stock, he held that the words "an amount" must necessarily mean the payment thereof *in cash*. V.86,p.494.

(f) Any railway mortgage bonds which would be a legal investment under the provisions of paragraph (e) of this subdivision, except for the fact that the railroad corporation issuing said bonds actually owns in fee less than 500 miles of road, provided that during five years next preceding the date of any such investment the gross earnings in each year from the operations of said corporation, including the gross earnings of all lines leased and operated or controlled and operated by it, shall not have been less than ten million dollars.

(g) The mortgage bonds of a railroad corporation described in the foregoing paragraph (e) or (f) or the mortgage bonds of a railroad owned by such corporation, assumed or guaranteed by it by indorsement on said bonds, provided said bonds are prior to and are to be refunded by a general mortgage of said corporation, the bonds secured by which are made a legal investment under the provisions of said paragraph (e) or (f); and provided, further, that said general mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien.

(h) Any railway mortgage bonds which would be a legal investment under the provisions of paragraph (e) or (g) of this subdivision, except for the fact that the railroad corporation issuing said bonds actually owns in fee less than 500 miles of road, provided the payment of principal and interest of said bonds is guaranteed by indorsement thereon by, or provided said bonds have been assumed by a corporation whose first mortgage is, or refunding mortgage bonds are, a legal investment under the provisions of paragraph (e) or (f) of this subdivision. But no one of the bonds so guaranteed or assumed shall be a legal investment in case the mortgage securing the same shall authorize a total issue of bonds which, together with all the outstanding prior debts of the corporation making said guaranty or so assuming said bonds, including therein the authorized amount of all previously guaranteed or assumed bond issues, shall exceed three times the capital stock of said corporation at the time of making said investment.

(i) The first mortgage bonds of a railroad the entire capital stock of which, except shares necessary to qualify directors, is owned by, and which is operated by a railroad whose last issued refunding bonds are a legal investment under the provisions of paragraph (a), (e) or (f) of this subdivision, provided the payment of principal and interest of said bonds is guaranteed by endorsement thereon by the company so owning and operating said road, and further provided the mortgage securing said bonds does not authorize an issue of more than $20,000 in bonds for each mile of road covered thereby. But no one of the bonds so guaranteed shall be a legal investment in case the mortgage securing the same shall authorize a total issue of bonds which together with all the outstanding prior debts of the company making said guaranty, including therein the authorized amount of all previously guaranteed bond issues, shall exceed three times the capital stock of said company, at the time of making said investment. Bonds which have been or shall become legal investments for savings banks under any of the provisions of this section shall not be rendered illegal as investments, though the property upon which they are secured has been or shall be conveyed to another corporation, and though the railroad corporation which issued or assumed said bond has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds and shall continue to pay regularly interest or dividends or both upon the securities issued against, in exchange for or to acquire the stock of the company consolidated or the property purchased or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to 4% per annum upon the capital stock outstanding at the time of such consolidation or purchase of said corporation which has issued or assumed said bonds. Not more than 25% of the assets of any savings bank shall be loaned or invested in railroad bonds, and not more than 10% of the assets of any savings bank shall be invested in the bonds of any one railroad corporation described in paragaph (a) of this subdivision, and not more than 5% of such assets in the bonds of any other railroad corporation. In determining the amount of the assets of any savings bank under the provisions of this subdivision its securities shall be estimated in the manner prescribed for determining the per centum of par value surplus by Section 257 of this article. Street railroad corporations shall not be considered railroad corporations within the meaning of this subdivision.

The time during which any railroad is operated by the Government of the United States under the provisions of an Act of Congress approved Aug. 29 1916, an Act of Congress approved March 21 1918, or any other Act of Acts of the Congress of the United States, and four years thereafter, and the earnings made and dividends paid during said time and said four years thereafter shall not be taken into consideration in determining whether the bonds of the railroad corporation comply with any of the provisions of this section. Any railroad corporation which, at the time that the operation of its railroad by the Government of the United States under the provisions of such Act or Acts began, had complied with the provision of paragraph (e) of this subdivision for one or more years next preceding the commencement of such Government operation and control shall be entitled to include in computing the period of five years prescribed by the provisions of said paragraph (e) each year a portion of which its railroad shall have been operated by the Government of the United States under the provisions of such Act or Acts, and the four years succeeding the termination of such operation, in determining whether such corporation has complied with the provisions of said paragraph (e) each year for five years as required by said paragraph. Except as hereinbefore provided, whenever a reference is made in this subdivision to a period of five years preceding the date of an investment in the bonds of any railroad corporation, such period shall be deemed exclusive of any time during which the property of such railroad corporation has been operated by the Government of the United States under the provisions of such Act or Acts, and of the four years succeeding the termination of such operation. Any bonds acquired prior to the passage of this amendment and at any time hereafter which comply with the provisions of this section as amended may so long as they continue to comply herewith be retained as investments authorized by law.

8. (*a*) Promissory notes payable to the order of the savings bank upon demand, secured by the pledge and assignment, if necessary, of the stocks or bonds of any of them enumerated in sub-divisions one, two, three, four five and ten of this section or by the railroad bonds or any of them mentioned and described in sub-division seven of this section, but no such loan shall exceed ninety per centum of the cash market value of such securities so pledged. Should any of the securities so held in pledge depreciate in value after the making of such loan, the savings bank shall require an immediate payment of such loan or of a part thereof or additional security therefore, so that the amount loaned thereon shall at no time exceed ninety per centum of the market value of the securitieso pledged for such loan.

(*b*) Promissory notes made payable to the order of a savings bank upon demand by a savings and loan association of this State which has been incorporated for three years or more and has an accumulated capital of at least fifty thousand dollars.

(*c*) Promissory notes made payable to the order of the savings bank within 90 days from the date thereof secured by the assignment and pledge to it of one or more first mortgages on real estate situated in the State of New York, provided that the amount of any such note is not in excess of 60% of the appraised value in the case of improved real estate, or 40% in the case of unimproved or unproductive real estate, of the property or properties mortgaged; that the amount of any such loan shall not exceed 75% of the principal sum secured by said mortgage or mortgages; that the value of said properties has been certified in accordance with the provisions of Sub-division 6 of this section; that the assignment of each of such mortgages has been recorded in the proper offices and the provisions of Section 241 of this chapter with reference to the title of the property and the insurance upon the buildings, covered by such mortgage or mortgages, shall have been fully complied with. Such loans shall be considered mortgage loans and the amount thereof, together with all direct loans by any such savings bank upon bonds and mortgages shall not exceed 65% of the whole amount of the deposits and the guaranty fund of any such savings bank.

(*d*) Promissory notes made payable to the order of the savings bank within 90 days from the date thereof, secured by the pledge and assignment of the passbook of any savingsbank in the State of New York, as collateral security for the payment thereof. No such loan shall exceed 100% of the balance due the holder of such passbook as shown therein.

9. Real estate as follows:

(*a*) A plot whereon there is or may be erected a building or building suitable for the convenient transaction of the business of the savings bank from portions of which not required for its own use a revenue may be derived.

(*b*) Such as shall be conveyed to it in satisfaction of debts previously contracted in the course of its business.

(c) Such as it shall purchase at sales under judgments, decrees or mortgages held by it.

The trustees of a savings bank shall not be held liable for investing in State or municipal bonds named in the last list furnished by the Superintendent of Banks pursuant to Section fifty-two of Article two of this chapter, or in any railroad bonds mentioned in such list, which have been legally issued and properly executed, unless such savings bank shall have been notified by the Superintendent of Banks that, in his judgment, such bonds do not conform or have ceased to conform to the provisions of this section

10. Bonds of the Land Bank of the State of New York.

10a. Farm Loan bonds issued by the Federal Land Bank of the First Land Bank District as created pursuant to the Federal Farm Loan Act, approved July 17 1916.

11. Bankers' acceptances and bills of exchange of the kind and maturities made eligible by law for purchase in the open market by Federal Reserve banks, provided the same are accepted by a bank, national banking association, trust company or investment company qualified to exercise the powers specified in subdivision 1-a of Section 293 of the Banking Law, incorporated under the Laws of the State of New York or under the laws of the United States and having its principal place of business in the State of New York. Not more than 20% of the assets of any savings bank less the amount of the available fund held pursuant to the provisions of Section 251 of this chapter, shall be invested in such acceptances. The aggregate amount of the liability of any bank, national banking association or trust company to any savings bank for acceptances held by such savings bank and deposits made with it, or of any such investment company to any savings bank for acceptances held by such savings bank, shall not exceed 25% of the paid up capital and surplus of such bank, national banking association, trust company or investment company, and not more than 5% of the aggregate amount credited to the depositors of any savings bank shall be invested in the acceptances of or deposited with a bank, national banking association or trust company of which a trustee of such savings bank is a director, or invested in the acceptances of any such investment company of which a trustee of such savings bank is a director.

SUPERINTENDENT MUST FURNISH SAVINGS BANKS LIST OF LEGAL INVESTMENTS.—Section 52 of Article II of the General Banking Law reads as follows:

On or before the first day of January, 1915, and on or before the first day of January in each and every year thereafter, the Superintendent of Banks shall mail to each savings bank in the State a list containing the names of States and municipalities, the bonds of which, in his judgment, if legally issued and properly executed, conform to the requirements of Section 239 of this Chapter, and also as complete a list as is practicable of railroad bonds which, in his judgment, if legally issued and properly executed, conform to the provisions of said Section.

For list of bonds considered legal investments on Jan. 1 1927, see "Chronicle" of April 16 1927, pages 2325 and 2326.

TRUST FUNDS—HOW LOANED OR INVESTED.—Section 111 of Chapter 18, Laws of 1909, relates to the investment of trust funds. It permits executors, administrators, guardians, &c., to invest in the same securities as savings banks. The law was amended by Chapter 593, Laws of 1922, and was again amended in 1925 by Chapter 604, Laws of 1925, so as to allow the investment of trust funds in parts of mortgages and bonds executed by banks authorized to conduct a trust department, as well a by trust companies and title guaranty corporations. In 1926, by Chapter 307, Laws of 1926, the law was further amended. The amendment adds for investment parts of mortgages and bonds executed by any national bank located in the State of New York and duly authorized to act as trustee therein. We give below the text of Section 111, as it now stands, placing the matter added in 1926 in italics:

Section 111. Investment of trust funds. An executor, administrator, trustee or other person holding trust funds for investment may invest the same in the same kind of securities as those in which savings banks of this State are by law authorized to invest the money deposited therein, and the income derived therefrom, and in bonds and mortgages on unincumbered real property in this State worth fifty per centum more than the amount loaned thereon, and in shares or parts of such bonds and mortgages, provided that any share or part of such bond and mortgage so held shall not be subordinate to any other shares thereof and shall not be subject to any prior interest therein, and provided further that bonds and mortgages in parts of which any fiduciary may invest trust funds together with any guaranties of payment, insurance policies and other instruments and evidences of title relating thereto shall be held for the benefit of such fiduciary and of any other persons interested in such bonds or mortgages by a trust company, a bank authorized to conduct a trust department, *or a national bank located in this State and duly authorized to act as a trustee therein*, or title guaranty corporation organized under the laws of this State, and that a certificate setting forth that such corporation holds such instruments for the benefit of such fiduciary and of any other persons who may be interested in such bond and mortgage among whom the corporation holding such instruments may be included, be executed by such corporation and delivered to each person who becomes interested in such bond and mortgage. Every corporation issuing any such certificate shall keep a record in proper books of account of all certificates issued pursuant to the foregoing provisions. An executor, administrator, trustee or other person holding trust funds may require such personal bonds or guarantees of payment to accompany investments as may seem prudent, and all premiums paid on such guarantees may be charged to or paid out of income, providing that such charge or payment be not more than at the rate of one-half of one per centum per annum on the par value of such investments. But no trustee shall purchase securities hereunder from himself. Whenever any trust funds are invested in the shares of a savings and loan association, organized under the laws of this State, at the time said funds shall come into the possession of any executor, administrator, trustee or other person, entitled to hold the same, the investment of such funds in the shares of such savings and loan association may be continued, provided, however, the total amount of trust funds invested in the shares of such savings and loan association shall not exceed the amount of its guaranty fund.

Chapter 604, Laws of 1925, also amended Section 21, Laws of 1909, which section is, as regards investments by trust funds, substantially the same as Section 111. The amendment to Section 21 is the same as to Section 111 referred to above. Section 21 was again amended in 1926, also by Chapter 307, Laws of 1926, and as was the case in 1925, the 1926 amendment to Section 21 is identical to that made to Section 111.

INT. payable at Bank of America, N. Y., Chemical Nat. Bk., N. Y., Bank of Manhattan, Guaranty Trust Co., and in Albany.

	Jan. 1 '26.	*Jan.* 1 '27.
Gen. bonds	$11,762,198	$15,470,647
Water bonds	2,828,500	3,011,000
Total bds.	$14,590,698	$18,481,647
Sink. funds	1,481,379	1,283,333
Net debt*	$13,109,319	$17,198,313

* Of this figure, $360,634 is for water sinking fund. The net general debt Jan. 1 1927 was $13,826,679 and the net water debt $3,011,000, making the total of $17,198,313.

In addition to the above there are outstanding street improvement assessment bonds amounting on Jan. 1 1927 to $2,492,340.

This city owns and operates its water system, and the principal and interest of the water debt are paid out of water rent receipts.

HEMPSTEAD, TOWN.
Hempstead (Inc. April 17 1784) is now in Nassau Co., but was formerly in Queens Co., then including Far Rockaway, Hempstead, Inwood, Lawrence, Rockaway Beach and Cedarhurst villages. It now includes villages of Rockville Center, Freeport, Lynbrook, Hempstead, Floral Park, Garden City, Bellrose, Valley Stream, Malvern, Jamaica Square, East Rockaway, Woodsburgh, Lawrence, Cedarhurst, Island Park and Hewlett Point, as well as communities like Baldwin, Roosevelt, Oceanside, Bellmore and Wantaugh. On Jan. 1 1898 that portion of the town lying "westerly of a straight line drawn from the southeasterly point of the town of Flushing through the middle of the channel between Rockaway Beach and Shelter Island, in the County of Queens, to the Atlantic Ocean," became part of New York City, under the Greater New York Charter. This boundary was changed by the Legislature in April 1899, and the new boundary is that portion of the old town of Hempstead "bounded on the east and north by the east and north bounds of the former village of Far Rockaway, and on the east by a line drawn due north from the northwest corner of said village to the south line of the Town of Jamaica, as it existed on the thirty-first day of December 1897." The bonds given below are those remaining as a debt against the town after assigning to New York City the portion belonging to it according to a decision of the Supreme Court of the Third Judicial District at Albany Dec. 9 1899. See V. 69, p. 1357.

NEW YORK CITY. James J. Walker, Mayor; Charles W. Berry, Comptroller.

The consolidation provided under the Greater New York Charter became effective Jan. 1 1898, and New York City now includes Kings County, Richmond County and the following portions of Queens County, namely Long Island City, the towns of Newtown, Flushing and Jamaica, and part of the town of Hempstead. The Legislature in 1912 enacted a law (Chap. 548, Laws 1912) providing for the creation of the County of The Bronx out of the Borough of The Bronx. The bill was subject to referendum of the citizens of the borough in November 1912 and was favorably passed upon at that time, but on Jan. 17 1913 was declared unconstitutional by the Appellate Division of the Supreme Court. V. 96, p. 299. This decision was reversed, however, by the Court of Appeals on March 14 1913. V. 96, p. 810. In 1917 a bill was passed providing for setting off the Fifth Ward of Queens (constituting the villages of Far Rockaway, Arverne and Rockaway Beach) to constitute what was to be known as the city of Rockaway. This measure, however, was vetoed by the Mayor. A similar bill was passed by the Legislature in 1915, but this too was defeated at the hands of the Mayor. The following statement includes all of the funded debt of the former City of New York and of the municipalities in Brooklyn, Queens and Richmond which was recorded at the date of consolidation; also such additional amounts as were recorded in subsequent years as being funded obligation of said former municipalities to be assumed by the City of New York. These figures do not include $2,007,600 revenue bonds of the former City of New York outstanding Jan. 1 1898 and redeemable from its tax levy of 1897 nor $4,060,000 of revenue bonds or certificates of indebtedness of the former city of Brooklyn outstanding Jan. 1 1898, but redeemable from its tax levy for the year 1898.

DEBT OF GREATER CITY AT CONSOLIDATION JAN. 1 1898.

	Tot. Funded Debt.	*Sinking Fund.*	*Net Debt.*
Manhattan & The Bronx	‡$226,144,311.28	$85,654,317.52	$140,489,993.76

NEW YORK CITY (*Continued*).

The funded debt as given above is exclusive of general fund bonds as follows: $8,500,000 Jan. 1 1904; $18,000,000 Jan. 1 1905; $29,000,000 Jan. 1 1906; $40,750,000 Jan. 1 1907; $54,250,000 Jan. 1 1908; $68,750,000 Jan. 1 1909; $85,500,000 Jan. 1 1910; $102,500,000 Jan. 1 1911; $120,000,000 Jan. 1 1912; $137,500,000 Jan. 1 1913; $159,500,000 Jan. 1 1914; $183,000,000 Jan. 1 1915; $206,000,000 Jan. 1 1916; $229,500,000 Jan. 1 1917; $254,500,000 Jan. 1 1918; $281,500,000 Jan. 1 1919; $310,000,000 Jan. 1 1920; $342,500,000 Jan. 1 1921; $376,500,000 Jan. 1 1922; $414,000,000 Jan. 1 1923; $452,500,000 Jan. 1 1924; $492,000,000 Jan. 1 1925; $533,000,000 Jan. 1 1926, and $576,250,000 Jan. 1 1927. There is also excluded from the above table tax notes which on Jan. 1 1918 amounted to $4,600,000; on Jan. 1 1919, $3,500,000; 1920, $2,050,000; 1921, $3,961,000; 1922, $5,000,000; $2,500,000, 1923; $3,700,000, 1924; $7,000,000 1925; $18,500,000 1926, and $16,500,000 Jan. 1 1927. None outstanding at previous dates.

The table below of the City's funded debt as at Dec. 31 1926, is designed, to first present the total outstanding amount of bonds which have been issued to finance undertakings that are largely, or in part, self-carrying. In the first group (Group "A"), therefore, are shown the total amounts of water bonds, rapid transit bonds, docks and ferries bonds, and assessment bonds payable from assessments. These make a combined total of $783,644,971, of which the city's sinking funds hold $118,615,851 and the public holds $665,029,120.

The water revenues actually realized each year are sufficient to meet all administration, operation and maintenance charges of the Water Supply Department per se, and to provide annual interest payments on and set aside a sum sufficient to amortize and redeem the principal of the water bonds outstanding. The remainder of the water debt represented by corporate stock notes outstanding reflects to a great extent amounts expended for the Catskill and Schoharie aqueducts still in course of construction and in the extension of the distribution system throughout the Greater City. It may be here stated that all of the water bonds and notes issued for debt incurred for water supply since Jan. 1 1904 are exempted from the debt limit under the provisions of the State Constitution.

Of the rapid transit bonds $51,013,724 86 have been exempted by the Appellate Division in accordance with the provisions of the State Constitution. The lessee of the subway is now paying interest and annual installments to the Sinking Fund on over $56,842,000. Consequently, of the total amount of rapid transit bonds outstanding as shown in the table herewith submitted, over $57,000,000 are self-carrying.

The revenues realized by the city from the operation of the Dock Department are sufficient to meet all administration, operation and maintenance expenses, together with interest and amortization charges on nearly $70,000,000 ($69,943,053) of Dock Bonds, which in consequence were exempted from the constitutional debt of the City by the Appellate Division of the Supreme Court in accordance with certain provisions of the State constitution.

The bonds which are fourth in order of arrangement in Group "A" are assessment bonds issued by the city payable from assessments levied against property presumably benefited by the improvements made and to finance which these assessment bonds were issued. If the total interest on these bonds was payable and the entire principal was redeemable from the proceeds of special assessments laid for that purpose it would mean that all of these bonds were also fully self-carrying; but as the city in many cases has to assume a certain percentage of the assessments levied for certain improvements made, it follows that only a proportion of these assessment bonds is payable principal and interest from the proceeds of assessments laid for that purpose. A careful estimate of the proportion of assessment bonds on which interest and principal may ultimately require to be provided for by the city would place such as not exceeding 15% of the total amount thereof shown in Group "A."

A conservative approximation, therefore, of the total amount of self-carrying bonds contained in Group "A", based on actual figures and careful estimates, would indicate that there are from $380,000,000 to $390,000,000 of these which can be so regarded.

The succeeding classifications in Groups "B" and "C" consist of bonds issued for schools and sites, libraries and sites, city parks and places, bridges, streets, public buildings—including hospitals, charities, health, fire, police, correction, &c.; streets, highways; to cover deficiencies in tax collections, &c. The interest on these is provided for by annual tax levy together with the annual installments required to amortize and ultimately redeem the principal of such bonds.

Classification According to Function or General Purpose.	*Gross Funded Debt, viz., Total Amount Outstanding.*	*Purchased and Held by Sinking Funds.*	*Purchased and Held by Public.*	*Corporate Stock Notes Outstanding*

Grand totals of funded debt	2,127,448,787	856,445,141	1,271,003,646	109,795,000

(1) Includes the amounts outstanding expended in the acquirement of property for and in the construction of the new Municipal Building—$18,624,878.78.

(2) Of these, $22,840,579.40 were issued in 1910, 1911, 1912, 1913, 1915 and 1916 for deficiencies in taxes of 1904 and prior years.

(3) Of the total funded debt, the following amounts are exempted under the State Constitution and decisions of the Appellate Division of the Supreme Court from inclusion in the debt limit:

Water bonds and notes	$269,956,631.86
Rapid transit bonds	51,013,724.86
Dock bonds	69,943,053.55
County bonds	2,142,114.35
	$393,055,524.62

(4) Represents the amount of surplus revenue of sinking fund No. 1, applied toward reduction of current taxation; these bonds are held by sinking fund No. 1.

ASSESSED VALUATION OF PROPERTY.—The aggregate taxable valuations of property in the year 1926, by boroughs, are as follows: (a) Exclusive of the real estate valuations exempt from taxation for local purposes; (b) the valuations of such exempt realty; and (c) the grand totals of the assessed valuations of all property.

	Non-exempt Valuations			*Exempt*	*Grand Total*
	Real Estate.	*Personal.*	*Total.*	*Real Estate.*	*Assess'd Val'ns*
	$	$	$	$	$
Manhat'n	7,785,110,325	189,331,650	7,974,441,975	70,867,500	8,045,309,475

* No assessment or tax in 1898.

a Includes $248,170,325 exempted real estate.

In 1903 the assessment of real estate was made on the basis of about real value; 1903 and subsequent values, therefore, were greatly in excess of those for previous years, and consequently the tax rate is much lower.

[Under a law passed by the 1911 Legislature, the collection of taxes takes place semi-annually instead of annually, as heretofore. V. 93, p. 63.]

[State Supreme Court early in 1916 decided against the city in its efforts to have value of bank shares excluded from personal tax valuation in levying direct State tax. See "Chronicle" of Mar. 4 1916, page 906.]

[The State Supreme Court upholds the city's right to make its own appraisal of personal property of foreign corporations. See "Chronicle" of May 27 1916, page 2005.]

[The sum of $18,439,335, which the city had been carrying as an asset for the previous eleven years and representing unsatisfied claims against 92,844 persons for personal taxes from 1899 to 1905, inclusive, was wiped from the city's books by the Board of Estimate on Oct. 13 1916. V. 103, p. 1528.]

[The City Comptroller on May 1 1917 issued a report dealing with the city's experience in connection with the imposition and subsequent liquidation of the special franchise tax. See V. 104, p. 1761.]

OPERATION OF CITY BUS LINES HELD ILLEGAL BY STATE COURT OF APPEALS.—The State Court of Appeals in a decision handed down on Oct. 6 1925 ruled that the city had no authority under the Home Rule Amendment to the State Constitution adopted by the voters in November 1923 or the Enabling Act, passed by the 1924 Legislature, carrying the amendment into effect, to operate municipally owned automobile passenger buses (V. 121, p. 1817).

PAY-AS-YOU-GO POLICY.—On May 20 1916 the Governor signed the bill approved by the 1916 Legislature providing for the incorporation in the city charter of the pay-as-you-go policy. See "State and City Department" of "Chronicle" for May 27 1916.

In 1918, however, the State Legislature passed a bill which was later approved by both the Mayor and Governor for the relief in financing this city's obligations during the period of the war and one year thereafter in reference to the issuance of corporate stock and serial bonds. The new law permits the city to issue, in addition to corporate stock and serial bonds now authorized by law, $15,000,000 in bonds or corporate stock each year, dating from Jan. 1 1918, for the period of the war and for one year thereafter, the proceeds to be used in needed public improvements. The full text of the law will be found in the "Chronicle" of April 13 1918, page 1596.

At the 1923 legislative session another Act (constituting Chapter 754, Laws of 1923), allowing the city to create indebtedness in excess of the debt limit was enacted. This measure allowed the city to issue $10,000,000 long-term obligations during the calendar year 1923 for permanent improvements, regardless of limitations in any other statutes.

At 1924 session of the State Legislature a bill permitting this city to build all subways and transit extensions after July 1 1924 was passed. The more important features of the bill were published in V. 118, p. 3079, under the caption "Rapid Transit in New York City."

The 1926 State Legislature passed a resolution proposing an amendment to the State Constitution exempting $300,000,000 from the city's debt limit to aid subway construction. The measure was again approved by the 1927 Legislature and will be submitted to the voters in Nov. 1927.

NEW YORK CITY *(Continued)*.

GENERAL FUND BONDS.—A new kind of bond (known as the "General Fund Bonds") was created by the Legislature in 1903. It is issued for the purpose of releasing the surplus revenues of the sinking fund of the old City of New York, and to allow the money to be applied to the reduction of taxation. Under the law the bonds will be issued only in the way indicated, and they will be taken for account of sinking fund for redemption of the city debt No. 1. See V. 76, p. 610. Up to Dec. 31 1926 $576,250,000 of these bonds had been issued.

APPROPRIATIONS.—The total appropriation for Greater New York in 1898 was $77,473,084; in 1900 it was $90,778,972; for 1902 it was $98,619,600; for 1904, $106,674,955; for 1906, $116,805,490; for 1908, $143,572,266; for 1910, $163,130,270; for 1912, $181,000,657; 1914, $192,995,551; for 1915, $198,989,786; for 1916, $212,956,155.81 (including $13,975,000 apportioned to N. Y. City as its share of the direct State tax of $20,000,000); for 1917, $211,114,136.82 (no direct State tax in 1917); for 1918 the appropriations were $238,123,759.20 (including $8,463,756 apportioned to New York City as its share of the direct State tax of $12,800,000), in 1919 $248,025,434.88, including a State tax amounting to $8,522,629 61; in 1920 $273,689,485, including a State tax amounting to $8,539,156; in 1921 $345,540,039.77, including State tax aggregating $22,041,183; in 1922, $350,601,570.07 including State tax aggregating $14,430,513.24; in 1923, $353,350,975.67, including State tax aggregating $12,595,623.67; in 1924, $375,968,000.08, including State tax aggregating $20,294,406.54; in 1925, $399,618,885.44, including State tax aggregating $16,236,971.46; in 1926, $437,000,000, including State tax aggregating $17,564,808.49, and in 1927, $474,893,300, including State tax aggregating $12,622,698. The 1917 Legislature passed a bill providing for a direct tax of 1.08 mills, in 1918 for 1.06 mills, in 1919 for 1.06055 mills, in 1920 for 2.695 mills, in 1921 for 1.5043 mills, in 1922 for 2.915 mills, in 1923 for 2 mills, in 1924, 1925 and 1926 for 1.50 mills, and in 1927 1 mill.

On April 26 1917 a bill was signed by the Governor providing that hereafter this city shall have a tentativc budget. Under the terms of the measure a budget setting forth every expense in items must be prepared and must be ready by Oct. 10 for public discussion. It is further provided that the Board of Estimate and Apportionment must file with its Secretary on Oct.20 each year, a copy of the proposed budget, after which date no item is to be added, nor any item already in the budget increased. Between Oct. 20 and the date of adoption of the budget any item, however, may be decreased or dropped.

POPULATION *(U. S. Census figures)*—

	1920	1910		1920.	1910.
Greater N. Y.	5,621,151	4,766,883	Boro. of Queens.	469,042	284,041
Man. & Bronx	3,016,119	2,762,522	Boro. of Rich'd.	116,531	85,969
Boro. of Br'klyn	2,018,356	1,634,351			

The population of the Greater City, according to the State Census for 1915, is officially reported as 5,047,221, and for 1925 as 5,873,356.

DETAILS OF INDEBTEDNESS.

The tables which follow give full details regarding the indebtedness of the consolidated city and the various boroughs and other divisions forming part of it. The loans marked (s f) are held in the sinking fund.

FUNDED DEBT OF THE CITY OF NEW YORK.

(As Constituted from January 1 1898.)

Payable from the sinking fund of the City of New York under the provisions of Sections 206 of the Greater New York Charter.

COUNTY OF QUEENS.

The debt of the county of Queens is reported under the county's own name on a subsequent page; the amount of the original debt which was chargeable to the City of New York was adjudicated finally to be $3,796,032.11, leaving $1,011,967.89 as Nassau County's share of the old indebtedness. Instead of apportioning certain bonds to N. Y. City and to Nassau County, the debt and interest is not divided, but N. Y. City pays 78.952414973% of the principal and interest as it becomes due, and Nassau County 21.047585027%. The Comptroller of N Y. City acts as agent in the payment of the debt. The amount of Queens County bonds outstanding on Dec. 31 1925 was $190,000, of which $150,009.62 was chargeable to New York City. For details of bonds see "Queens County" on a subsequent page.

PORT OF NEW YORK AUTHORITY.
The Port of New York Authority is a municipal corporate instrumentality created by a treaty between the States of New York and New Jersey, with the approval of the Congress of the United States. The Port District has an estimated population of 8,000,000 and comprises roughly the territory within a line drawn from Port Chester across through White Plains, over to Yonkers, across the Hudson River to Piermont, down on the Jersey side, passing behind Passaic and Paterson and taking in all the industrial territory of Hoboken, Jersey City, Newark, all the way to South Amboy, across again to the New York side, including the complete area of the City of New York.

4½s '26 M-S $14,000,000r*----------March 1 1932-46
(For amount due each year, see V. 122, p. 1508.)
(Optional at 105 upon 30 days' notice on any interest-payment date on or after Dec. 1 1936.)
4s '26 J-D $7,000,000r*, Dec. 1 1936-42; $9,000,000r*, Dec. 1 1943-48; $4,000,000r*, Dec. 1 1949-50.
INT. on bonds, payable in gold, at the National City Bank, N. Y. City.
The $14,000,000 and $20,000,000 issues are for the purpose of constructing two bridges between New Jersey and Staten Island and a bridge across the Hudson between 170th and 185th streets, respectively, at an estimated aggregate cost, including interest during the period of construction, of $16,706,000, and $50,000,000, respectively. The estimates of cost allow liberal margin for contingencies, but in the remote event that additional funds are required the Port Authority has power to issue such additional bonds as are necessary. The States of New York and New Jersey are advancing jointly the sums of $4,000,000 and $10,000,000, respectively, each payable in five equal annual installments, beginning in 1925 and 1927, respectively, toward the construction of these bridges. By the terms of the Acts authorizing these advances, repayments are specifically subordinated to the obligations of the Port Authority on these bonds.
These bonds are direct and general obligations of the Port of New York Authority and, in the opinion of counsel, will be secured by a first lien or charge upon the revenues and tolls arising out of the use of the two bridges. The Port Authority covenants to establish and maintain adequate tolls and charges for the operation and maintenance of the bridges, payment of interest and principal and payments to reserve fund, and the performance of this duty may be compelled by any court of competent jurisdiction upon application by any bondholder.

QUEENS COUNTY.
County seat is Jamaica. A large part of the old County of Queens is now included in the Greater New York, and a law changing the name of that portion of the old county *outside* of Greater New York to Nassau County went into effect Jan. 1 1899. The amount of outstanding bonds of this county which will be chargeable to the City of New York has been finally determined by the Supreme Court (V. 71, p. 875). Under this decision the City of NewYork was made liable for $3,796,032.11 of the old debt of Queens County as it stood at the date of division, and the remaining $1,011,967.89 became an obligation of Nassau County. Instead of apportioning certain bonds to New York City and to Nassau County, the debt and interest is not divided. New York City pays 78.952414973 of the principal and int as it becomes due and Nassau Co. 21.047585027. The Comptroller o New York City acts as agent in the payment of the debt.

INT. in New York Exchange.

SUMMARY OF DEBT JUNE 1 '27

Water bonds	$2 989,189
Other bonds	23,242,338
Total	$26,231,527

The full faith and credit of the city are pledged to the payment of all bonds of the city.

Prior to Jan. 1 1908, the School Bonds were issued by the Board of Education and the water bonds by the Water Board. Since the date referred to, however, all bonds of the city have been issued under the Uniform Charter for cities of the second class. Chapter 452 of the Laws of 1908 repeals the Acts under which the Board of Education and the Water Board were created separate bodies.

CITY PROPERTY.—Real estate owned by the city is assessed at $13,997,887.36, including water works valued at $4,545,186.53.

ASSESSED VALUATION.—The city's assessed valuation has been:

	1927.	1924.

Admitted as a State ---------- One of Original Thirteen
Total area of State (square miles) ---------- 7,815
State Capital ---------- Trenton
Governor (term expires Jan. 14 1929) ---- A. Harry Moore
Sec. of State (term exp. July 26 '32) - Joseph F. S. Fitzpatrick
Treasurer (term expires Apr. 1 1928) ------ William T. Read
Comptroller (term expires Feb. 20 '29) - Newton A. K. Bugbee
Atty.-Gen. (term expires Feb. 4 1929) - Edw. L. Katzenbach

LEGISLATURE meets annually the second Tuesday of January, and there is no limit to the length of the session.

HISTORY OF DEBT.—New Jersey has always been a conservative State; there are consequently no facts out of which to construct a history of debt issues. In a report made in 1838 the financial officer of the State affirmed that New Jersey had put out no obligations of any kind or loaned its credit to any company. The constitution of 1844 forbade the creation of a State debt exceeding one hundred thousand dollars *except* for purposes of war, &c. This exception, under which it was allowable to exceed the hundred-thousand-dollar limit, became operative on the occasion of the breaking out of the Civil War. Quite a debt was created at that period. The last of these war bonds was retired on Jan. 1 1902.

TOTAL DEBT.—From Jan 1 1902 to 1921, when $12,000,000 soldier bonus bonds and $5,000,000 highway bonds were issued, the debt amounted to only $116,000. Beginning in 1921 the State debt gradually mounted until on June 30 1926 it totaled 67,116,000. Included in this total are $116,000 certificates of the State issued to the Agricultural College. The details of bonded debt follow:

INT. on the soldiers' bonus bonds and bonds marked (*) payable at the Mercer County Trust Co., Trenton; on other highway bonds at the Mechanics Nat. Bank, Trenton, and on bridge bonds at the Broad Street Nat. Bank, Trenton.

At previous dates the debt was:

Nov. 1 1901	$71,000	Nov. 1 1895	$660,400
Nov. 1 1898	194,000	Nov. 1 1894	735,400
Nov. 1 1897	394,000	Nov. 1 1880	1,996,300
Nov. 1 1896	593,400	Nov. 1 1866	3,395,200

On June 30 1926 the cash balance of the State Fund in bank was $10,620,-184.04. This fund also held on the same date 1,887 shares (par value $188,700) of the stock of the United Railroad & Canal Co., of New Jersey, the market value of which amounts to about $188,700. The State School Fund on June 30 1926 held securities to the amount of $10,560,234.51, cash balance on hand for investment, $151,067.44.

ASSESSED VALUATION.—The assessed valuation for a series of years has been as below.

1926	$5,443,448,817	1915	$2,583,953,595	1894	$774,398,332
1925	4,756,154,259	1914	2,481,605,038	1892	742,759,082
1924	4,543,700,692	1912	2,289,770,281	1890	649,979,700
1923	4,385,064,662	1910	2,045,898,214	1888	603,676,953
1922	3,797,507,447	1909	1,949,687,287	1886	573,256,303
1921	3,519,841,269	1908	1,843,001,178	1884	554,828,114
1920	3,254,964,269	1906	1,570,210,073	1882	534,917,876
1919	3,032,164,104	1905	1,153,682,961	1880	518,617,518
1918	3,030,926,010	1900	891,237,286	1878	531,851,849
1917	2,888,117,701	1898	844,354,193	1876	596,833,707
1916	2,696,314,011	1896	794,428,048	1874	619,057,903

In addition to the above, valuation of main stem, tangible personal and franchises of railroad property in 1912 was $327,647,993, in 1913 329,595,655, in 1914 334,738,372, in 1915 344,947,959, in 1916 $349,-195,216, in 1917 $358,440,155, in 1919 $246,621,381, in 1920 $250,806,026, in 1921 $390,229,448, in 1925 $414,238,890, in 1923 $418,204,155, in 1924 $442,275,361, in 1925 $448,802,259, and in 1926, $455,497,518.

* Includes school debt.

POPULATION OF STATE.—Population has been as follows:

1920	3,155,900	1880	1,131,116	1830	320,823
1915	2,844,342	1870	906,096	1820	277,575
1910	2,537,167	1860	672,035	1810	245,562
1905	2,144,134	1850	489,555	1800	211,149
1900	1,883,669	1840	373,306	1790	184,139
1890	1,444,933				

DEBT LIMITATIONS.—(1) *THE STATE* is restricted as to its debt-making power by the State Constitution. In Article IV, Section VI, paragraphs 3 and 4, the whole subject is disposed of as follows:

3. The credit of the State shall not be directly or indirectly loaned in any case.

4. The Legislature shall not in any manner create any debt or debts, liability or liabilities of the State which shall singly or in the aggregate, with any previous debts or liabilities, at any time exceed one hundred thousand dollars, except for purposes of war, or to repel invasion, or to suppress insurrection, unless the same shall be authorized by a law for some single object of work, to be distinctly specified therein; which law shall provide the ways and means, exclusive of loans, to pay the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within thirty-five years from the time of the contracting thereof, and shall be irrepealable until such debt or liability and the interest thereon are fully paid and discharged; and no such law shall take effect until it shall, at a general election, have been submitted to the people, and have received the sanction of a majority of all the votes cast for and against it at such election; and all money to be raised by the authority of such law shall be applied only to the specific object stated therein, and to the payment of the debt thereby created. This section shall not be construed to refer to any money that has been, or may be, deposited with this State by the Government of the United States.

According to the foregoing (4th paragraph), the power of the State for making debt is limited to $100,000, except (1) for purposes of war, &c., and (2) when the authorization is for some single object of work specified therein, &c. In the latter case the mode of procedure is, as will be seen, given in the same paragraph of the constitution.

[On Nov. 2 1915 the voters decided against the question of issuing $1,000,-000 bonds for the purchase of what is known as the "Wharton Tract" in Atlantic and Burlington counties. V. 101, p. 1825. It was originally intended to issue these bonds in the name of the State Water Supply Commission, without a vote of the people, but the Court of Errors and Appeals on March 1 1915 decided that this would be in violation of the constitutional provision which prohibits the bonding of the State for a sum exceeding $100,000, except by direct vote of the people. See "Chronicle" of March 6 1915, page 829.]

The 1920 Legislature passed two bond acts which were approved by the voters at the November 1920 election, one for $15,000,000 for soldiers bonus, and the other $28,000,000 for a vehicular tunnel from Jersey City to New York and a bridge from Camden to Philadelphia. See V. 110, p 1771, 2103, respectively. $9,000,000 more for the latter purpose was authorized by the 1924 Legislature and the Act providing for same was put on ballot at the general election in 1924 and carried (V. 119, p. 2670).

At the November 1922 elections the voters defeated a proposition to issue $14,000,000 bonds for extending and improving various State institutions, the referendum having been authorized by Chapter 201, 1921 Laws of New Jersey. V. 113, p. 2210.

The 1922 Legislature, following the Governor's veto, passed a bill calling for the submission to the voters at the fall election of a bond issue of $40,000,000 for highways and bridges. At that election, Nov. 7 1922, the people by 260,929 "for" to 243,865 "against" voted favorably on the measure. V. 115, p. 2710.

The 1927 Legislature authorized $30,000,000 bonds for highway, subject to a favorable vote at the general election in November 1927 (Laws of 1927, Chatper 181.)

CITIES, COUNTIES, TOWNS, &c., are also restricted in the making of certain kinds of debt by Article I, paragraphs 19 and 20, of the constitution. We give these paragraphs in full:

19. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual, association or corporation, or become security for, or be directly or indirectly the owner of any stock or bonds of any association or corporation.

20. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever.

It will be noted that the above prohibitions are absolute.

Article IV, Section VII, Paragraph 11, of the constitution, forbids the passage by the Legislature of any special laws "regulating the internal affairs of towns and counties," the constitution directing that in this and all other cases where general laws are feasible, general laws shall be provided.

In compliance with this last provision the Legislature has from time to time passed many general laws relating to the different kinds of municipalities existing in New Jersey, but latterly the situation has been greatly simplified, and now the debt-incurring powers of New Jersey municipalities are regulated almost entirely by a series of general laws passed in 1916 1918, which practically supersede the complex system of laws described in

the "State and City Supplement" for Nov. 1916 and previous issues. These new statutes are Laws 1917, Chapter 152, known as the Home Rule Act (amended and supplemented by numerous subsequent Acts), which grants broad power to make public improvements; Laws 1918, Chapter 185 (as amended), which is a similar Act concerning the powers of counties: Laws 1916, Chapter 252 (amended by Laws 1917, Chapter 240, Laws 1918, Chapter 259; Laws 1920, Chapters 78, 108 and 252; Laws 1921, Chapters 120, 157, 164 and 235, Laws 1922, Chapters 114 and 233, Laws 1924, Chapters 89, 152, 175 and 246, Laws 1926, Chapters 60, 174 and 281, and Laws 1927, Chapters 84 and 239), known as the Pierson Bond Act, referred to at length below; Laws 1916, Chapter 112; Laws 1919, Chapter 73; Laws 1921, Chapters 98 and 234; Laws 1922, Chapter 230; Laws 1924, Chapter 90, and Laws 1927, Chapter 317, relating to loans for school purposes; Laws 1920 (Chapter 84, supplemented by Laws 1921, Chapter 30), directing the funding of floating debt; Laws 1917, Chapters 154 (amended by Laws 1918, Chapter 266), 155 and 156, creating the office of State Commissioner of Municipal Accounts and requiring municipalities to file with him financial reports and transcripts of proceedings for bond issues; Laws 1917, Chapter 192 (amended by Laws 1918, Chapter 242, Laws 1919, Chapters 178, 238, 242, Laws 1921, Chapter 29, Laws 1925, Chapter 166, and Laws 1927, Chapter 230,) providing for an annual budget and for temporary loans against revenues; Laws 1918, Chapters 267 and 268, and Laws 1921, Chapters 105 and 106, relating to the auditing of municipal accounts; Laws 1918, Chapter 238, establishing the fiscal year of municipalities; and Laws 1917, Chapter 212 (amended by Laws 1918, Chapter 243), providing for sinking funds for bonds heretofore issued (all future issues being required to be serial bonds).

THE PIERSON BOND ACT, mentioned above, authorizes and regulates the issuance of all bonds and notes of counties, cities, boroughs, villages, towns, townships and improvement commissions, other than bonds or notes for school purposes or against unpaid taxes or tax titles. Except in regard to registration and transfer of bonds, it supersedes all laws on the same subject matters passed before March 22 1916, and probably also those passed before Jan. 1 1917; but on the latter point the amendatory Act of 1917 is not entirely clear. Saving clauses in the Act make certain restrictions inapplicable to proceedings commenced before March 29 1917. The Act provides substantially as follows:

Power to Issue Bonds and Notes.—Power is given to issue bonds for any public improvement for which the municipality or county may lawfully make or for any other purpose for which it may lawfully appropriate money, except to pay current expenses or fund debts incurred after March 22 1916 for current expenses or refund bonds issued after that date. Power is also given to issue temporary bonds or notes to temporarily finance any purpose for which bonds may be issued under the Act. Such temporary obligations may run not longer than six years after such purpose has been carried out, unless the levying of special assessments for improvements for which the obligations are issued is delayed by litigation.

Term of Bonds.—Bonds must mature (*a*) within the probable life of the improvement or property for which they are issued, to be determined by the bond ordinance or resolution, but not to be deemed greater than the maximum period specified in the Act for such an improvement or property (a period ranging from 5 to 50 years); or (*b*) if the bonds are to fund debt incurred before March 22 1916 for unascertainable purposes, within 15 years; or (*c*) if for refunding, within 20 years; or (*d*) if for more than one such purpose, within the average of the periods assigned, to the several purposes, taking into consideration the amount of bonds for each purpose; or (*e*) if issued in anticipation of the collection of special assessments, within a period ending not more than two years after the last installment of the assessment will become delinquent.

Serial Bonds.—All bonds must mature in annual installments beginning not more than two years after the date of the bonds, and no installment can be more than 50% greater than the smallest prior installment.

Sale of Bonds.—Bonds cannot be sold below par. If the amount of the issue exceeds $10.000, they must be sold at public sale, unless sold within 30 days after a public sale at which no bids are received, or unless the sale is to the municipal sinking fund or insurance fund commissioners. Only such an amount of the bonds can be sold as will produce a sum less than $1,000 in excess of the amount of money necessary to be raised. In case of public sale, advertisement must be made in a local newspaper and also in a financial paper in New York City or Philadelphia. Temporary bonds or notes may be disposed of privately.

Debt Limits.—Except as noted below, the Pierson Bond Act prohibits a municipality from passing an ordinance or resolution authorizing bonds or notes under that Act in an amount which, with the amount of all evidences of indebtedness then outstanding, or to be issued under previous authorizations, exceeds 7% of the average of the three next preceding assessed valuations of taxable real property. In a county the limit is 4%. But in order that the statute may not work a hardship on municipalities heavily indebted at the time of passage of the Act, it permits municipalities to exceed the 7% limit so long as the bonds and notes issued or authorized under the Act after Dec. 31 1916 (including debt so incurred and paid) do not exceed 2% of the average assessed valuation of taxable real property for the years 1914, 1915 and 1916. The statute prescribes in great detail the method for computing and determining net debt under these limitations. The chief financial officer of the municipality or county is required to file annually with the clerk of the municipality or of the county board of freeholders, as the case may be, an "Annual Debt Statement," showing the debt situation as of the close of the preceding calendar year; and he must file a "Supplemental Debt Statement," showing the changes since the last annual statement, before the passage of any ordinance or resolution authorizing bonds or notes to which the debt limitations apply. The debt limitations do not apply to the issuance of bonds or notes for funding, refunding, water supply, or the construction or reconstruction of dikes, bulkheads, jetties or other devices on the ocean or inlet fronts to prevent the encroachment of the sea, including improvements to restore property demaged by the sea, or for the construction of boardwalks, pavilions, piers, bathing houses or other devices along the ocean front, or "for the acquisition of lands or interest in lands along the ocean front, or for the improvement thereof or for the construction of buildings thereon." Nor do they affect the incurring of debt under other laws, such as debts for schools or current expenses. But some of these exempted debts must be considered (as indicated below) in ascertaining the power to become indebted under the Act for other purposes. The net debt subject to the limits is computed by ascertaining the gross amount of all bonds or other evidences of debt outstanding, or authorized but not yet issued, or about to be authorized by the ordinance or resolution in connection with which the computation is made, exclusive of debts for current expenses of the current fiscal year, and by deducting from such gross amount (1) the following portions of the gross debt, viz.: (*a*) debts for self-sustaining utilities (not for support or maintenance), in so far as they do not exceed 3% of the average assessed valuation of taxable real property for the next preceding three years; (*b*) debts for schools, in so far as they do not exceed 6% of such average assessed valuation; (*c*) debts for water supply; (*d*) debts for ocean or inlet front improvements referred to above; (*e*) debts for certain sewer improvements in boroughs (Laws 1919, Chapter 51); (*f*) debts for certain highway improvements in counties (Laws 1918, Chapter 183); (*g*) certain county bonds payable out of motor vehicle funds received from the State (Laws 1921, Chapter 164); (*h*) debts for certain self-sustaining electric light plants (Laws 1921, Chapter 235, and Laws 1924, Chapter 246); (*i*) municipal debts for eliminating grade crossings, in so far as such debts do not exceed 2% of the average assessed valuations of taxable real estate for 1920 1921 and 1922 (Laws 1926, Chapter 281); and (*j*) municipal debts for "joint" sewers (Laws of 1925, Chapter 56), municipal debts for libraries (Laws of 1925, Chapter 241); also (2) the following assets, to the extent that they are applicable to the payment of any part of the gross debt not deducted as above stated, viz.: (*a*) uncollected special assessments levied or to be levied; (*b*) funds in hand or to be derived from the issuance of bonds or notes included in the gross debts, and (*c*) uncollected taxes levied to pay gross debt; and (3) also other assets to the extent that they are not included in the forefoing assets, viz.: (*a*) unpaid taxes not more than three years in arrears, and (*b*) amounts owing to the municipality on account of improvements for which any part of the gross debt, not deducted, was incurred or authorized.

Procedure for Issuing Bonds.—In boroughs and townships bonds cannot be issued without a vote of the people if protests against the issue are filed by one-third of the governing body or by taxpayers representing 10% of the assessed valuation of property. In other municipalities no election is provided for by the Pierson Bond Act; but the so-called Home Rule Act (Article 37, Section 24) apparently makes all bond ordinances subject to referendum if demanded by taxpapers.

Validation of Bonds.—The Act provides that the validity of bonds shall not be questioned in any suit commenced after the lapse of 20 days from the first publication of the ordinance or resolution authorizing them, unless issued in violation of the referendum provisions. In the case of Dale vs. Borough of Bayhead, bonds were sustained by reason of this provision. The Act also declares that bonds reciting that they are issued under th Act shall be incontestible

SCHOOL BONDS.—The issuance of bonds and other obligations for school purposes is authorized and regulated by the general School Law of 1913 (Comp. Stat. 1910, p. 4724), as amended. School bonds must mature serially as provided in the Pierson Bond Act, and within the maximum period specified in the School Law for the class of improvement or property for which they are issued, ranging from 10 to 40 years. Bonds for refunding school bonds must mature within 20 years and in annual installments, equal as nearly as practicable. If the bonds are issued for several purposes they must mature within the average of the periods assigned to the several purposes, taking into consideration the amount of bonds for each purpose, such average period to be conclusively determined by the governing body. The method of sale of bonds under the School Law is substantially the method prescribed by the Pierson Bond Act. The amount of school bonds in school districts governed by Article VI of the School Law is limited to 6% of the assessed valuation of property, but additional bonds up to 9% may be issued if approved at an election. There is no limit in districts governed by Article VII. Bonds of the latter districts cannot be attacked in litigation instituted after the lapse of 20 days after the election at which they are authorized.

The School Law makes every incorporated city, town, township and borough a school district. City school districts are governed by Article VI of this law, which practically makes the Board of Education a branch of the city government, their bonds being obligations of the city. School districts in towns, townships and boroughs are governed by Article VII, and their bonds are not obligations of the municipality with which they are coterminous. The School Law also provides that the voters of any city school district may accept the provisions of Article VII, and that the voters of a town, township or borough district may accept the provisions of Article VII, and be governed accordingly. So far as we are aware no city has accepted Article VII. But certain large towns and townships (West Hoboken, Union, Kearny, Montclair, Irvington, Weehawken and North Bergen) have accepted Article VI, because they found it cumbersome to submit all important matters as to taxation and bond issues to meetings of the voters as required by Article VII. An election is necessary for the issuance of bonds by school districts operating under Article VII, except districts embracing more than one municipality and having a population of more than 10,000, this exception being made by Chapter 73 of the Laws of 1919. Proceedings for the issuance of bonds by school districts under Article VII must be approved by the Attorney-General before the bonds can be issued. A supplement to the School Law, Laws 1911, p. 514, requires all school bonds to be signed, sealed, delivered and paid for in the State of New Jersey, such payment to be made by cash or certified check to the order of the custodian of school moneys.

TAX EXEMPTION OF MORTGAGES AND RAILROAD BONDS.—A law was enacted by the 1917 Legislature (Chapter 231) amending Section 10 of the General Tax Act of 1903 (Comp. Stat. of 1910, p. 5075), by providing that bonds issued by any railroad company of any State shall be exempt from taxation while owned by any savings bank or institution for savings of New Jersey. The following year, 1918, a law was enacted, Chapter 236, Laws of 1918 (General Tax Act, Revision of 1918) which law supersedes the General Tax Act of 1903. The make up of Section 10, as amended in 1917, was not affected, but as a result of the revision, Section 10 of the Tax Act of 1903 became Section 402, Chapter 236, Laws of 1918. Section 402, originally Section 10, reads as follows: "No mortgage or debt secured by mortgage on real property which is taxed in this State shall be listed for taxation: and no deduction from the assessed value of real property shall be made by the assessor on account of any mortgage debt, but the mortgagor or owner of the property paying the tax on mortgaged real property shall be entitled to credit on the interest payable on the mortgage for so much of the tax as is equal to the tax rate applied to the amount due on the mortgage, except where the parties have otherwise agreed, or where the mortgage is an investment of funds not subject to taxation, or where the parties have lawfully agreed that no deduction shall be made from the taxable value of the lands by reason of the mortgage. Bonds issued by any railroad company of any State shall be exempt from taxation while owned by any savings bank or institution for savings in this State."

TAX EXEMPTION OF PUBLIC SECURITIES.—An amendatory Act passed in 1921 (Chapter 320) provides for exemption from taxation of certain public securities. Section 203 of the General Tax Act of 1918, as amended in 1921 and as since amended by Chapter 276, Laws of 1922, and Chapter 221, Laws of 1925, now reads in part:

"203. The following property shall be exempt from taxation under this Act, namely:

"(1) (*a*) The bonds and other securities of the United States (other than circulating notes of national banking associations and United States legal tender notes and other notes and certificates of the United States, payable on demand and circulating or intending to circulate as currency, and gold, silver or other coin).

"(*b*) All bonds, securities, improvement certificates and other evidences of indebtedness, heretofore or hereafter issued by this State or by any county thereof, or by any taxing district or school district of this State.

"(*c*) The personal propertyowned by citizens or corporations of this State, situate and being out of the State upon which taxes shall have been actually assessed and paid within 12 months next before Oct. 1, being the day prescribed by law for commencing the assessment."

The change made in the above provisions by the 1925 amendment to the law substitutes the word "intending" for "intended" in paragraph *a*, sub-section 1, was not at all affected by the 1922 amendment.

LIMITATION OF TAX RATE.—Chap. 116, Laws of 1906, limiting the tax rate, was repealed by Chapter 9, Laws of 1914.

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS.—The savings bank law of New Jersey was completely revised by the State Legislature of 1906, without, however, changing in any essential respects the investment provisions. In 1913 the law was further amended to permit investment in certain bonds secured by first mortgage on terminal or dock property. See V 96, p. 1169. There were no amendments in 1915. In 1917 the Legislature passed an Act (Chapter 36) authorizing savings banks and other institutions in this State to invest in Federal Land Bank bonds. This we print in full below, at the end of Section 33. Another measure was adopted in 1917 (Chapter 171) amending paragraph VI in regard to investments in first mortgage bonds. See V. 104, p. 1721, Paragraph VI, was further amended by the 1920 Legislature. The 1919 Legislature passed an Act amending Section 36 so as to permit savings banks

to purchase from their available funds notes, drafts, bills of exchange or acceptances, eligible for rediscount with the Federal Reserve banks. An amendment was made to Section 34 by the 1924 Legislature authorizing any savings bank to loan to any of its depositors a sum not exceeding 90% of his deposit upon the promissory note of such depositor secured by his deposits. In 1926 Section 33 was amended quite materially, broadening the investments by savings banks. Subdivision VI of this section, dealing with railroad mortgage bonds, was changed so as to widen the scope of investments in such bonds. Subdivision VII, also amended, and which permits investments in real estate mortgage bonds, was altered so as to provide that the amount loaned shall not, at the time of making such loan, exceed 60% of the appraised value of the real estate covered by the mortgage. Previously the real estate had to be worth at least twice the amount of the loan. Investments may now also be made in bonds secured by a trust mortgage or in certificates of participation in bonds secured by a trust mortgage. To Section 33 there was also added two new subdivisions numbered IX and X. By subdivision IX savings banks are now allowed to invest in bonds issued, guaranteed or assumed by an operating public utility company. Subdivision X authorizes investments in railroad equipment obligations or certificates. Section 34 was also amended in 1926. By the change any savings bank may now loan to any of its depositors, upon notes, bills of exchange, &c., a sum not exceeding the amount of his deposit upon the promissory notes of such depositor secured by his deposit. Before it had been provided that such a loan to a depositor could not exceed 90% of his deposit. Reference is made below, under separate head, to Acts of 1917, 1925 and 1927, which add new classes of securities to those eligible for savings banks' investment. We give below in full the investment sections of the law:

VI. DEPOSITS—HOW INVESTED.

SECTION 33. No savings bank shall invest the moneys deposited with the same in any manner except as follows, to wit:

1. In stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is distinctly pledged to provide for the payment of the principal and interest thereof.

II. In the interest-bearing bonds of this State, or in any bonds authorized by the laws of this State, to be issued by any commission appointed by the Supreme Court of this State by virtue of any law of this State.

III. In the bonds of any State in the Union that has not, within ten years previous to making such investment by any such bank, defaulted in the payment of any part of either principal or interest in any debt authorized by any law of such State to be contracted.

IV. In the bonds of any county, township, municipality or school district of this State issued pursuant to the authority of any law of this State; provided, such county, township, municipality or school district shall not, within the five years next preceding, have defaulted in the payment of any part of either principal or interest of any legal debt or obligation thereof; and provided further, the total indebtedness of any borough or village does not exceed 10% of its assessed valuation, and such school district bonds are by law charged upon all the property of the inhabitants of such district; or in any interest-bearing obligation issued by the county in which such bank is situated, or by any city, town, township, borough or village in such county.

V. In the bonds of any city or county of any other State of the Union issued pursuant to the authority of any law of any such State; provided, no such city or county has, within ten years previous to making such investment, defaulted in the payment of any part of either principal or interest of any debt authorized by law of such State to be contracted; and provideu further, the total indebtedness of any such city or county is limited by law to 10% of its assessed valuation.

VI. In mortgage bonds issued, guaranteed or assumed by any railroad company, which has paid dividends of not less than 4% per annum regularly on its entire capital stock for a period of not less than five years next previous to the purchase of such bonds, or which such railroad company has otherwise covenanted or agreed to pay, and secured by a first lien upon not less than three-fourths of the rail mileage included in said mortgage or by a refunding mortgage under which bonds may be issued for the retirement or refunding of all prior lien mortgages on the property covered by such refunding mortgage, or by liens prior to any such refunding mortgage; or in bonds secured by any first or any such refunding or any such underlying mortgage upon a railroad terminal, depot, tunnel or bridge used by two or more such railroad companies which have guaranteed the payment of principal and interest of such bonds or have otherwise covenanted or agreed to pay the same; or in the bonds of any railway terminal or dock company of this State, secured by first mortgage on terminal or dock property fronting on the Hudson River or New York Bay and having an assessed value for the purpose of taxation in excess of the amount of the entire issue of bonds, and used and occupied as a dock or terminal by any railroad company now operating in this State.

VII. Not to exceed 80% of the total deposits may be invested:\
(a) In bonds secured by mortgages, which shall be a first lien on real estate situate in this State, providing the amount loaned on any such bond and mortgage shall not, at the time of making such loan, exceed 60% of the appraised value of the real estate covered by such mortgage; but in case the loan is on unimproved real estate, the amount loaned thereon shall not be more than 30% of its appraised value.

(b) In bonds secured by a trust mortgage or in certificates of participation in bonds secured by a trust mortgage, which trust mortgage shall be a first lien on improved real estate, situate in this State, provided the amount of any such bond shall not at the time of issue exceed 60% of the appraised value of the real estate covered by such trust mortgage, and provided that payment of the principal and interest of such bonds is guaranteed by a corporation organized under the laws of New Jersey and operating under the supervision of the Commissioner of Banking and Insurance.

No investment in any bond and mortgage or in any guaranteed bonds or certificates of participation therein shall be made by any savings bank, except upon the report of a committee of at least three of the managers, and two members of which committee shall certify in writing to the value of the premises mortgaged, or to be mortgaged, according to their best judgment; such report shall be filed and preserved among the records of the bank.

VIII. In real estate strictly in accordance with the following provisions:\
(a) A plot whereon is erected, or may be erected, a building or buildings requisite for the convenient transaction of its business, and from portions of which not required for its own use, a revenue may be derived; the costs of such building or buildings and lot shall in no case exceed 50% of the net surplus of such bank, except with the written approval of the Commissioner of Banking and Insurance; provided, that limitations as to the cost of such lot and building contained in this subdivision shall not apply to or affect any such investment heretofore made by a savings bank organized under a special charter.

(b) Such as shall have been purchased or acquired by it at sales upon the foreclosure of mortgages owned by such corporation, or upon judgments or decrees obtained or rendered for debts due to it, or in settlements effected to secure such debts, or in satisfaction of such mortgages; and all such real estate shall be sold by such bank within five years after the same shall have been so purchased, unless, upon application by such corporation to the Commissioner of Banking and Insurance, he shall extend the time within which such sale shall be made.

IX. Not more than 20% of the total deposits may be invested:\
In bonds issued, guaranteed or assumed by an operating public utility company, not less than 85% of the gross operating revenues of which is, at the time of such investment, derived from the operation of one or more of the following utilities, viz.: artificial gas, electric power or light, water, telephone or telegraph, or which such company has otherwise covenanted or agreed to pay.

Provided, that such bonds are secured by a first mortgage, or by a refunding mortgage under which bonds may be issued for the retirement or refunding of all liens prior thereto on the property covered thereby, or by a mortgage prior in lien to any such refunding mortgage.

Provided, further, that any such mortgage shall be a lien on real estate, rights or interests therein, leaseholds, plant, equipment, transmission or distribution system, or other fixed assets and franchises, and that the outstanding principal amount of bonds secured by such mortgage and any and all other mortgages thereon, the lien of which is equal therewith or prior thereto, shall not, at the time of such investment, exceed two-thirds of the book value of the fixed assets subject to the lien thereof, less reserves for depreciation and renewals, as shown on the books of such company, including such value of fixed assets leased to such company and operated by it under lease not expiring, by its trems, in less than fifty years from the time such investment is made, if such lease be subject to the lien of such mortgage; or that such mortgage shall be prior in lien to or shall underlie a refunding mortgage which meets the foregoing requirement.

Provided, further, that the gross operating revenues of such company, including those of predecessor and constituent companies, shall have averaged not less than $2,500,000 per annum for five calendar years or five nearer consecutive periods of twelve calendar months preceding such investment.

Provided, further, that the net operating revenues, including those of predecessor and constituent companies, after all operating expenses, but before deducting charges for depreciation and renewals and Federal taxes, available for fixed charges for rentals and interest on all outstanding mortgage debt, shall have averaged annually for three calendar years or three nearer consecutive periods of twelve calendar months preceding such investment not less than two and one-half times the average annual requirement during such period for such fixed charges (excluding inter-company items).

X. Not more than 10% of the total deposits may be invested:\
In equipment obligations or certificates, secured by railroad equipment under equipment or car trust, lease or conditional sale, or by first lien thereon, the principal amount of which does not exceed 80% of the purchase price of the equipment and which mature within fifteen years from the date of issue, serially or in equal annual or semi-annual installments beginning not later than three years after the date of issue.

The provisions of this section shall apply to all funds of any savings bank, including its reserve fund, and all investments of money and sales and transfers of securities may be made in the manner provided and made lawful in this Act, notwithstanding any provision in any special charter contained limiting the number of trustees or managers who shall act in the investment of moneys and the sale or transfer of stocks or securities.

36. The managers of every savings bank, as soon as practicable, shall invest the moneys deposited with them in the securities named in the thirty-third section, except that for the purpose of meeting current payments and expenses in excess of the receipts, there may be kept an available fund of not exceeding ten per centum of the whole amount of deposits with such bank; and the same may be kept on hand or on deposit in any solvent bank in this State, organized under the laws of this State or of the United States; or the same may be deposited on call, at interest, in such solvent trust company incorporated under the laws of this State or of the States of New York or Pennsylvania, or in such solvent national bank located in the State of New York or in the State of Pennsylvania, as a majority of the managers of such bank may direct, by resolution adopted at a regular or special meeting, and duly recorded on their minutes; or such available fund, or any part thereof, may be loaned upon pledge of the securities, or any of them, named in section 33 of this Act, but not in excess of eighty per centum of the market value of such securities so pledged; and should any of the securities so held in pledge depreciate in value after making any loan thereon the managers shall require the immediate payment of such loan, or a part thereof, or additional security therefor, so that the amount loaned shall at no time exceed eighty per centum of the cash market value of the securities pledged for the same or part of such available fund, not exceeding one-half thereof may be temporarily employed in the purchase of notes, drafts, bills of exchange or acceptances, which have a maturity at the time of purchase of not more than three months, exclusive of days of grace, and which are of the kind made eligible by law for rediscount with Federal Reserve banks organized under the Act of the Congress of the United States entitled "An Act to provide for the establishment of Federal Reserve banks, to furnish an elastic currency, to afford means of rediscounting commercial paper, to establish a more effective supervision of banking in the United States, and for other purposes," approved December 23 1913, and the supplements and amendments thereto, provided the same are indorsed or accepted by a bank or trust company in which such savings bank is herein permitted to deposit funds; *provided, further*, that the aggregate amount of the liability of any such bank or trust company to any such savings bank as indorser and acceptor shall not exceed ten per centum of the paid-up capital and surplus of such bank or trust company.

Section 5 of Chapter 305, Laws of 1926, which amends Sections 33 and 34, mention of which has already been made, expressly provides that "nothing herein contained shall repeal or affect the provisions of Chapter 36, Laws of 1917, or of Chapter 38 of the Laws of 1925, or of Chapter 192, Laws of 1920 as amended by Chapter 144 of the Laws of 1922, or of Section 2 of Chapter 228 of the Laws of 1925." Chapter 36 and 38 authorize investment in Joint Stock Land and Federal Land bank bonds. Chapter 192, Laws of 1920 as amended, is regarding investments in additional securities by trust funds. All these three are given below. Section 2 of Chapter 228, is in reference to branch offices of savings banks.

Savings Banks, &c., May Invest in Federal Land Bank Bonds—Also Joint Stock Land Bank Bonds.—Chapter 36, Laws of 1917, provides: "Any savings bank, banking institution, trust company or insurance company, organized under the laws of this State, or any persons acting as executor, administrator, guardian or trustee, may invest in the bonds issued by any Federal Land Bank organized pursuant to an Act of Congress entitled "An Act to provide capital for agricultural development, to create standard forms of investment based upon farm mortgage, to equalize rates of interest upon farm loans, to furnish a market for United States bonds, to create Government depositaries and financial agents for the United States, and for other purposes,' approved July 17 1916."

By Chapter 38, Laws of 1925, effective March 9 1925, savings banks, &c., are also authorized to invest in Joint Stock Land Bank bonds. The terms of this Act and the one above are almost identical, the only difference being in the mentioning of the bonds authorized for investments in each case.

Chapter 63, Laws of 1927, permits investment in loans secured by veteran's adjusted service compensation certificates. The text reads:

1. In addition to the investments now permitted by law, savings banks may invest in loans to World War veterans secured by adjusted service certificates issued under the Act of Congress known as the "World War Adjusted Compensation Act," in the manner now permitted or hereafter to be permitted by Act of Congress.

2. Such loans and the evidences thereof in the hands of any savings bank shall be exempt from taxation.

INVESTMENT OF TRUST FUNDS.—This subject is covered by the Act of May 8 1907, Public Laws 1907, p. 382; Comp. Stat. of 1910, p. 3864, printed in full in "Chronicle" of Nov. 23 1907, p. 1352. In 1913 the Legislature passed an Act (Chapter 247), giving executors, administrators or trustees authority to make investments in any securities in which savings banks of New Jersey may invest their funds.

Chapter 192 of the Laws of 1920 as amended by Chapter 144, Laws of 1922, and Chapter 305, Laws of 1926, now reads as follows:

Any executor, administrator, guardian or trustee whose duty it may be to loan moneys entrusted to him in addition to the securities in which he may invest the same under the provisions of the Act to which this is a supplement, may invest the same in shares or parts of bonds secured by mortgage or bonds secured by trust mortgage, and in participation certificates or coupon bonds which shall entitle the holder to a proportionate share in a series or number of mortgages and bonds or extensions or renewals thereof, deposited under a trust agreement with a trust company, bank, or title guarantee corporation, which shall be a first lien upon improved real estate, provided the amount of such mortgages shall not at the time of the making of such loan exceed sixty per centum of the estimated worth of the real estate covered by such respective mortgages at a rate of interest not less than three per centum nor greater than six per centum per annum; provided, that any share or part of such bonds and mortgages or bonds secured by such trust mortgages so held shall not be subordinate to any other bonds issued thereunder and shall not be subordinate to any prior interest therein; and provided, further, that bonds and mortgages in parts of which any fiduciary may invest trust funds, or, in the case of trust mortgages, the trust mogage, together with any guarantees of payment, insurance policies and other instruments and evidences of title relating thereto shall be held for the benefit of such fiduciary and of any other persons interested in such bonds and mortgages by a trust company, bank or title guarantee corporation organized under the laws of this State, or jointly by such a corporation, and an individual who is a citizen and bona fide resident of this State, and in mortgages other than trust mortgages, that a certificate setting forth that such corporation, or such corporation and such individual jointly as the case may be, holds such instruments for the benefit of such fiduciary and of any other persons who may be interested in such bond and mortgage among whom the corporation or the individual jointly holding such instruments may be included, be executed by such corporation and delivered to each person who becomes interested in such bond and mortgage. Every corporation, or corporation and individual jointly, issuing any such certificates, shall keep a record in proper books of account of all certificates issued pursuant to the foregoing provisions. An executor, administrator, trustee or other person holding trust funds may require such bonds or guarantees of payment to accompany investments as may seem prudent, and all premiums paid on such guarantees may be charged to or paid out of income, providing that such charge or payment be not more than at the rate of one per centum per annum on the par value of such investment. Any trust company, title company or bank, incorporated under the laws of this State and authorized

by its charter to transact the business of loaning money on bond and mortgage upon improved real estate, which are first liens thereon, may issue participation certificates or coupon bonds with a guarantee of payment of principal and interest and secured by a trust mortgage or trust agreement deposited with a trust company, bank or title company organized under the laws of this State, which trust mortgage or agreement may include a number of bonds and mortgages and shall designate them as a series set apart as security for such participation certificates or coupon bonds and refer to them by brief description of dates, parties, amounts, reference to location of property, maturity and rate of interest. Such trust agreement or mortgage shall contain suitable provisions for substitution and extension of mortgages and bonds secured thereby and it shall not be necessary to insert such details in the participation certificates or coupon bonds other than by reference to such trust mortgage or agreement.

INT. payable in N. Y. at Nat. City Bank and Nat. Park Bank, or Princeton Bank in Princeton.

RAHWAY.
This city, of Union County, became financially embarrassed in 1882, and a compromise of the debt, excl. of the water debt ($185,000), was forthwith agreed to with most of the leading creditors at 35 cents on the dollar, the debt, excl. of water debt, then amounting to about $1,200,000. This settlement was completed in 1894. These adjustment bonds were paid off on Nov. 1 1922. The water bonds were renewed in 1891 at 4%, an agreement having been made in 1890 by which all accrued interest at 7% was adjusted at the 35% rate. Interest on these water bonds is also now promptly paid. Commission Govt. adopted Dec. 10 1917.—V. 105, p. 2380. A proposal to abolish the present commission form of government and return to the former councilmanic rule, was carried at an election held on March 25 1924. Incorporated 1858.

Highway impt. bonds, 1925	4	J-D	Apr. 1 '30-'52	20,000,000
(See V. 120, p. 1654, for maturity.)				
Highway impt. bonds, 1925	4	M-S	Sept. 1 '31-'53	20,000,000
(Due $2,000,000 Sept. 1 1931, 1933, 1936, 1938, 1941, 1943, 1946, 1948, 1951 and 1953.)				
Highway impt. bonds, 1926	4	A-O	Oct. 1 '34-'54	10,000,000
(Due $2,000,000 Oct. 1 1934, 1939, 1944, 1949 and 1954.)				
Bonds are coupon and registered (interchangeable).				
(Optional on or after Dec. 1 1936.)				

TOTAL DEBT, &c.	*May* 31 '27.	*May* 31 '26.	*April* 1925.	*May* 31 '24.
Total public debt	$97,888,000	$86,388,000	$66,388,000	$50,046,320
Sinking fund	5,634,242	2,840,015	1,577,016	3,961,820
Net debt	$92,253,758	$83,547,985	$64,810,984	$46,184,500
Unfund. debt (incl. above)	$141,320	$120,815	$120,815	$120,815

The unfunded debt mentioned in the above table consists of relief notes in circulation, interest certificates unclaimed, interest on certificates outstanding, domestic creditors and bonds past due upon which interest has ceased.

In accordance with an Act of Legislature, Session of 1919, the fiscal year was changed to end May 31 instead of Nov. 30

The balance in the treasury on May 31 1927 amounted to $57,649,013.17. Among the items which make up this total are the following:

General fund	$20,972,350 94	Insurance tax fund	$1,689,245 68
Sinking fund	16,670 22	Dog fund	293,321 97

1890	5,258,014	1850	2,311,786				

PROPOSAL FOR NEW STATE CONSTITUTION DEFEATED.—On Nov. 4 1924 the people defeated a proposal for a constitutional convention for the purpose of preparing a new constitution, referred to them under authority of an Act passed by the 1923 Legislature (Act No. 289, Laws of 1923). The vote for the proposal was 329,883, and 988,442 against.

DEBT LIMITATION.—In Pennsylvania the limit to the indebtedness of the State, and to the indebtedness of the cities and minor civil organizations in the State, is fixed by the State constitution.

1. *State Indebtedness.*—With regard to the State, the regulations controlling and governing debt creation, payment, &c., are found in Sections 4, 5, 6, 11, 12, 13 and 14 of Article IX of the constitution.

Section 4 was amended in 1918 so as to authorize the issuance of $50,000,000 road bonds. See V. 107, p. 2393; also V. 108, p. 1533.

Another $50,000,000 road bond amendment was approved by the voters in November 1923. V. 117, p. 2455. $15,000,000 of these bonds were proposed to be sold on July 22 1924, but the enabling Act under which they were to be sold was questioned and later was found to be unconstitutional by both the Dauphin County Court and the State Supreme Court. (V. 120, p. 356.) However, the 1925 Legislature passed a new Act carrying the amendment into effect (V. 120, p. 1363), and $20,000,000 of the bonds were sold on Mar. 25 1925. Another $20,000,000 was sold in September 1925, and in the fall of 1926 the last $10,000,000 were issued.

The soldiers' bonus measure passed by the 1923 Legislature was declared unconstitutional by the State Supreme Court because the enabling Act prohibited its submission until the 1924 election. The amendment was attacked on the ground that submission in 1924 was unconstitutional, violating Article 18 of the State Constitution, which prohibits constitutional amendments oftener than once in five years. The constitution was last amended in 1923.

At the 1925 and 1927 sessions of the Legislature new legislation was passed providing for another constitutional amendment for $35,000,000 bonds for the paying of a soldiers' bonus. Six other proposed amendments are also awaiting the voters' approval, as follows: (1) $50,000,000 additional bonds for highway work; (2) $50,000,000 bonds for the acquisition of lands and buildings and the construction and improvement of State-owned buildings and the equipment thereof for the care and maintenance of penal offenders, delinquents, mental defectives, epileptics, and persons mentally diseased; (3) $100,000,000 bonds for the construction of office buildings in and a memorial bridge in and adjacent to the Capital Park, for the acquisition of lands and the construction thereon of State buildings and State institutions, and for the enlargement of existing State buildings and State institutions; (4) $5,000,000 bonds for State armories; (5) $25,000,000 bonds for the purpose of acquiring land in the State for forest purposes and (6) $8,000,000 State College bonds. The latter three have been approved by the Legislatures of 1923 and 1925. The other amendments, including the soldiers' bonus amendment, have been approved by the 1925 and 1927 Legislatures. As for popular approval, none of the proposed amendments can be submitted to the voters until 1928. It was sought to have the soldiers' bonus amendment voted on in November 1925, but, as already mentioned, the Dauphin County Court on April 22 1925, in a test case, held that the Constitution could not be amended oftener than once in five years and as it was last amended in 1923 the next year is 1928. This ruling was affirmed by the State Supreme Court on June 22 1925. The Supreme Court handed down a similar decision in 1924 in the case of the original soldiers' bonus amendment referred to above.

The sections of the constitution regulating public indebtedness read as follows:

ARTICLE IX, SEC. 4. No debt shall be created by or on behalf of the State, except to supply casual deficiencies of revenue, repel invasions, suppress insurrection, defend the State in war, or to pay existing debt; and the debt created to supply deficiencies in revenue shall never exceed, in the aggregate at any one time, one million of dollars; provided, however, that the General Assembly, irrespective of any debt may authorize the State to issue bonds to the amount of one hundred millions of dollars for the purpose of improving and rebuilding the highways of the Commonwealth.

[The 1917 Legislature provided for the issuance of $5,000,000 4% bonds for the purpose of repelling invasions, suppressing insurrections and defending the State in war. The full text of the Act was given in V. 106, p 622.]

SECTION 5. All laws authorizing the borrowing of money by and on behalf of the State shall specify the purpose for which the money is to be used, and the money so borrowed shall be used for the purpose specified and no other.

SECTION 6. The credit of the Commonwealth shall not be pledged or loaned to any individual, company, corporation or association, nor shall the Commonwealth become a joint-owner or stockholder in any company, association or corporation.

SECTION 11. To provide for the payment of the present State debt, and any additional debt contracted as aforesaid, the General Assembly shall continue and maintain the sinking fund sufficient to pay the accruing interest on such debt, and annually to reduce the principal thereof by a sum not less than two hundred and fifty thousand dollars; the said sinking fund shall consist of the proceeds of the sales of the public works, or any part thereof, and of the income or proceeds of the sale of any stocks owned by the Commonwealth, together with other funds and resources that may be designated by law, and shall be increased from time to time by assigning to it any part of the taxes or other revenue of the State not required for the ordinary and current expenses of government, and unless in case of war, invasion or insurrection, no part of the said sinking fund shall be used or applied otherwise than in the extinguishment of the public debt.

SECTION 12. The moneys of the State, over and above the necessary reserve, shall be used in the payment of the debt of the State, either directly or through the sinking fund, and the moneys of the sinking fund shall never be invested in or loaned upon the security of anything except the bonds of the United States or of this State.

SECTION 13. The moneys held as necessary reserve shall be limited by law to the amount required for current expenses, and shall be secured and kept as may be provided by law. Monthly statements shall be published, showing the amount of such moneys, where the same are deposited, and how secured.

SECTION 14. The making of profit out of the public moneys, or using the same for any purpose not authorized by law, by any officer of the State, or member or officer of the General Assembly, shall be a misdemeanor, and shall be punished as may be provided by law; but part of such punishment shall be disqualification to hold office for a period of not less than five years.

(2) *County and Municipal Indebtedness.*—Under the laws of Pennsylvania the power to create county loans is in the Board of County Commissioners, which consists in each county of three persons, elected biennially under the minority system of voting, by which the minority party in each county usually has one member of the Board.

In cities and boroughs the power to create indebtedness is vested in councils, municipal debts being created by ordinance.

The creation of county, city and other municipal indebtedness is subject to the following constitutional limitations:

ARTICLE IX, SEC. 7. The General Assembly shall not authorize any county, city, borough, township or incorporated district to become a stockholder in any company, association or corporation, or to obtain or appropriate money for, or to loan its credit to, any corporation, association, institution or individual.

SECTION 8 (as amended Nov. 2 1915—See V. 101, p. 1207 and Nov. 2 1920)—The debt of any county, city, borough, township school district or other municipality or incorporated district, except as provided herein and in Section 15 of this Article, shall never exceed seven per centum upon the assessed value of the taxable property therein, but the debt of the city of Philadelphia may be increased in such amount that the total city debt of said city shall not exceed ten per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt, or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property, without the consent of the electors thereof at a public election in such manner as shall be provided by law. In ascertaining the borrowing capacity of said city of Philadelphia, **at any time, there shall be excluded from the calculation during the year immediately preceding the time of such ascertainment and such capitalization shall be estimated by ascertaining the principal amount which would yield such annual current net revenue, at the average rate of interest, and sinking fund charges payable upon the indebtedness incurred by said city for such purposes, up to the time of such ascertainment. The method of determining such amount so to be deducted, may be prescribed by the General Assembly.** (At the 1921 session the General Assembly, in conformity to this provision, provided that in computing its borrowing capacity, the city of Philadelphia could deduct any debts charged against any public improvement or utility, the revenue from which is or will be sufficient to pay the interest and sinking fund charges, the calculations to be passed upon by the Court of Common Pleas.)

In incurring indebtedness for any purpose the city of Philadelphia may issue its obligations maturing not later than fifty years from the date thereof, with provision for a sinking fund sufficient to retire said obligation at maturity, the payments to such sinking fund to be in equal or graded annual or other periodical installments. Where any indebtedness shall be or shall have been incurred by said city of Philadelphia for the purpose of the construction or improvement of public works of any character from which income or revenue is to be derived by said city, or for the reclamation of land to be used in the construction of wharves or docks owned or to be owned by said city, such obligations may be in an amount sufficient to provide for and may include the amount of the interest and sinking fund charges accruing and which may accrue thereon throughout the period of construction and until the expiration of one year after the completion of the work for which said indebtedness shall have been incurred; and said city shall not be required to levy a tax to pay said interest and sinking fund charges as required by section ten of article nine of the Constitution of Pennsylvania until the expiration of said period of one year after the completion of said work.

Under an amendment proposed to Section 8, passed by the 1925 and 1927 Legislatures, but which is still to be submitted to the voters, the total debt limit of the City of Philadelphia would be increased to 14%, but no extra debt exceeding 3% of the valuation of the taxable realty of the city could be incurred without consent of the electors. The proposed amendment reads:

"In ascertaining the borrowing capacity of the City of Philadelphia at any time there shall be deducted from such debt so much of the debt of said city as shall have been incurred or is about to be incurred and the proceeds thereof expended or about to be expended upon any public improvement, or in the construction, purchase, or condemnation of any public public utility or part thereof or facility therefor to the extent that such public improvement or public utility or part thereof, whether separately or in connection with any other public improvement or public utility or part thereof, may yield or may reasonably be expected to yield, revenue in excess of operating expenses for or towards the payment of the interest and the sinking fund charges thereon. The method of determining such amount so to be deducted shall be prescribed by the General Assembly."

SECTION 9. The Commonwealth shall not assume the debt, or any part thereof, of any city, county, borough or township, unless such debt shall have been contracted to enable the State to repel invasion, suppress domestic insurrection, defend itself in time of war, or to assist the State in the discharge of any portion of its present indebtedness.

SECTION 10. Any county, township, school district or other municipality incurring any indebtedness shall, at or before the time of so doing, provide for the collection of an annual tax sufficient to pay the interest, and also the principal thereof within thirty years.

SECTION 15—(Added by amendment adopted by voters in Nov. 1913.) No obligations which have been heretofore issued, or which may hereafter be issued, by any county or municipality, other than Philadelphia, to provide for the construction or acquisition of water-works, subways, underground railways or street railways, or the appurtenances thereof, shall be considered as a debt of a municipality, within the meaning of Section 8 of Article IX of the Constitution of Pennsylvania, or of this amendment, if the net revenue derived from said property for a period of five years, either before or after the acquisition thereof, or, where the same is constructed by the county or municipality, after the completion thereof, shall have been sufficient to pay interest and sinking fund charges during said period upon said obligations, or if the said obligations shall be secured by liens upon the respective properties and shall impose no municipal liability. Where municipalities or counties shall issue obligations to provide for the construction of property, as herein provided, said municipalities or counties may also issue obligations to provide for the interest and sinking fund charge accruing thereon until said properties shall have been completed and in operation for a period of one year; and said municipalities and counties shall not be required to levy a tax to pay said interest and sinking fund charges, as required by Section 10 of Article IX of the Constitution of Pennsylvania, until after said properties shall have been operated by said counties or municipalities during said period of one year. Any of the said municipalities or counties may incur indebtedness in excess of 7%, and not exceeding 10% of the assessed valuation of the taxable property therein, if said increase of indebtedness shall have been assented to by three-fifths of the electors voting at a public election in such manner as shall be provided by law.

The Legislature in 1917 passed an Act requiring all counties, cities, boroughs, townships, school districts, &c., to sell any bonds or other securities issued by them to the highest bidder, after due public notice. See V. 106, p. 622.

The Legislature in 1921, 1923 and 1925 passed a number of Acts making allowance for and validating bonds issued or authorized by counties, cities, boroughs, townships, school districts, and other incorporated districts or municipalities, under authority of an Act approved April 20 1874, entitled "An Act to regulate the manner of increasing the indebtedness of municipalities, to provide for the redemption of the same, and to impose penalties for the illegal increase thereof," and amendments thereto, but in the authorization of which there has been some minor discrepancy or violation.

TAXATION OF MUNICIPAL AND SCHOOL BONDS.—All bonds issued by municipalities, counties and school districts in Pennsylvania are subject to a State tax of four mills, which is paid by the place issuing the bonds and deducted from the remittance of interest to the bondholder, unless the bonds are issued as "tax-free," when the municipality itself assumes the tax. See V. 93, p. 359.

SCHOOL CODE.—The school laws of this State were codified in the new School Code approved May 18 1911. One of the important provisions of this law is (Sec. 506) that the Directors of school districts may incur debt and issue bonds "only at the time of assessing and levying the annual school taxes." Thus school bonds can only be issued at the time of the school tax levy, which must be in April or May.

SAVINGS BANKS INVESTMENTS—POWERS AND RESTRICTIONS.—Philadelphia is, we believe, entitled to the distinction of starting the first savings institution in the United States. The name this association bore was the "Philadelphia Savings Fund Society," and it still exists, bearing the same name. Originally the bank was not incorporated, but was a voluntary organization, such societies in Great Britain being at the

time of a like character. The date of the organization was November 27 1816, and the bank was opened for business Dec. 2 1816. The oldest ledger of the company goes back to the time of opening, and shows a deposit on that day (December 2 1816) of five dollars. The company was not incorporated until February 25 1819. The second savings institution in the State, however, did not come into existence until 1847. In 1889 a general law facilitating the incorporation of savings banks was passed by the Legislature. Still, the report of the Banking Department of Dec. 31 1926 shows that the total number of savings banks within the State was only ten. The aggregate deposits of these banks at that date was $390,217,164.37.

The provisions of the special charters are all liberal as to investments. A law passed in 1885, and a supplement of the same passed in 1889, authorizing the extension for twenty years of special charters, contains the following:

"*Provided also*, that no * * * Savings Institution or Savings Bank having no capital stock, renewing or extending its charter, corporate rights and franchises, under the provisions of this Act, shall thereafter be allowed the privileges of a bank of discount, nor be allowed to loan any money received on deposit, *except* upon first mortgage or lien upon real estate within this Commonwealth, upon the bonds or securities of the United States or of this State, or upon county, city, borough, township or school bonds of any county, city, borough, township or school district, *or any other good and valid securities*."

Authority to loan on any "good and valid security" appears to confer about as broad a discretion upon the managers as could be expressed in a statute.

In 1897 an Act was passed allowing savings institutions and savings banks chartered under Special Acts to invest in Pennsylvania county and municipal bonds, notwithstanding any provisions of their charters. The law follows:

CHAPTER 77, LAWS OF 1897.—From and after the passage of this Act all provident institutions, savings institutions and savings banks, chartered under Special Acts of this Commonwealth of Pennsylvania, may, notwithstanding any provisions of their charter, loan the moneys received by them on deposit upon the bonds of any county, city, borough, township or school district within this Commonwealth issued pursuant to the authority of any law of this Commonwealth for the payment of which the faith and credit of the municipality issuing them are pledged.

It was not until 1889, as already stated, that a general law facilitating the organization of savings institutions was passed. The following is section 17, which contains the investment limitations; we would especially direct attention to subdivision four of this section:

SECTION 17.—It shall be lawful for the trustees of any savings bank to invest money deposited therein only as follows:

(1) In the stocks or bonds or interest-bearing notes or the obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and the principal.

(2) In the stocks or bonds of the Commonwealth of Pennsylvania bearing interest.

(3) In the stocks or bonds of any State in the Union that has not within ten years previous to making such investments, by such corporation, defaulted in the payment of any part of either principal or interest of any debt authorized by any Legislature of such State to be contracted.

(4) In the stocks or bonds of any city, county, town or village of any State of the United States issued pursuant to the authority of any law of the State, or in any interest-bearing obligations issued by the city or county in which such bank shall be situated.

(5) In bonds and mortgages on unincumbered, improved real estate situated in this State.

The next section (18) relates to the temporary deposit of funds in banks and trust companies. It makes it lawful to deposit temporarily in banks or trust companies the excess of current daily receipts over the payments until such time as the same can be judiciously invested in the securities named above.

FEDERAL FARM LOAN BONDS.—In 1917 an Act allowing savings banks to invest in Federal Land Bank bonds was passed. The law was amended in 1923 so as to make eligible for savings bank investment Joint Stock Land Bank bonds as well as the Federal Land Bank obligations. The law, as amended by Act No. 336, Laws of 1923, reads as follows:

SECTION 1. Be it enacted, &c., That from and after the passage of this Act, trustees or directors of savings banks, savings institutions, and provident institutions, chartered under general or special acts of Assembly of this Commonwealth, may, notwithstanding any provisions of their charter, or of any Act of Assembly under which they may have been incorporated, invest the moneys deposited in said savings banks, savings institutions, and provident institutions in Farm Loan bonds issued by Federal Land banks and Joint Stock Land banks operating under the provisions of the Act of Congress of the United States of July 17 1916, its amendment or supplements.

INVESTMENT OF TRUST FUNDS.—Section 41a of the Fiduciaries Act of June 7 1917, as amended by Chapter 381, Laws of 1923, relating to investment of trust funds reads:

SECTION 41a.—When a fiduciary shall have in his hands any moneys, the principal or capital whereof is to remain for a time in his possession or under his control, and the interest, profits, or income whereof are to be paid away, or to accumulate, or when the income of real estate shall be more than sufficient for the purpose of the trust, such fiduciary may invest such moneys in the stock or public debt of the United States, or in the public debt of this Commonwealth, or in bonds or certificates of debt now created or hereafter to be created and issued according to law by any of the counties, cities, boroughs, townships, school districts, or poor districts of this Commonwealth, or in bonds of one or more individuals secured by mortgage on real estate in this Commonwealth, which may be either a single bond secured by a mortgage or one or more bonds of an issue of bonds secured by mortgage or deed of trust to a trustee for the benefit of all bondholders, or ground-rents in this Commonwealth; *Provided*, That nothing herein contained shall authorize any fiduciary to make any investment contrary to the directions contained in the will of the decedent in regard to the investment of such moneys.

Under authority of Sec. 1, Act of April 5 1917 (Pamphlet Laws 46), as amended by Act No. 430, Laws of 1923, fiduciaries are also permitted to invest in Farm Loan bonds issued by Federal Land banks or by Joint Stock Land banks.

Section 22 of Article III of the Constitution prohibits the Legislature from passing any Act permitting investment of trust funds in the securities of private corporations. The section reads:

SECTION 22.—No Act of the General Assembly shall authorize the investment of trust funds by executors, administrators, guardians or other trustees, in the bonds or stock of any private corporation, and such Acts now existing are avoided saving investments heretofore made.

PHILADELPHIA.
W. Freeland Kendrick, Mayor; Willb. Hadley, City Controller.
Philadelphia, co-extensive with the county of the same name, is the third largest city of the U. S., and has an area of nearly 130 square miles. The city was founded in 1682 by William Penn, chartered in 1787, and consolidated in 1854 with numerous outlying districts and boroughs. Many sections of the city of Philadelphia still retain their old names and are constantly referred to as such. Among these may be mentioned Germantown, Manayunk, Frankford, Bridesburg, Roxborough, West Philadelphia, Richmond, &c., &c. The county is under city control and has no separate debt.

TAX-FREE.—All bonds are exempt from tax to holders.

TOTAL DEBT, SINKING FDS., &c.—The subjoined statement shows Philadelphia's total municipal debt. [By a decision of the Supreme Court of Pennsylvania, filed May 31 1894, it is held that, within the meaning of the word "Debt" in Section VIII, Article IX, of the Constitution of Pennsylvania, the real debt of the city is the authorized debt less the amount of the city certificates purchased and uncanceled in the sinking fund.]

Fund. debt Jan 31 '27	$509,234,600
Floating debt (mortgage, ground rents, &c.)	185,613
Mandamuses outstand'g	231,550
Awards of juries and board of view	2,666,534
TOT. DEBT Jan 31 '27	512,318,297
Sinking funds	78,022,500
Tot. net debt Jan 31 '27	434,295,797
Cash in and income of sink. fund applicable within present fiscal year to payment of Jan 31 '27	13,831,302

BORROWING CAPACITY.—The borrowing capacity of the city on Jan. 31 1927 was $31,600,000.

CITY DEBT LIMIT.—Under an amendment proposed to Section 8 of Article IX of the State Constitution, passed by the 1925 Legislature, but which must be again approved for a second time and then submitted to the voters, the total city debt limit of the City of Philadelphia would be increased to 14%, with a requirement that not exceeding 3% of the extra indebtedness may be incurred without consent of electors.

CITY PROPERTY.—The city owns land, buildings, equipment and other permanent improvements valued on Jan. 1 1927 at ... $611,891,526

ASSESSED VALUATION, &C.—The following shows the assessed value of property, and the tax rate, for years indicated. Property in this city up to and including 1903 was assessed at about 80% of its actual value. In 1904, however, values were increased to nearly real value resulting in a decreased tax rate.

Years—	Assessed Real Estate and Personal Estate Valuation	Tax rate per $1,000
1927	$3,170,200,032	$26.50
1926	$3,035,855,176	$27.00

PITTSBURGH. John H. Henderson, Comp.

This city, now known as "Greater Pittsburgh," is situated in Allegheny County. Legislature of 1905 passed an Act providing for the annexation of Allegheny; on Nov. 18 1907 the U. S. Supreme Court held the law valid (V. 85, p. 1352), and annexation became effective Dec. 9 1907. The boroughs of Sheraden and Montooth were also annexed in 1907. Beechview annexed on Jan. 1 1909. At an election held Dec. 9 1919—V. 109, p. 2282—the voters of the Borough of Spring Garden voted for annexation to the City of Pittsburgh. Chartiers Twp. on Dec. 14 1920, voted for annexation. On Dec. 5 1920 the borough of St. Clair voted for annexation, effective Jan. 1 1923. On Feb. 5 1924 a portion of lower St. Clair Township was annexed (53 acres), and on Nov. 23 1925 a portion of Swissvale in which Frick Park is located, was annexed (21 acres); effective the first Monday of January 1927, the Boroughs of Carrick, Knoxville and Westwood were annexed. All bonds issued in coupon form with privilege of exchange for fully registered bonds.

On July 3 1915 the State Supreme Court handed down a decision bearing upon the computation of debt subject to the 2% limit or "councilmanic" debt, that is, debt incurred by the City Council without a vote of the electors, as distinguished from "electoral" debt, which is not subject to the 2% limit. See "Chronicle" of Aug. 7 1915, page 465. The constitutional limit for all debt is 7%. "English Act" cases affirmed by State Supreme Court on May 22 1916, see "Chronicle" of June 10 1916, page 2180.
